## **CIT's Mission**

To provide student-centred education with a career focus for the benefit of the personal, intellectual and professional development of the student and for the benefit of the whole of society.

# A Message from the President

Dear Student,

It gives me great pleasure as the President of CIT to introduce the Continuing Education Handbook for 2014/2015.

For CIT, Continuing Education and Continuing Professional Development are vital and growing areas of our total education provision. Continuing Education learners are an essential part of our Institution. We value their commitment to, and enthusiasm for their studies and we enjoy working with them.

With the rapid changes in society, the workplace and technology, continuing education and professional development are now more essential than ever.

Here in CIT we provide an extensive range of courses with flexible modes of delivery that will allow you to continue the process of lifelong learning. I hope you will join us in 2014/2015.

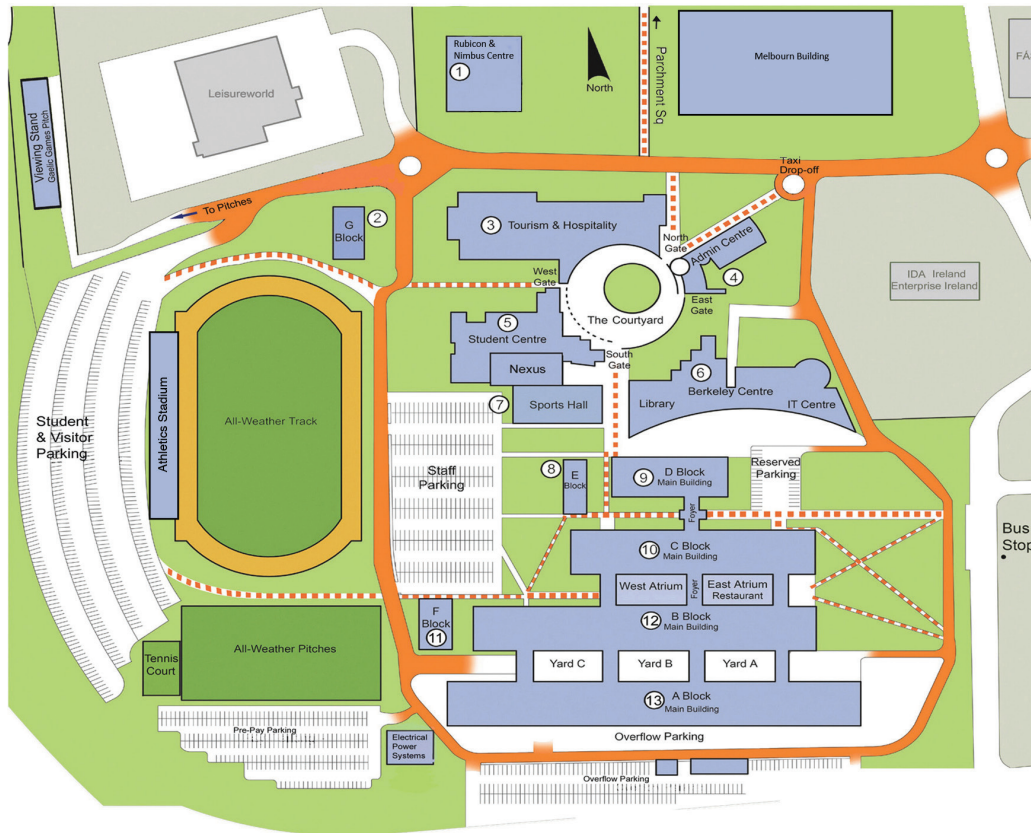

**Dr Brendan J. Murphy**

President

---

June 2014

# Bishopstown Campus

## Admissions/Registrations

T: 021 433 5044/5043

E: [admissions@cit.ie](mailto:admissions@cit.ie)

## Examinations

T: 021 433 5381/5385

E: [exams@cit.ie](mailto:exams@cit.ie)

## Course Fees

T: 021 433 5440

E: [fees@cit.ie](mailto:fees@cit.ie)

## Opening Hours

### Admissions/Examinations

When classes are running:

**Monday – Thursday**

9.30am – 4.00pm

**Friday**

9.30am – 12.30pm

2.00pm – 4.00pm

When classes are not running:

**Monday – Friday**

9.30am – 12.30pm

2.00pm – 4.00pm

## Opening Hours

### Reception

**Monday – Friday**

9.00am – 1.00pm

2.00pm – 5.00pm

### Accounts

**Monday – Friday**

9.30am – 12.00noon

2.00pm – 4.00pm

# About Cork Institute of Technology

Whatever your plans and talents  
CIT has a course to study for you.  
We offer the full range of Higher  
Education qualifications, including  
Bachelor Degrees and Honours  
Bachelor Degrees, as well as Masters  
and PhD degrees.

There is a flexible “ladder” system in place which in many cases allows you to progress from one award to the next.

For those returning to education from employment or for those with other commitments, CIT has a varied part-time and evening programme, one of the largest at third level in the country.

**CIT is the largest Institute outside Dublin. It has four principal campuses:**

## **Bishopstown Campus**

Bishopstown, Cork

## **CIT Crawford College of Art & Design (CIT CCCAD)**

Cork City

## **CIT Cork School of Music (CIT CSM)**

Cork City

## **National Maritime College of Ireland (NMCI)**

Ringaskiddy, Co. Cork

The main campus of some eighty acres is situated in the western suburbs of Cork city. It is comprehensively equipped with lecture rooms, laboratories, theatres, drawing studios, library, computer suites, open-access computing centre, and research units.

CIT’s student centre includes a common room, café, shops, Students’ Union, clubs, and societies. Recreational facilities for students include a championship standard running track, tennis courts, all-weather pitch, an excellently appointed gymnasium, and grass playing pitches. A heated indoor public swimming pool and fitness centre (Leisureworld) is located alongside the Institute.

The student population comprises approximately 13,800 between full-time and part-time courses. Courses are offered in Engineering, Science, Business, Humanities, Art, Ceramics, Multimedia, Music, and Theatre & Drama at Higher Certificate, Degree and Honours Degree level. There is also an extensive range of postgraduate research and taught programmes at Masters and Doctoral level.

The third-level courses offered by CIT are nationally and internationally recognised by the Quality & Qualifications Ireland (QQI). In November 2012, QQI was established as a new integrated agency (replacing the Further Education & Training Awards Council (FETAC), the Higher Education & Training Awards Council (HETAC) and the National Qualifications Authority of Ireland (NQAI), and incorporating the functions of the Irish Universities Quality Board). FETAC, HETAC, and NQAI are now dissolved.

QQI is responsible for the external quality assurance of further and higher education and training (including English language provision), and validates programmes and makes awards for certain providers in these sectors. QQI is also responsible for the maintenance, development and review of the National Framework of Qualifications (NFQ).

Awards and qualifications formerly made by HETAC and FETAC continue to be recognised, because they are on the NFQ. Current programmes leading to a HETAC or FETAC award are now awarded by QQI. The Institute has always sought the widest possible recognition for its courses and has established relationships with a wide variety of professional bodies for that purpose. For example, CIT’s engineering courses are accredited by Engineers Ireland and consequently have world-wide recognition. CIT’s business courses gain exemption and recognition from a variety of accounting, marketing and management professional bodies.

Effective contact with industry has been a key objective of the Institute since its inception. The benefits of the links which have been established with industry in the region are reflected in the high levels of student placement, and in the R & D contracts won by the Institute.

CIT offers students an opportunity to pursue courses of proven merit in a progressive and caring environment where students’ needs are treated as paramount.

**For further information, visit our website: [www.cit.ie](http://www.cit.ie)**

# About Cork Institute of Technology

## Information/Registration for Continuing Education Courses

Institute staff will be in attendance during each session to offer career guidance and assistance.

Information/Registration for the academic year beginning September 2014 will take place at the Institute from 6.00pm to 8.00pm on the following dates:

### Tuesday 2nd September 2014

#### Faculty of Business & Humanities:

Business Studies & Accounting, Human Resource Management, Media Communications, Marketing, Tourism & Hospitality, and Counselling & Psychotherapy.

### Wednesday 3rd September 2014

#### Faculty of Engineering:

Chemical, Civil, Structural & Environmental, Construction, Mechanical, Biomedical & Manufacturing, Nautical, Transport & Automobile, and Craft Studies.

#### Faculty of Science & Informatics:

Applied Physics & Instrumentation, Biological Sciences, Chemistry, Computing, and Mathematics.

### Thursday 4th September 2014

#### CIT Crawford College of Art & Design:

Enrolment will take place at the CIT Crawford College of Art & Design, Sharman Crawford Street, Cork, from 6.00pm to 8.00pm.

## Student Email System

All students will be issued with a CIT email address on Registration. Please ensure that you refer to this email address regularly as all communication from the Institute will be sent to your CIT email address.

This includes information concerning examination timetables, examination results, class cancellation, projects, placements, job opportunities, etc.

If you have any difficulty setting up or accessing your email account, please email [servicedesk@cit.ie](mailto:servicedesk@cit.ie)

## Identification Cards

All registered students of the Institute are required to have a current CIT ID card. ID cards will be issued on registration. A passport-sized photograph is required for this purpose.

There is no charge for this service. CIT ID cards will be required to access various secure areas in the Institute such as the Library, Open Access, Gym, etc.

**N.B.** Students will need to produce a current CIT ID Card if they wish to sit examinations.

Enquiries concerning ID cards should be directed to  
**E:** [idcards@cit.ie](mailto:idcards@cit.ie), or **T:** 021 433 5290.

## Money Matters

### Tax Relief

Tax Relief on Tuition Fees - Third Level Education Courses must be at least 2 academic years duration for undergraduates and 1 year for postgraduate course. Tax relief is available for one course per individual in a tax year and is at the standard rate of tax. See leaflet IT1 "Tax Credits, Rates & Reliefs" also available from Revenue Forms & Leaflets – Lo Call 1890 306706

### Fees

Details of course fees are included with the course information in this handbook. Except where stated, course fees cover the cost of tuition only. Registration fees for professional bodies etc. are payable separately to these institutions.

Students will be notified of their fees by email to their CIT email account and in all cases, course fees must be paid before attending lectures.

Students can check their account balance and pay their fees online at [www.cit.ie/pay](http://www.cit.ie/pay)

**Failure to pay fees on time will result in a late payment fee of 10% being applied.**

- Where course fees are being funded by an employer, you are asked to seek payment or reimbursement from your employer.
- For semesterised courses, students pay for the relevant modules at the beginning of each semester. Payment of fees by laser, debit or credit card can be made online at [www.cit.ie/pay](http://www.cit.ie/pay) or by phoning 021 433 5440.

**Students should familiarise themselves with the relevant section of the Student Regulations.**

Please note that the Fees Office will use your CIT email account for important communications.

## Refund Policy

All programmes at CIT will run subject to sufficient student numbers. Where a programme cannot proceed, applicants will be contacted and advised on alternative study options.

The following refund policy applies to all courses detailed in this handbook for the 2014/15 academic year:

- A full refund will be given to all applicants for courses which do not proceed.
- A full refund (less 15% administration fee) will be given to applicants for short courses if requested up to one week after course commencement. No refunds will be given thereafter.
- A full refund (less 15% administration fee) will be given to applicants for semesterised courses if requested up to one month after semester commencement. No refunds will be given thereafter.
- A full refund (less 15% administration fee) will be given to applicants for full year courses if requested before 31st October 2014. No refunds will be given thereafter.
- All applications for refunds must be made on the appropriate Refund Form, which can be requested by emailing [fees@cit.ie](mailto:fees@cit.ie). Please note refund policy will be strictly adhered to.

**NB:** Before signing the Enrolment Form, students are reminded to ensure that they have clearly understood all the terms of their enrolment with CIT, in particular clauses concerning refunds, deferments, waivers, course transfers, and visa applications (when applicable).

## Examinations

Entering for examinations is the responsibility of the registered student.

### Semester examinations

For semester 1, 2 and 3 examinations, students should ensure they are correctly registered for all required modules by the deadlines indicated – see <http://www.cit.ie/aboutcit/servicesandadministration/admissions/>

### Repeat examinations

Modules failed in semester 1 or 2 may be repeated at the autumn session. To register, students should register online as per the email sent in late June to all students needing to repeat – see also [www.mycit.ie/examinations](http://www.mycit.ie/examinations)

### Examination timetables and regulations

Information re student examination timetables and examination regulations will be emailed to student mycit email accounts normally three weeks before the examination session. Students should familiarise themselves with the important documents which relate to examinations at CIT, available online at [www.mycit.ie/examinations/regulations/](http://www.mycit.ie/examinations/regulations/)

### Fees

Only students who have completed their registration processes (i.e. paid their fees in full) are entitled to sit examinations. To make an online payment please go to [www.cit.ie/pay](http://www.cit.ie/pay)

### Employer paying fees

If the student's employer or any outside agency is paying his/her fees, the onus is on the student to ensure that the correct fees are paid in full. <http://www.cit.ie/aboutcit/servicesandadministration/admissions/>

### Students with disability requesting examination supports

Students with disabilities, specific learning difficulties or medical conditions who need examination supports, such as a separate room, extra time, reader, scribe or laptop for their exams, need to first register (including submitting relevant documentation) at least 6 weeks before the start of exams with Laura O'Rourke, Disability Support Officer, Access Service,

**T:** 021 433 5107, **E:** [disability@cit.ie](mailto:disability@cit.ie)

# About Cork Institute of Technology

## The National Framework of Qualifications

The National Framework of Qualifications (NFQ) provides a way to compare qualifications, and to ensure that they are quality assured and recognised at home and abroad. The Framework of Qualifications is an official national system for describing and linking all educational qualifications.

The Framework has been established by the National Qualifications Authority of Ireland (NQAI), a State body established under the Qualifications Act 1999.

All educational awards have been assigned "levels" in the National Framework of Qualifications. For example: The benefit for you, the continuing education student, is a clearer progression to further study, as well as national and international recognition of the awards you achieve.

For more information please visit [www.nfq.ie](http://www.nfq.ie) and [www.qqi.ie](http://www.qqi.ie) as well as [www.cit.ie](http://www.cit.ie)

- Level 6 → Higher Certificate
- Level 7 → Ordinary Bachelor Degree
- Level 8 → Honours Bachelor Degree; Higher Diploma
- Level 9 → Master's Degree; Postgraduate Diploma
- Level 10 → Doctoral Degree

## The National Framework of Qualifications (NFQ)

### AWARDING BODIES

- FETAC - awarded by Quality and Qualifications Ireland (QQI)
- SEC - State Examinations Commission (Department of Education and Skills)
- HETAC - awarded by Quality and Qualifications Ireland (QQI)
- IoT - Institutes of Technology
- DIT - Dublin Institute of Technology
- Universities

### AWARDS IN THE FRAMEWORK

There are four types of award in the National Framework of Qualifications:

- Major Awards: named in the outer rings, are the principal class of awards made at a level
- ▲ Minor Awards: are for partial completion of the outcomes for a Major Award
- Supplemental Awards: are for learning that is additional to a Major Award
- ◆ Special Purpose Awards: are for relatively narrow or purpose-specific achievement

For further Information consult: [www.nfq.ie](http://www.nfq.ie) [www.QQI.ie](http://www.QQI.ie)

© QQI 2012

## Customised Courses and In-Company Training

The programmes presented in this Handbook represent only a part of the CIT provision of education for learners in the workplace. If you have a particular training and development need we would be very happy to talk to you about the development of a customised learning pathway. We recognise that knowledge exchange and partnership between higher education institutions and enterprises provides the optimum environment for relevant and up-to-date education and development opportunities.

Our modularised and semesterised approach offers a flexible and agile solution to programme development with a 'building blocks' credit accumulation approach. Our well established recognition of prior learning (RPL) service ensures that learning is built on and not repeated and our valuable experience in the development of specialised learning pathways in partnership with enterprises includes integration of work-based learning and e-supported learning where appropriate.

If you wish to discuss your organisation's current or future learning needs please contact CIT Extended Campus by  
**E:** [extendedcampus@cit.ie](mailto:extendedcampus@cit.ie) or  
**T:** 021 432 6017.

## Springboard – Programmes for the Unemployed

If you are unemployed and are seeking an opportunity to improve your career prospects you may be interested in a suite of courses which have been designed specifically for you under the Springboard initiative. These programmes will be free to eligible candidates and will allow you to retain your Jobseeker's Allowance or Jobseeker's Benefit while studying. Programmes are available at all levels on the National Framework of Qualifications up to Master's but there is a limited capacity so early application is advised.

Applications for all programmes offered under the Springboard initiative are submitted online via [www.springboardcourses.ie](http://www.springboardcourses.ie)

Full details regarding the programmes and eligibility criteria are available on the Bluebrick website, [www.bluebrick.ie](http://www.bluebrick.ie)

# About Cork Institute of Technology

## Recognition of Prior Learning

*“learning from life counts too”*

CIT knows that learning takes place throughout life and in many settings, such as work or voluntary activities, sporting and participation in community events. We also know that learners may dip in and out of formal education throughout a lifetime depending on the needs of the learner. Relevant learning may have been gained in formal, nonformal or informal settings and may allow the individual claim a credit against a module or modules on a programme or indeed towards a stage of a programme or for an award itself.

CIT has a Recognition of Prior Learning (RPL) Service where learning from all aspects of life may be presented for assessment towards credit or a grade or for advanced entry onto a programme.

### What is RPL?

RPL is where prior learning is presented for assessment against the modules of a programme for credit or for a grade. Learning is categorised as prior formal, non-formal and informal and depending on which type is the basis of your case (or maybe it's a combination of them all) you may have different evidence to gather and present for assessment.

### How can RPL help me?

- RPL acknowledges the value of learning regardless of how or where it was gained;
- It encourages access for 'non-traditional' students;
- Eliminates unnecessary repetition;
- Can shorten the time necessary to complete a qualification;
- Encourages lifelong learning;
- Enhances self-esteem of the learner.

### What do I have to do?

- Attend an RPL workshop session at the beginning of the semester;
- Contact the appropriate Head of Department;
- Contact the Course Coordinator;
- In all instances (except advanced entry cases) you must register for the module(s).

### Important Notes

For your RPL claim to be progressed you must attend an information session and avail of the online supports.

There are strict timelines for the submission of RPL claims - applications received outside of these dates cannot be considered until the following semester.

### Note on Fees

While the module fee is payable, in the case of a successful prior formal learning application, an examination fee is held and the difference is refunded. Prior learning cases based on a combination of prior non formal or informal learning (experiential) are charged full module fee.

[www.cit.ie/rpl](http://www.cit.ie/rpl)

## General Information

### ACCS Scheme

ACCS is an acronym for “Accumulation of Credits and Certification of Subjects”. This scheme allows students (for specified courses) - instead of studying an entire course – to study one or more modules of that course. Modules passed, are certified individually, and can be accumulated, leading to an award of Higher Certificate, Degree or Honours Degree.

### Institute Regulations

All students are required to make themselves aware of CIT Regulations. A copy of the booklet is available from the Admissions Office.

### Parking Facilities

Parking facilities are provided at the Institute. Parking is prohibited along the main entrance and on all double yellow lines. Vehicles parked in non-designated areas will risk being towed away or clamped. There is a charge for vehicle recovery (from the service provider’s compound in Togher) or for unclamping vehicles. Please refrain from blocking access to private residences near the Institute.

### Library

Part-time registered students are permitted to use the Library. An official CIT ID card must be produced to gain entry to the Library, and also to borrow books.

The following are the hours of business:

Monday - Friday 9.15am - 9.45pm

Saturday 9.15am - 5.00pm

### Banking

Banking services are provided at CIT through the Bank of Ireland. Full ranges of banking services including ATM facilities are available.

### Catering Facilities

### Shop

#### Hours of business:

Monday - Thursday 8.30am - 9.00pm

Friday 8.30am - 3.30pm

Saturday 10.00am - 2.00pm

### Chaplaincy/Student Support Team

#### Chaplain:

Fr Dave McAuliffe

T: 021 432 6778

E: dave.mcauliffe@cit.ie

#### Coordinator of Pastoral Care:

Edel Kelly

T: 021 432 6225 / 087 205 5595

E: edel.kelly@cit.ie

Chaplaincy is a dynamic presence at CIT, accompanying both students and staff on their life journey. We are open to people of all faiths and cultures and none. The chaplaincy extends a warm welcome to both students and staff and assure you of our presence and support, especially in times of bereavement, illness and during the anxious moments that we all experience from time to time.

*We look forward to meeting you throughout your time in CIT.*

# About Cork Institute of Technology

## Modularisation & Semesterisation

CIT operates a Credit Based Modular System. This is compliant with the European Credit Transfer System (ECTS). The academic year is divided into two equal halves, and each semester will normally consist of six modules each worth five credits.

### What is a Semester?

A semester is half of an academic year. Each semester is of 15 weeks duration for which learners can earn 30 credits. Typically Semester 1 begins in September and ends in January while Semester 2 starts in January and ends in May.

### What is a Module?

A module is a standalone unit of learning and assessment and is completed within one semester. A full-time student will normally study six modules in each semester; part-time and ACCS students will have flexibility as to the number of modules taken.

### What are Credits?

Credits are a measure of the amount of learning within a module. They are awarded to learners who successfully complete the assessments in a module. A full-time year of study is worth 60 credits; this is the European norm under the ECTS system. In CIT, one credit is equivalent to approximately 20 - 25 hours of student learning of all types, including lectures, practicals, tutorials, assignments, and independent study.

## Access

CIT is committed to ensuring that education is a basic right, not a privilege. Our Access Service believes that equal access, equal opportunities and equal treatment are key principles to support access to higher education.

### The CIT Access Service is aimed at four main target groups;

- People who are socio-economically disadvantaged
- Mature Students (Full-time Courses)
- Students with Disabilities
- Ethnic Minorities

The Access Service organises supports such as information sessions, school visits, parents' information sessions, student shadowing, induction programmes, the Mature Student Support Network, and financial assistance.

### Contact

Deirdre Creedon  
Access Officer  
**T:** 021 433 5140  
**E:** deirdre.creedon@cit.ie

## Disability Support Service

The aim of this service is to widen participation and increase access to third level for students with disabilities. Once a student has registered with this Service, a needs assessment is carried out and supports are put in place in accordance with the assessment. The Service offers a range of supports including learning support, assistive technology, tuition, interpreters, stereotyping and note taking service, one-to-one sessions with a support worker, and so on.

### Contact

Laura O'Rourke  
Disability Support Officer  
**T:** 021 433 5107  
**E:** [laura.orourke@cit.ie](mailto:laura.orourke@cit.ie)

## CIT Alumni Association (CITAA)

CIT has an established Alumni Association which enables graduates to keep in touch with developments at CIT and maintain contacts with friends, classmates and faculty staff from college days. To find out about all the latest news and developments at CIT we encourage you to join these groups by logging onto LinkedIn, Facebook and Twitter and search for:

**"CIT Alumni Association Facebook"**

**"CIT Alumni LinkedIn"**  
or <http://ie.linkedin.com/in/citaa>

**"CIT Alumni Twitter"**  
or <https://twitter.com/CITAlumni>

To stay in touch with CIT, please update your contact details at [www.cit/alumni](http://www.cit/alumni)

### What can we offer new graduates?

The CIT Alumni Association offers members the following benefits and services:

- Access to worldwide and regional chapters of the CIT Alumni Association
- CIT affinity credit card with the Bank of Ireland which offer cardholders preferential rates
- Class reunions service
- Discounts for services
- E-News
- General information about careers, interview skills and CV development for recent graduates (for 1st year out graduates);
- Access to CIT facilities (including library membership)
- Invitations to various events.

CIT has built a strong reputation in terms of empowering students with the necessary skills to succeed in business. CIMA's qualification is driven by the needs of business to produce financially qualified business leaders. There are currently 7,800 CIMA members and students in Ireland working in industry, commerce and non-profit organisations.

In partnership with CIMA, CIT offers three programmes:

- CIMA Blended Learning Programme
- CIMA Certificate in Business and Accounting
- CIMA Gateway

## CIMA Blended Learning Programme

### COURSE CODE

CR\_BBLRN\_9

### APPLICATION

Apply online at <http://www.cit.ie/course/CRBBLRN9>

### COURSE FEE

Payable to CIMA: €495 per subject, plus examination and exemption fees

### ENQUIRIES

Ruth Vance • T: 021 433 5512 • E: [cima@cit.ie](mailto:cima@cit.ie)

CIMA prepares students for a career in business, teaching skills for strategic advice, managing risk, and making key decisions. This programme integrates classroom and online elements to offer a more stimulating experience for students who can learn at their own pace and at a time that suits them. The syllabus and examinations recognised by their relevance to business and their dedicated focus on developing the financial, non-financial and management skills required to sustain organisational success.

### Tuition over three months will consist of:

- An initial 'kick-start' session where students will be introduced to their lecturers in CIT and given an introduction to, and study overview of CIMAStudy.com for their chosen subject(s);
- Access to the CIMAStudy.com content for chosen subject(s) which will be studied by students over four equal study periods;
- Follow-on e-tutorial sessions, each designed to facilitate a question and answer session between the student and their lecturer, dealing with queries that may have arisen during the previous two week study period;
- Two day face-to-face revision sessions in CIT.

### Course Outline

A blended learning approach leads to a more stimulating experience for students, it ensures different learning styles are catered for and students can learn at their own pace and at times suitable to them. The website [www.CIMAstudy.com](http://www.CIMAstudy.com) delivers the only complete online CIMA approved courses direct to your computer.

- No need to buy any supplementary products or spend time traveling – everything you need is online;
- 24 hour web-based training doesn't tie you down. Flexibly manage your study time to suit you;
- Interactive cases, tools and exercises provide a dynamic way to learn – reinforcing learning to help you remember more and make exam preparation easier;
- Direct access to an online subject matter expert.

### Progression

CIMA Diploma in Management Accounting Graduates can progress to the CIMA Advanced Diploma in Management Accounting followed by Strategic Level and then Professional Competence Level to qualify as a CIMA member.

## CIMA Certificate in Business Accounting

### COURSE CODE

CR\_BBUAC\_X

### APPLICATION

Apply online at <http://www.cit.ie/course/CRBBUACX>

### COURSE FEE

€1,700 (includes recommended CIMA textbooks), plus €300 examination fees

### ENQUIRIES

Ruth Vance • T: 021 433 5512 • E: [cima@cit.ie](mailto:cima@cit.ie)

The Certificate in Business Accounting is CIMA's entry level accounting qualification for students with little or no accounting background. The Certificate level gives the student business experience beyond just financial accounting and you will gain insight into how the different areas of accounting relate to the business world.

It can be seen as a knowledge refresher course or a foundation to a career in business and finance. The Certificate in Business Accounting forms the basis of the CIMA Professional Qualification and is a valuable qualification on its own.

Graduate with the CIMA Certificate in Business Accounting by

- Study one subject per month for five months
- Successfully complete the relevant examination at the end of each month

### Award

Candidates are eligible for the award of CIMA Certificate in Business Accounting having successfully completed all five examinations.

### Course Delivery

Complete one subject per month:

- Fundamentals of Management Accounting
- Fundamentals of Financial Accounting
- Fundamentals of Business Mathematics
- Fundamentals of Business Economics
- Fundamentals of Ethics, Corporate Governance & Business Law

### Subject Delivery

- 1 x 2hr introductory session (Thursday 6pm - 8pm)
- 2 x 8hr full day sessions (2 x Saturdays 9am - 5pm)
- 1 x 2hr revision and QBR session (Thursday)

To register with CIMA, visit [www.cimaglobal.com/irelandregister](http://www.cimaglobal.com/irelandregister)

To find out more about steps to join CIMA (entry routes, exemptions, study options, etc.) check out [www.cimaglobal.com/findoutmore](http://www.cimaglobal.com/findoutmore)

## CIMA Masters Gateway

The CIMA Gateway is open to graduates who hold an Masters in Business Administration (MBA), Masters in Accounting (MAcc) or Master of Business (Accounting).

The CIMA Masters Gateway entry route is for those CIT Master of Business (Accounting major) graduates wishing to fast track their professional qualification by becoming a CIMA qualified management accountant.

Under this initiative, as a Master of Business in Accounting graduate, you can study for a single fast-track exam awarding with the CIMA Advanced Diploma in Management Accounting and 11 exemptions from the CIMA Professional Qualification.

Once you have achieved the CIMA Advanced Diploma, you will be able to progress straight through to the Strategic Level of the CIMA Professional qualification.

The Gateway assessment exam comprises the three management level exams – E2-Enterprise Management, P2-Performance Management and F2-Financial Management. For more information, please contact Colm Murphy at CIMA, T: 01 643 0434 E: [colm.murphy@cimaglobal.com](mailto:colm.murphy@cimaglobal.com)

# ACCA Diploma in Accounting & Business

## COURSE CODE

CR\_BACCB\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRBACCB6>

## COURSE FEE

€1,500 (excl exam fee)

## ENQUIRIES

Martin O'Sullivan • T: 021 433 5904 • E: [martin.osullivan@cit.ie](mailto:martin.osullivan@cit.ie)

## Delivery

Tuesday 6.30pm – 10.00pm & Wednesday 7.00pm – 9.00pm

CIT has been awarded Gold Status as part ACCA Approved Learning Partners. Gold status is awarded to tuition providers who have demonstrated that they can meet a range of challenging performance targets set by ACCA.

The Diploma is suitable for those aspiring to work or already working in the following types of roles:

- basic bookkeeping;
- trainee accountant in a commercial organisation or accounting practice;
- accounts clerk in public or private sector.

The Diploma in Accounting and Business is broadly equivalent to HND level/equivalent to the first year of a degree.

## Subjects

- F3 Financial Accounting (FFA);
- F2 Management Accounting (FMA);
- F2 Accounting in Business (FAB);
- Foundations in Professionalism (offered entirely online via ACCA).

## Progression

Students who successfully complete the Diploma in Accounting and Business via Foundations in Accountancy can either: transfer to the ACCA Qualification and commence their studies at F4 onwards of the ACCA Qualification

OR

continue to study for the Certified Accounting Technician (CAT) Qualification. However, please note students who continue with the CAT Qualification will have to complete a further 6 CAT exams and gain one year's relevant work experience. The CAT qualification involves completing 9 exams, three of which you will have completed as part of the Diploma in Accounting in Business, and one year's relevant work experience.

## Course Content

Subjects FFA, FMA and FAB will be taught from October to May with examinations taking place in early June.

## Award

Diploma in Accounting & Business  
Awarding Body: Association of Chartered Certified Accountants (ACCA)

## Exemptions

Candidates may be eligible to apply for Exemptions. These may be viewed at [www.accaglobal.com/exemptions](http://www.accaglobal.com/exemptions)

## Registration Details

Students must apply to CIT before 1st September. Students must also register online with ACCA by December at W: [www.accaglobal.com/applnow](http://www.accaglobal.com/applnow) and also register directly with ACCA for paper based exams.

**Note:** ACCA registration, exam and exemption (if applicable) fees are payable directly to ACCA. CIT fee to be paid on registration.

Before signing the Enrolment Form, students are reminded to ensure that they have clearly understood all the terms of their enrolment with CIT, in particular clauses concerning refunds, deferments, waivers, course transfers and visa applications (when applicable). Please refer to the 'Refund Policy information' at the beginning of this Handbook.

## Institute Information

ACCA Ireland,  
9 Leeson Park,  
Dublin 6

# ACCA Programme

## (Level 9) (Full-time)

### COURSE CODE

CR\_BACCA\_9

### APPLICATION

Apply online at <http://www.cit.ie/course/CRBACCA9>

### COURSE FEE

€5,500

### ENQUIRIES

Don Crowley • T: 021 433 5900 • E: [acca@cit.ie](mailto:acca@cit.ie)

ACCA operates in 170 countries with 493,500 students and qualified members. The ACCA qualification is recognised nationally and internationally and offers great job prospects. Qualified ACCA members can work in practice, business/ industry, financial services, academia and public sector.

CIT has been awarded Gold Status as part ACCA Approved Learning Partners. Gold status is awarded to tuition providers who have demonstrated that they can meet a range of challenging performance targets set by ACCA.

### Aim

The aim of this full-time day programme is to provide graduates with the opportunity to complete all Professional Level subjects from the ACCA qualification. This will enable them to find roles in either practice or industry and complete the work experience necessary to qualify as an ACCA. The advantage of completing this programme is that graduates will have their ACCA studies completed before they commence work and will not have to try to combine work and study.

### Entry Requirements

Applicants who have a minimum of an Honours Bachelor of Business in Accounting or an approved equivalent qualification and who qualify for exemptions from previous levels of the ACCA qualification are eligible to apply for entry to the programme.

### Note

Applicants should contact ACCA directly to verify their exemptions before registering for the programme. The ACCA Connect customer service centre is open 7 days a week, 365 days a year, and can be contacted T: (01) 447 5678 or E: [irelandinfo@accaglobal.com](mailto:irelandinfo@accaglobal.com)

### Programme fee includes the following:

- Course/lecture notes for all five professional subjects;
- 2/3 day revision course with accompanying notes;
- Registration Fee;
- Mock exams in each subject;
- Question based revision (QBR).

Please note that candidates are required to pay the following fees directly to ACCA: approx. £700 for exemptions, £75 registration fee, £100 fee per examination, and an annual subscription.

### Course Content

Subjects offered:

- P1 Governance Risk and Ethics
- P2 Corporate Reporting
- P3 Business Analysis
- P6 Advanced Taxation
- P7 Advanced Audit & Assurance

**Note:** Registration fees, annual subscription, examination fees etc. are payable to Professional Bodies for each of the accountancy courses. These are not included in the course fees quoted. Please take note of the closing dates for examination registration.

Before signing the Enrolment Form, students are reminded to ensure that they have clearly understood all the terms of their enrolment with CIT, in particular clauses concerning refunds, deferments, waivers, course transfers and visa applications (when applicable). Please refer to the 'Course Cancellation information' at the beginning of this Handbook.

Following acceptance by CIT, successful applicants may register with ACCA before 8th September 2014 to avail of an early bird examination fee.

### Duration

One academic year

### Commencement Date

September 2014 with examinations in December 2014 and June 2015. Early registration is recommended as places are limited.

- Bachelor of Business (Honours) (ACCS) Level 8
- Higher Certificate in Business for Mature Students (Full time) Level 6

# Higher Certificate in Business

## (Level 6)

### COURSE CODE

CR\_BBUSA\_6

### APPLICATION

Apply online <http://www.cit.ie/course/CRBBUSA6>

### COURSE FEE

€165 per 5 credit module (inc. exam fee)

### ENQUIRIES

Sheila Butler • T: 021 433 5806 • E: [sheila.butler@cit.ie](mailto:sheila.butler@cit.ie)

### Delivery

#### Year 1 and 2

Trimester 1: Two evenings per week, 6pm - 10pm

Trimester 2: Three evenings per week, 6pm - 10pm

Trimester 3: One evening per week, 6pm - 10pm

### Aim

To give participants a firm foundation in Business studies in order to give them a better opportunity to gain employment or to enable them make an immediate contribution in their place of employment. Successful completion of the course will afford students the opportunity of progressing to a Bachelor Degree or other courses.

Are you eligible for Recognition of Prior Learning (RPL)? For details, see the information section at the beginning of this Handbook.

### Entry Requirements

The minimum requirements are Grade D3 (ordinary level) in five subjects in the Leaving Certificate, to include Mathematics and either English or Irish. Mature students will be considered on an individual basis.

### Award

Higher Certificate in Business (Level 6)

### Progression

Successful graduates can progress to the Level 7 Bachelor of Business in Management or Accounting.

### Commencement Date

**Year 1** - Monday 15th September 2014 at 6.30pm

**Year 2** - Monday 15th September 2014 at 6.30pm

### Course Content

Module information available at <http://modules.cit.ie>

#### Year 1 – Modules, all mandatory

- Behavioural Science 1 & 2
- Business Mathematics & Statistics 1 & 2
- Microeconomics
- Macroeconomics
- Financial Accounting 1 & 2
- Communications
- Creativity, Innovation, & Teamwork
- Information Technology
- Public & Business Institutions

#### Year 2 – Modules (12), all mandatory

- Decision Making
- Cost & Management Accounting 1&2
- Financial Accounting 3&4
- Management 1&2
- HRM Introduction
- An Introduction to Marketing
- Marketing Strategy Principles
- Irish Legal System
- Aspects of Civil Law

The complete course will extend over two years. Modules will be taught on a trimesterised basis. Official examinations will be held at the end of each term. Certification for the course is through the ACCS Scheme.

### ACCS Scheme

ACCS is an acronym for "Accumulation of Credits and Certification of Subjects". This scheme allows students (for specified courses) - instead of studying an entire course - to study one or more modules of that course. Credits and Certificates are awarded for each module passed. Students who accumulate the appropriate number of modules qualify for the award of Higher Certificate.

# Bachelor of Business in Management (Level 7) (ACCS)

## COURSE CODE

CR\_BMNGT\_7

## APPLICATION

Apply online at <http://www.cit.ie/course/CRBMNGT7>

## COURSE FEE

€165 per 5 credit module (inc. exam fees)

## ENQUIRIES

Y1: Martin O'Sullivan • T: 021 433 5904 • E: [martin.osullivan@cit.ie](mailto:martin.osullivan@cit.ie)  
Y2: Bernard Vallely • T: 021 433 5904 • E: [bernard.vallely@cit.ie](mailto:bernard.vallely@cit.ie)

**Year 1:** Two/Three evenings per week, 6pm – 10pm

**Year 2:** Two/Three evenings per week, 6pm – 10pm  
(Extra workshops and tutorials will be provided).

## Aims

This Degree is for persons who intend to make careers in professional management. The qualification will enable them to contribute more fully to the growth of their organisations and will give them access to further educational opportunities i.e. Honours Bachelor of Business.

Are you eligible for Recognition of Prior Learning (RPL)? For details, see the information section at the beginning of this Handbook.

## Entry Requirements

**BMNGT\_7\_Y2 Bridging:** A minimum of a two year Higher Certificate (Level 6) is required in a discipline other than business studies.

**Note:** Students in Year 1 must account for 60 credits, either by RPL and/or course work. The module selection for each student will be carried out in conjunction with the course coordinator.

On successful completion of the Bridging Year, students can progress to a Bachelor of Business in Management.

**BMNGT\_7\_Y3:** Higher Certificate in Business, with minimum of Pass result or successful completion of the Bridging Year of the Bachelor of Business in Management (Level 7).

Graduates with a Bachelor of Business in Management can progress to a Bachelor of Business (Honours) Level 8.

## ACCS Scheme

ACCS is an acronym for "Accumulation of Credits and Certification of Subjects". This scheme allows students (for specified courses) - instead of studying an entire course - to study one or more modules of that course. Modules passed, are certified individually, and can be accumulated, leading to an award of Higher Certificate, Degree or Honours Degree.

## Course Content

Module information available at <http://modules.cit.ie>

The principle areas of study are:

### Year 2 (Bridging Year) – Modules, all mandatory

- Economics (10 credits)
- Management (10 credits)
- Management Information Systems (5 credits)
- Financial Accounting (5 credits)
- Marketing (10 credits)

**2 full Saturdays and 12 Tuesday evenings over a 15 week period.**

### Course Content

Level 7 or Level 8 degree or relevant experience in an industry role. Candidates will be required to undertake an interview at CIT before admission to the course.

### Course Summary

**This short programme consists of four modules (5 credits each) which will run over one semester.**

The Certificate in Digital Marketing is a 15 week part-time programme entailing lab work, seminars and live-case work that is designed to provide the knowledge, skills and confidence required to successfully market business in a digital environment. The programme uses an innovative blend of real-world situations and problems to assist participants in exploring the opportunities of the digital environment.

The industry focus of the programme coupled with the applied nature of teaching provides a practical bedrock of knowledge and experience which can be used to immediate effect in a multitude of business contexts. Participants will explore various social media platforms, website technologies (including mobile), analysis tools and much more in developing a toolbox of skills that is valuable and readily usable in a B2C and B2B environment.

The programme is structured to ensure that participant's time is used wisely and entails a wide variety of speakers drawn from the business world. An innovative blend of lectures, seminars, workshops and labs is used to ensure that the programme is relevant, engaging and enjoyable.

### Course Aims

The programme has been developed to ensure that participants are developing sustainable skills and knowledge that underpin digital marketing. Specifically, the programme aims:

1. To develop knowledge of digital marketing tools and technologies in the context of the strategic direction of a business.
2. To integrate traditional marketing principles into marketing activity in online and mobile environments.
3. To apply practical skills to web design to ensure optimised web/mobile platforms using SEO and content management strategies.

### Course Content

- **Digital Marketing Environment** – This module explores the current marketing landscape with emphasis on the challenges posed by the digital context in which many businesses are now operating. This module is delivered using workshops and seminars.
- **Digital Advertising and Social Media** – This practical lab based module will enable students to formulate an integrated digital marketing communications campaign. Students will also learn how to leverage a company's presence on social media platforms to generate more connections and build relationships with customers.
- **Website Optimisation and Analytics** – Many businesses are using inefficient and outdated websites that perform poorly in terms of search engine optimisation. This module will focus on the development of websites using existing technologies such as Wordpress and similar content management systems. Participants will explore how to integrate add-ons such as PayPal and social media content with a view to optimising the website from a usability search engine optimisation perspective.
- **Applied Digital Marketing Strategy** – This module acts as a capstone on the certificate and draws together learning from the above areas with a particular focus on developing a strategic context for content, technology and alternative platforms.

## In Brief

### One Year Certificate in Counselling Skills

This course is a One Year Certificate course in its own right and for those who are seeking to complete the full training, it is also year one of the four year honours degree in Counselling and Psychotherapy.

### Higher Certificate in Arts in Counselling Skills

This course is a Higher Certificate course in its own right and for those who are seeking to complete the full training, it is also year two of the four year honours degree in Counselling and Psychotherapy.

### Bachelor of Arts (Hons) in Counselling and Psychotherapy Years 3 and 4

This course comprises the final two years of the four year honours degree in Counselling and Psychotherapy. It is open to those who have completed the One Year Certificate and Higher Certificate courses or their equivalent through prior training.

### Master of Arts in Integrative Psychotherapy

The MA aims to equip practitioners with the advanced knowledge and clinical capability that would match international standards of best practice within the Psychotherapy profession.

## COURSES

- One Year Certificate in Counselling Skills
- Higher Certificate in Arts in Counselling Skills
- Bachelor of Arts (Honours) in Counselling & Psychotherapy\*
- Master of Arts in Integrative Psychotherapy

\* The Bachelor of Arts (Hons) in Counselling and Psychotherapy is recognised as a professional training course by the Irish Association for Counselling and Psychotherapy and satisfies the professional accreditation requirements of this body.

# One Year Certificate in Counselling Skills

## COURSE CODE

CR\_HCOUI\_6

## APPLICATION

Request an application form by E: helen.dillon@cit.ie

## COURSE FEE

€1,950

## ENQUIRIES

Gus Murray • T: 021 434 7800 • E: gus.murray@cit.ie  
Una Coakley • M: 087 669 1584

## Aims

This course aims to meet the needs of people who require an introductory training in Counselling for use in their existing work or life situations. Additionally, the course aims to provide a foundational introduction for those students who wish to pursue further training in Counselling.

## Course Content

The course is offered over two semesters from September to May. Each semester has 5 modules. The following are the key components of course content:

### Part i Counselling Theory

- Introduction to Mindfulness
- Person centred counselling theory
- Person centred counselling application
- Family systems theory
- Family systems application
- Introduction to Developmental theory
- Change and loss

### Part ii Counselling Skills

- The core skills of counselling – theory and practice
- Forming a helping relationship
- Counselling Skills practice, review and feedback
- Counselling Skills application

### Part iii Experiential Group Process

The purpose of the Experiential Group Process module is to provide the students with a facilitated group experience through which they will have the opportunity to develop Personal process competencies which are necessary for their development as Counselling trainees.

## Dual Relationships

Due to the personal and experiential nature of the course, it is generally not possible to have staff or students with significant existing personal or professional relationships in the same course group. Where possible, every effort is made to overcome this difficulty by placing them in separate groups. Oftentimes this solution is not possible and in these instances, the dual relationship may prevent the applicant from being offered a place on the course at that time.

## Personal Therapy

Students are required to undertake a minimum of 20 sessions of personal therapy during the One year Certificate Course. The cost of this is separate to the course and is arranged directly between the student and the therapist. To fulfil this requirement, students may be offered the option to avail of low cost Counselling, if desired.

## Duration

Dates are arranged when the course begins.

The course is offered on a part-time basis for the duration of the academic year as follows:

- a) Theory and Application Programme – one evening per week - Mondays 6.30pm - 9.30pm.
- b) Counselling Skills Workshops - one additional evening every four to five weeks 6.30pm - 9.30pm.
- c) Experiential Group Process – Ten Saturdays, 10.00am - 5.00pm spread throughout the year.

## Attendance

Attendance at all sessions is a requirement.

## Award

The One Year Certificate is awarded by the Cork Institute of Technology on the basis of satisfactory attendance as well as the submission of written work and the satisfactory completion of practical and experiential assignments. The Certificate recognises that the student has successfully completed an introductory training in Counselling Skills which should enable him/her to practice basic counselling skills within his/her existing role.

**NB:** It is not a professional qualification in Counselling and does not qualify the holder to practice as a professional counsellor.

## Entry Requirements

Applicants must:

1. Be over 25 years of age at the date of registration;
2. Be assessed through interview;
3. Submit two written references, (see application form for details).

## Application

A special application form is required for this course. It can be downloaded from the College website [www.cit.ie](http://www.cit.ie) and should be returned to Gus Murray, Department of Applied Social Studies, Cork Institute of Technology, Bishopstown, Cork on or before FRIDAY, 8th August 2014. Please mark envelope One Year Certificate application. Interviews will be scheduled as early as possible after the closing date.

### Aim

This course is being offered to students who have successfully completed the One Year Certificate in Counselling Skills or its equivalent. It aims to consolidate and expand upon the One Year Certificate foundational training, thus providing students with an introduction to counselling for use in their existing work or voluntary settings. The course also aims to facilitate interested students to reach the level of training and development required to work with clients during the professional practitioner training programme in the BA in Counselling and Psychotherapy Years 3 and 4.

### Course Content

The course is offered over two semesters from September to May. Each semester has 5 modules. The following are the key components of course content:

#### Part I Counselling Theory

- Ego states - theory and application
- Life Script - theory and application
- Group process - theory and application
- Developmental theory

#### Part II Counselling Skills

- Level 2 Counselling Skills – theory and practice
- Writing a Counselling Process review
- Counselling Skills practice, review and feedback
- Counselling skills application

#### Part III Experiential Group Process

The purpose of the Experiential Group Process module is to provide the students with a facilitated group experience through which they will have the opportunity to develop, expand and consolidate Personal process competencies which are necessary for their development as Counselling trainees.

### Dual Relationships

Due to the personal and experiential nature of the course, it is generally not possible to have staff or students with significant existing personal or professional relationships in the same course group. Where possible, every effort is made to overcome this difficulty by placing them in separate groups. Oftentimes this solution is not possible and in these instances, a dual relationship may prevent the applicant from being offered a place on the course at that time.

### Personal Therapy

Students are required to undertake personal therapy weekly during the Higher Certificate course. The cost of this is separate to the course and is arranged directly between the student and the therapist.

### Duration

The course will be offered on a part-time basis for the duration of the academic year. The regular sessions will be held on week evenings - 6.30pm to 9.30pm. Alternatively some of the sessions may be held on Saturday 10.00am to 5.00pm. There will be two weekend workshops in addition to the regular weekly sessions. There will also be five evening skills workshops.

### Attendance

Attendance at all sessions is a requirement.

### Award

The Higher Certificate is awarded on the basis of satisfactory attendance as well as the submission of written work and the satisfactory completion of practical and experiential assignments. The Higher Certificate recognises that the student has undertaken a comprehensive training in Counselling Skills which should enable him/her to practice a full range of counselling skills within a pre-existing role. It is not a professional qualification in Counselling and does not qualify the holder to practice as a Professional Counsellor.

To achieve a professional qualification, it is necessary to complete Bachelor of Arts in Counselling and Psychotherapy, years 3 and 4.

## Entry Requirements

Applicants must

1. Be over 25 years of age at the date of registration;
2. Have successfully completed the One Year Certificate in
3. Counselling Skills or its equivalent;
4. Be assessed through interview;
5. Submit two written references (for applicants who have not already been on a prior stage of the course) See application form for details.

## Garda Vetting

All applicants to the Higher Certificate in Arts in Counselling Skills will be required to undergo Garda vetting. Depending upon the outcome of the vetting process, the Institute reserves the following rights:

1. to not register a student;
2. to remove an existing registered student;
3. to delay the student's practice placement modules.

In all circumstances, it is the applicant student's responsibility to proactively disclose any convictions/cases pending. The Institute reserves the right to inform any placement agency of the existence of any convictions/cases pending.

## Application

A special application form is required for this course. It can be downloaded from the College website [www.cit.ie](http://www.cit.ie) and should be returned to Gus Murray, Department of Applied Social Studies, Cork Institute of Technology, Bishopstown, Cork. Please mark envelope Higher Certificate application. Closing date for completed application forms is FRIDAY, 9th May 2014.

# Bachelor of Arts in Counselling & Psychotherapy (Years 3 & 4)

## COURSE CODE

CR\_HCOUN\_8

## APPLICATION

Request an application form by E: [helen.dillon@cit.ie](mailto:helen.dillon@cit.ie)

## COURSE FEE

Year 3: €2,900 • Year 4: €2,900

## ENQUIRIES

Gus Murray • T: 021 434 7800 • E: [gus.murray@cit.ie](mailto:gus.murray@cit.ie)  
Una Coakley • M: 087 669 1584

The Bachelor of Arts (Honours) in Counselling & Psychotherapy is a four year course comprising the following:

**Year 1:** The One Year Certificate in Counselling Skills

**Year 2:** The Higher Certificate in Arts in Counselling Skills

**Year 3:** Bachelor of Arts (Honours) in Counselling & Psychotherapy - Year 3

**Year 4:** Bachelor of Arts (Honours) in Counselling & Psychotherapy - Year 4

## Aims

This course is a professional practitioner training in Counselling and Psychotherapy. Its aim is to develop reflective and skilled practitioners who will have attained the requisite knowledge, personal development and competence to provide Counselling and Psychotherapy in a professional manner.

## Core Theoretical Orientation

The core theoretical orientation of the course is integrative. The core humanistic elements are Person Centred, Gestalt and Transactional Analysis. The course also draws substantially from the relational end of Psychoanalysis. Some elements from the Cognitive and Behavioural traditions are also included.

## Course Content

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

The course is offered over two semesters from September to May each year. Each semester has 5 modules. The course has five key elements which are integrated in the training, using a strong experiential and practical focus.

These are:

- i) Counselling and Psychotherapy Theory and Application
- ii) Practitioner Development
- iii) Experiential Group Process/personal process integration
- iv) Supervised Counselling and Psychotherapy Practice
- v) Counselling and Psychotherapy integration

## Work with Clients

Students will be required to carry out 100 hours of Counselling work with clients during the training. They will be required to obtain supervision for this work from a supervisor nominated by the College. Payment for supervision will be made directly by students and is not included in the course fee.

## Dual Relationships

Due to the personal and experiential nature of the course, it is generally not possible to have staff or students with significant existing personal or professional relationships in the same course group. Where possible, every effort is made to overcome this difficulty by placing them in separate groups. Oftentimes this solution is not possible and in these instances, a dual relationship may prevent the applicant from being offered a place on the course at that time.

## Personal Therapy

Students will be required to have undertaken at least 100 sessions of personal therapy before the completion of their training. The cost of this is separate to the course and is arranged directly between the student and the therapist.

## Assessment

Assessment will be made for the purposes of evaluating overall competency in Counselling and Psychotherapy. To this end, the assessment methods are:

- i) Written projects;
- ii) Practical skills assessments;
- iii) Attendance at and participation in all programme activities;
- iv) A final oral examination.

### Duration

The course will be offered on a part-time basis over two years. The regular sessions will be held on two evenings per week 6.30pm to 9.30pm. Alternatively, some of the evening sessions could be transferred to Saturday. When a Saturday is involved it would replace two evening sessions. During Year 3, there will be two weekend workshops in addition to the regular weekly sessions. There will be occasional evening skills workshops in Year 3.

### Award

On successful completion of the full programme, students will be awarded a Bachelor of Arts (Honours) in Counselling and Psychotherapy, conferred by the Higher Education Training and Awards Council. On achieving the honours degree, graduates will be equipped to carry out Counselling and Psychotherapy in a structured setting with the support of supervision. The BA honours degree is a fully validated professional Counselling and Psychotherapy training programme which satisfies the accreditation requirements of the Irish Association for Counselling and Psychotherapy.

### Entry requirements

Applicants must

1. Be over 25 years of age at the date of registration;
2. Have successfully completed the Higher Certificate in Arts in Counselling Skills or its equivalent through alternative prior learning;
3. Be assessed through interview or progression assessment for internal students;
4. Submit two written references (for applicants who have not already been on a prior stage of the course), (see application form for details).

### Garda Vetting

All applicants to the Bachelor of Arts (Honours) in Counselling & Psychotherapy will be required to undergo Garda vetting. Depending upon the outcome of the vetting process, the Institute reserves the following rights:

1. to not register a student;
2. to remove an existing registered student;
3. to delay the student's practice placement modules.

In all circumstances, it is the applicant student's responsibility to proactively disclose any convictions/cases pending. The Institute reserves the right to inform any placement agency of the existence of any convictions/cases pending.

### Application

A special application form is required for this course. It can be downloaded from the Institute's website [www.cit.ie](http://www.cit.ie) and should be returned to Gus Murray, Department of Applied Social Studies, Cork Institute of Technology, Bishopstown, Cork. Please mark envelope B.A. degree application. Closing date for completed application forms is FRIDAY, 9th May 2014.

# Master of Arts in Integrative Psychotherapy (Level 9)

## COURSE CODE

CR\_HINTP\_9

## APPLICATION

Request an application form by E: helen.dillon@cit.ie

## COURSE FEE

EU Applicants: Taught year 2013/2014: €3,450 Course Fee for dissertation and Mental Health placement year 2014/2015: €1,150 • Non-EU Applicants: E: fees@cit.ie

## ENQUIRIES

Gus Murray • T: 021 434 7800 • E: gus.murray@cit.ie  
Úna Coakley • M: 087 669 1584

### Aim

This programme is a postgraduate course of study and training in Integrative Psychotherapy for practitioners who have completed the Bachelor of Arts (Honours) in Counselling and Psychotherapy or its equivalent. It aims to equip practitioners with the advanced knowledge and clinical capability that would match international standards of best practice within the Psychotherapy profession.

### Course Content

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

- Developmental Theory & Adult Adaptations
- Clinical Assessment & Case Formulation
- Personal & Relational Process
- Trauma, Dissociation and their treatment
- Clinical Process of Psychotherapy
- Personal and Clinical Integration
- Supervised Psychotherapy Practice
- Practitioner Research Methods
- Mental Health Placement
- Reflective Practitioning Dissertation

### Entry Requirements

Applicants must

- a) Have successfully completed the Bachelor of Art (Honours) in Counselling or Psychotherapy (minimum H2.2) or an equivalent\* professional training in Counselling and Psychotherapy that satisfies the training requirements for professional accreditation;
- b) Have completed two years post-qualifying supervised clinical practice with a minimum of 150 hours of clinical practice which is verified by an accredited supervisor;

- c) Be assessed through interview;
- d) Submit two written references (for applicants who have not already been on a prior stage of the course);
- e) All applicants who enrol to the MA in Integrative Psychotherapy will be required to undergo Garda vetting.

### \* Equivalence

Where an applicant has not completed the BA (Honours) in Counselling or Psychotherapy, equivalence is assessed through the formal Recognition of Prior Learning (RPL) process used in CIT. This involves applicants preparing a portfolio in which they would demonstrate how they have achieved the learning outcome of the modules in the BA (Honours) in Counselling and Psychotherapy as well as the two years post-qualifying supervised clinical practice.

### Duration

The course has 90 credits and will be offered as follows: Year 1 (60 Credits) is a taught year where students will attend at College and supervision, thus completing the taught modules of the course. The regular sessions will be held on a combination of weekday evenings and on Saturdays and Sundays.

Year 2 will involve a programme of individual and group directed/supervised learning where students will research and write the Reflective Practitioning dissertation. During this year they will also carry out their Mental Health Placement.

This programme is supported by Fáilte Ireland

## COURSE CODE

CR\_OCULP\_7\_Y3

## APPLICATION

Request an application form by E: geraldine.mccarthy@cit.ie

## COURSE FEE

CIT Fee €2,500 (Fáilte Ireland supported premises) €5,000 (where a participant is not in full time employment in a Fáilte Ireland supported premises)

## ENQUIRIES

Geraldine McCarthy • T: 021 433 5820 • E: geraldine.mccarthy@cit.ie

## Entry Requirements

- Selection for this course will also be based on an interview to be held in Cork Institute of Technology;
- A recognised Culinary Arts or Professional Cookery qualification or equivalent;
- Minimum of 1 year's post qualification industry experience in a professional kitchen environment;
- Currently working as a Chef in a recognised catering establishment;
- Mature students will be considered on an individual basis and in accordance with CIT regulations for part-time enrolment;
- Participants with significant industry experience but without previous formal qualifications may be considered through the Recognition of Prior Learning (RPL) process, visit [www.cit.ie/rpl](http://www.cit.ie/rpl)

## Aims

The aim of this course is to develop advanced Culinary Art skills of a specialised nature. The emphasis is on extending culinary knowledge and ability in a flexible and imaginative manner towards excellence, innovation and artistic merit.

## Course Content

### 12 Modules

Advanced Pastry 1	Advanced Pastry 2	Advanced Culinary Skills 1
Advanced Culinary Skills 2	Culinary Leadership & Training	Cost Management
Research Methods & Styles	Food Product Development Techniques	Synoptic Study
Service Business Environment	Gastronomy in the Modern World	Food Product Development Concepts

## Course Delivery

- Part-time basis one day per week;
- Students should expect to take 2 to 3 years to complete the Bachelor of Arts in Culinary Arts;
- Students are required to have completed Part 1 of any module prior to commencing Part 2.

## Award

Bachelor of Arts in Culinary Arts (Level 7 on the National Framework of Qualifications)

### Note:

Modules are offered subject to demand and mode of delivery is in consultation with the student group;

Modifications to the configuration of the course may take place in accordance with changing requirements.

# Advanced Certificate in Professional Cookery Total Immersion Programme (Level 6)

This programme is supported by Fáilte Ireland

## COURSE CODE

CR\_FALPR\_6\_Y1

## APPLICATION

Request an application form by E: geraldine.mccarthy@cit.ie

## COURSE FEE

CIT Fee €2,750. In addition, approx. €600 for necessary uniforms, knives, and small equipment.

## ENQUIRIES

Ann O'Connor • T: 021 433 5839 • E: ann.oconnor@cit.ie • E: hospitality@cit.ie

**Note:** Places are limited to 16 participants per year

## Entry Requirements

Selection for this course is based on an interview to be held in the Cork Institute of Technology.

## Aims

This course is aimed at mature participants, with a passion for cookery, who wish to pursue a career as a professional chef in the hospitality sector. The course covers the key skills required in professional cookery and is delivered in 3 stages of learning:

1. Learning the Fundamentals
2. Exploring the Techniques
3. Refining Culinary Service

The course provides participants with the benefits of personnel attention, instant feedback, hands-on experience and reinforcement, so that each carefully planned class provides participants with the tools for working in the catering sector. Participants will truly immerse themselves in the world of professional cookery.

The course offers high quality, hands-on education where both theory and practical elements are delivered in state-of-the-art professional culinary facilities. As part of the course, participants work in industry in a professional kitchen and enhance their practical cookery skills.

## Course Content

### 12 Modules

Culinary Skills and Standards	European, Mediterranean, & Global Cuisine	Menu Planning & Cost Control
Pastry	Larder	Restaurant Service and Communication
Communications	Food Safety	Nutrition
Gastronomy	Culinary Science	Technology

## Benefits of this course

- Gain an internationally recognised qualification in 12 months;
- Avail of valuable college education and intensive industry experience in a structured manner;
- As a participant, you will develop a broad base of knowledge, a confidence in your skills and the fluency to move successfully into a career that is right for you.

## Course Delivery

The course is 12 months in duration structured as follows: 9 months of 3 days in college and 2 days working in industry with an employer of choice, followed by 3 months intensive structured industry training with an employer of choice.

## Award

Advanced Certificate in Professional Cookery (Level 6 on the National Framework of Qualifications)

# Advanced Certificate in Professional Cookery National Traineeship (Level 6)

This programme is supported by Fáilte Ireland

## COURSE CODE

CR\_FCHEF\_6\_Y1

## APPLICATION

Request an application form by E: geraldine.mccarthy@cit.ie

## COURSE FEE

CIT Fee €1,500. The course fee is fully supported by Fáilte Ireland for participants deemed to represent tourism premises.

## ENQUIRIES

Geraldine McCarthy • T: 021 433 5820 • E: geraldine.mccarthy@cit.ie

## Entry Requirements

- Participants must already be working in professional cookery, in an establishment where their employer is committed to facilitating their further training;
- This course operates on the basis of mentor direction i.e. participating employers are required to provide a mentor/trainer who is a member of the culinary staff and who has successfully completed an accredited trainer course;
- Selection for this course is based on an interview to be held in the Cork Institute of Technology.

## To Apply

**Participant:** Complete the application form (available from the Department Secretary) and return to the Department of Tourism and Hospitality at CIT.

**Employer:** Establishments wishing to operate this course and nominating an employee must be registered with Fáilte Ireland. Please complete the Registration of Establishment form and return it to the Department of Tourism and Hospitality at the Cork Institute of Technology.

## Course Content

### 12 Modules

Culinary Skills & Standards	Food Safety	Nutrition
Classical Cuisine	Pastry	Larder
Gastronomy	Culinary Science	Technology
Menu planning & Cost Control	Restaurant Service & Communications	European, Mediterranean, & Global Cuisine

## Aims

This course focuses on developing professional qualifications for people who are working in the field of professional cookery, but have not previously gained a Professional Cookery qualification.

Benefits of this course for the participant:

- Gain an internationally recognised qualification in your chosen field of study;
- Enrich your job immediately as you acquire more skills and secure a better future within the industry.

## Course Content & Delivery

2 Years Day Release.

The Traineeship in Professional Cookery is a day release course with attendance at CIT and on-the-job training in a recognised catering business over a 2-year period.

## Employer Commitment is Vital

Participating employers play a crucial role in the operation of the course by contributing to the development of the learner's progress through following a course of directive learning and by abiding by a specific code of practice developed for the course.

**Note:** In September of each year, some full-time attendance is required on the course.

## Award

Advanced Certificate in Professional Cookery (Level 6 on the National Framework of Qualifications)

**Note:** Modifications to the configuration of the course may take place in accordance with changing requirements.

Catherine O'Mahony • T: 021 433 5842 • E: [hospitality@cit.ie](mailto:hospitality@cit.ie)

## Module Code

HOSP7001

## Aims

This course provides skills and knowledge in the areas of modern pastries. This is a hands on course where the student will gain practical experience in class.

## Course Content

Modern Gateaux and small pastries made using the following:

- Macaroons
- Choux Pastry
- Sweet Pastry
- Puff Pastry
- Chocolate Techniques
- Fillings – glacage, mousse, frangipane, caramel, pastry cream, praline, etc.

## Course Delivery

This course commences in February 2015 and will operate one evening per week over 12 weeks, consisting of a 4 hour practical class each evening from 6pm to 10pm.

## Apply

Apply online or by application form (available by email [hospitality@cit.ie](mailto:hospitality@cit.ie)). Deadline for applications is 30th November. Places are limited on this course.

## Award

CIT: Single Module Certification (5 ECTS credits at Level 7 on the National Framework of Qualifications)

**Note:** Modifications to the configuration of the course may take place in accordance with changing requirements.

# Introduction to Management for Hospitality Services (Level 6)

## COURSE CODE

CR\_OSDPR\_6

## APPLICATION

Apply on line at <http://www.cit.ie/course/CROSDPR6>

## COURSE FEE

€650

## ENQUIRIES

Geraldine McCarthy • T: 021 433 5820 • E: [geraldine.mccarthy@cit.ie](mailto:geraldine.mccarthy@cit.ie)

## Module Code

HOSP6013

Many organisations are in a position where their supervisors have excellent technical skills, but they often lack management skills which are essential to be an effective supervisor. There is increasing evidence that people management is positively related to superior organisational performance.

## Entry Requirements

This course is suitable to learners who have previously undertaken courses in culinary, tourism or hospitality operations. Applicants with sufficient industry experience may be considered.

## Aims

This course is designed specifically with the needs of the hospitality and tourism sector in mind. It is ideally suited to existing Supervisors who have not previously had the opportunity to formally develop their supervisory and management skills. Equally, the course will meet the needs of persons, who have ambitions to become supervisors.

## Course Content

- Management Roles, Skills and Functions
- Business Ethics and Corporate Responsibility
- Law and Technology as drivers of change
- Planning and Decision Making
- Organisation Structure and Design
- Motivation and Leadership - Theory and Practice
- Human Resources Management
- Marketing and Customer Care
- Production Planning, Styles and Control

## Course Delivery

This course may be offered as a day release course over 30 weeks or alternatively 2 nights per week over the academic year.

## Apply

Apply online or by application form (available by email [hospitality@cit.ie](mailto:hospitality@cit.ie)). Deadline for applications is 31st August. Places are limited on this course.

## Award

CIT: Single Module Certification (5 ECTS credits at Level 6 on the National Framework of Qualifications)

**Note:** Modifications to the configuration of the course may take place in accordance with changing requirements.

# Professional Bar Operations (Level 6)

## COURSE CODE

CR\_OBARR\_6

## APPLICATION

Apply on line at <http://www.cit.ie/course/CROBARR6>

## COURSE FEE

€350

## ENQUIRIES

Gail Cotter • T: 021 433 5835 • E: [gail.cotter@cit.ie](mailto:gail.cotter@cit.ie)

## Module Code

HOSP6012

## Aims

This course aims to give participants an introduction to the knowledge, skills and aptitude necessary to become competent bartenders.

This is a hands-on course where the student will gain practical experience in class

## Course Content

- Responsible Service of Alcohol
- Attributes of the Professional Bartender
- Customer Care
- Basic Bar Legislation
- Service of Beverages: both alcoholic and non-alcoholic
- Product Knowledge
- Cellar and Cold Room Equipment
- Cocktails and Wines and Wine Service
- Use of Specialised Equipment e.g. MICROS
- Hygiene and Safety Procedures
- Beer: Types, Service and Sales

## Course Delivery

The course commences in September and is operated on one evening per week over 12 weeks and consists of a 3 hour practical class each evening.

## Apply

Apply online or by application form (available by email [hospitality@cit.ie](mailto:hospitality@cit.ie)). Deadline for applications is 31st August. Places are limited on this course.

## Award

**ENQUIRIES** EU Applicants: 2013/2014 was €5,000. For current course fee information please email [fees@cit.ie](mailto:fees@cit.ie)

### Course Fee

**EU Applicants: 2013/2014 was €5,000. For current course fee information please email [fees@cit.ie](mailto:fees@cit.ie)**

**Delivery Mode:** Part-time students must be available to attend classes during normal working hours on one or two days per week. By attending on two days per week in each semester the programme may be completed in two years.

The Department offers two taught MEng programmes specialising in the fields of

- i) Structural or
- ii) Civil Engineering (Environment and Energy).

### Entry Requirements

Applicants should hold a minimum of a Second Class Honours Grade 2 in a professionally accredited Level 8 Honours Degree programme in Civil or Structural Engineering. Equivalent recognition may be given through the Recognition of Prior Learning (RPL) process on an individual case-by-case basis to candidates who have not achieved this academic standard but who can demonstrate significant relevant professional experience in the discipline of Structural Engineering or Civil/Environmental/Energy Engineering for the respective programmes.

### Aim

The taught Master of Engineering programmes are designed to:

- deepen the postgraduate student's technical knowledge, skills and competences in the field of specialisation;
- develop an ability to carry out in depth research in a chosen field of Engineering, to draw conclusions from the research and present research findings;
- broaden knowledge in other areas such as Sustainability, Management, and Business.

Additionally, the MEng in Structural Engineering programme will provide preparation for the Institute of Structural Engineers Professional Practice Examinations by developing structural analysis and design skills.

### Course Structure

The courses are offered to part-time students under the ACCS scheme. The accumulation of sufficient credits for the award of the MEng is expected to involve two to three years part-time study. Part-time students will be required to attend shared delivery with full-time students on at least one day per week.

### Module Information

<http://modules.cit.ie>

CIT has developed this website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

## ENQUIRIES

Denise Barnett • T: 021 432 6766 • E: [denise.barnett@cit.ie](mailto:denise.barnett@cit.ie)

**Delivery Mode A:** One academic year, requiring attendance on two days per week (Tuesdays and Thursdays in 2013/14) in both semesters.

**Delivery Mode B:** The Department also offers a web based distance learning delivery of this programme available for part-time students; the course can be completed in one academic year. For up to date information in relation to the online delivery mode please refer to <http://online.cit.ie/certificate-in-environmental-a>

Environmental & Energy Engineering is the application of scientific and engineering principles to activities which protect, enhance and improve the environment. Energy engineering focuses on hydrology, water resource management, and water and wastewater treatment design. Energy Engineering focuses on wind, wave, tidal, biomass and energy sustainability issues. Energy Engineering and its inextricable relationship to the environment is an increasingly important aspect of global sustainability.

### Entry Requirements

Applicants should hold a minimum of a Level 7 or Level 8 engineering qualification, preferably in Civil Engineering or a cognate discipline. Equivalent recognition may be given through the Recognition of Prior learning (RPL) process on an individual case-by- case basis to candidates who have not achieved this academic standard but who can demonstrate significant relevant professional experience in the discipline of Environmental and Energy Engineering.

### Aim

The Certificate in Environmental & Energy Engineering programme aims to provide an opportunity for engineering degree graduates to acquire advanced skills and knowledge in the specific disciplines of Environmental & Energy Engineering thus enhancing their employment prospects. The programme covers both the theoretical background and the practical considerations of Environmental & Energy Engineering practices. The content seeks to reflect current and future practice in a broad range of areas including water, wastewater, wind, biomass and ocean energy. It aims to provide the graduate with high level design skills in the environmental and energy areas. The elective options afford the opportunity for the development of skills and competences in areas of the graduate's choosing. The programme is targeted at engineering graduates wishing to up-skill in the environmental and sustainable energy areas.

### The Student Experience

The learning experience involves a variety of modes, including classroom based lectures, individual and group project work and tutorials. The flexibility in relation to elective choices facilitates a learner centred approach, allowing the learner to direct the focus of his/her own programme of study.

### Further Studies

Having successfully completed this programme the student may have the opportunity to progress to a Level 8 BEng (Hons) programme or a Level 9 MEng programme within the Faculty. Such opportunities will be dependent on previous qualifications, experience and programme specific entry requirements. Alternatively, suitable qualified graduates may proceed to a programme of research leading to a MEng or PhD award.

## COURSE FEE

EU Applicants: 2013/2014 was €1,477. Please email [fees@cit.ie](mailto:fees@cit.ie)

## ENQUIRIES

Denise Barnett • T: 021 432 6766 • E: [denise.barnett@cit.ie](mailto:denise.barnett@cit.ie)

### Duration

One academic year, requiring attendance on two days per week in each semester.

Environmental & Energy Engineering is the application of scientific and engineering principles to activities which protect, enhance and improve the environment. Energy engineering focuses on hydrology, water resource management, and water and wastewater treatment design. Energy Engineering focuses on wind, wave, tidal, biomass and energy sustainability issues. Energy Engineering and its inextricable relationship to the environment is an increasingly important aspect of global sustainability.

### Entry Requirements

A minimum of a Level 6 qualification in engineering or a Level 7 in construction/architecture/architectural technology related qualification. Equivalent recognition may be given through the Recognition of Prior Learning (RPL) process on an individual case-by-case basis to candidates who have not achieved this academic standard but who can demonstrate significant relevant professional experience in the discipline of Environmental & Energy Engineering.

### Aim

The Certificate in Environmental & Energy Engineering programme aims to provide an opportunity for Level 6 engineering or Level 7 construction/architecture/architectural technology graduates to acquire skills and knowledge in the specific disciplines of environmental and energy engineering. The environmental stream concentrates primarily on the water industry; the energy stream includes modules on Wind Energy, Building Energy Rating and Energy and the Environment.

The programme aims to up-skill and re-skill construction industry personnel including those in the target cohort with Level 6 and Level 7 qualifications in the construction disciplines including architectural technology, architecture and construction.

This programme offers two complementary streams; the environmental stream, and the energy stream.

The environmental stream, covers a wide range of relevant topics including water supply and treatment, wastewater treatment, hydrology and hydraulics, waste management, water quality and environmental impact assessment.

The energy stream incorporates building energy, a range of renewable energies including wind energy and environmental & energy policy. A mathematics module is also included as an elective option providing learners with the opportunity to ultimately potentially progress to the Level 7 BEng in Civil Engineering programme or the Level 8 Certificate in Environmental & Energy Engineering. Learner choice is provided in each semester through the range of module elective options available.

### The Student Experience

The learning experience involves a variety of modes, including classroom based lectures, individual and group project work and tutorials. The flexibility in relation to elective choices facilitates a learner centred approach, allowing the learner to direct the focus of his/her own programme of study.

### Further Studies

A mathematics module is included as an elective option providing learners with the opportunity to ultimately potentially progress to the Level 7 BEng in Civil Engineering programme or the Level 8 Certificate in Environmental & Energy Engineering. Learner choice is provided in each semester through the range of module elective options available.

# Bachelor of Engineering in Civil Engineering (Level 7)

## COURSE CODE

CR\_ CCIVE\_7

## APPLICATION

Apply online at <http://www.cit.ie/course/CRCCIVE7>

## COURSE FEE

€210 per 5 credit module (inc. exam fee)

## ENQUIRIES

Des Walsh • T: 021 432 6765 • E: [des.walsh@cit.ie](mailto:des.walsh@cit.ie)

**Please note** that a part-time/evening delivery of this programme occurs on a two year cycle basis and only occurs when sufficient demand exists; this course is NOT likely to be available as a part-time/evening delivery in 2014/15, however, part-time students who are in a position to attend by day may take modules on the programme at any time.

### Entry Requirements

Higher Certificate in Engineering in Civil Engineering (NFQ Level 6). Holders of other relevant qualifications will be considered for admission on an individual basis.

### Delivery

Part-time by day attendance – shared delivery with full-time students, timetabled within the usual 9am - 6pm working day. When a part-time/evening delivery is viable - two evenings per week, 6pm - 10pm and one Saturday per month (average), 9am - 1pm or 2pm - 6pm.

### Course Structure

This course is offered under the ACCS scheme. ACCS is an acronym for "Accumulation of Credits and Certification of Modules". This scheme allows students instead of studying an entire course - to study one or more modules of that course. Modules passed, are certified individually, and can be accumulated, leading to an award of a Degree. The accumulation of sufficient credits for the award of the BEng is expected to involve a minimum of two years part-time study and the course modules are offered on that basis.

### Course Content

<http://modules.cit.ie>

CIT has developed this website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Further Studies

BEng (Ord.) graduates may be eligible to apply for Honours Civil and Structural Engineering Degree courses (NFQ Level 8). The Engineers Ireland Graduate Diploma is also a possible route of progression to full membership of Engineers Ireland for those holding the appropriate minimum entry requirements.

### Award

Bachelor of Engineering in Civil Engineering (Level 7 on the National Framework of Qualifications).

**Department website:** [www.cit.ie/cse](http://www.cit.ie/cse)

# Higher Certificate in Engineering in Civil Engineering (Level 6)

## COURSE CODE

### Entry Requirements

Leaving Certificate Grade D3 (Ordinary Level) in five subjects to include Mathematics and either English or Irish. Special category students (e.g. mature students) will be considered on an individual basis.

### Module Information

<http://modules.cit.ie>

#### Stage 1

Module topic areas include Mathematics, Applied Mechanics, Engineering Science, Linear Surveying & Levelling, CAD and Construction.

#### Stage 2

Module topic areas include Mathematics, Civil Engineering Materials, Structural Design, Structural Engineering, Land Surveying, Water Engineering, Civil & Structural Engineering Construction, Health & Safety and Professional Studies.

### Course Structure

The course is offered under the ACCS scheme. The accumulation of sufficient credits for the award of the Higher Certificate is expected to involve an average of three years part-time study and the course modules are offered on that basis as follows:

#### CCIVE\_6 Year 1

Modules from Stage 1:

Topics typically include Mathematics, Engineering Science, Engineering CAD, Land Surveying, and Construction.

#### CCIVE\_6 Year 2

Modules from Stage 1 and modules from Stage 2:

Topics typically include Applied Mechanics (Stage 1), Mathematics, Civil Engineering Materials, Land Surveying Control, Structural Design, Civil & Structural Engineering Construction, Health & Safety, and Professional Studies (Stage 2).

#### CCIVE\_6 Year 3

Modules from Stage 2:

Topics typically include Practical Land Surveying, Structural Engineering, Structural Design, and Water Engineering.

### Award

Higher Certificate in Engineering in Civil Engineering (Level 6 on the National Framework of Qualifications).

### Further Studies at CIT

Higher Certificate graduates are eligible to apply for the BEng in Civil Engineering (NFQ Level 7).

The course is based on the Module Descriptor CIVL7025 Practical Land Surveying. The full Module Descriptor may be viewed at <http://modules.cit.ie>

This is a short CPD course for those who have certified competence in Land surveying, linear surveying and levelling. It is particularly suited to construction personnel who are involved with the organisation of surveying and setting out on construction sites. Please note that a delivery of this programme occurs when sufficient demand exists. Applications are held on file and contact is made with interested applicants when the minimum number of students required to deliver the course has been attained.

The course is typically offered over a number of days, including Saturdays. Exact dates and timetable arrangements remain to be finalised. Typically, the hours may be 6pm - 9pm Friday evenings and 9am - 4pm Saturdays for a total of four weekends. Information updates may be obtained by contacting the Department of Civil, Structural & Environmental Engineering; the Course Director is Mr Jim O'Byrne, contact details as above.

The successful completion of the course will lead to CIT single module certification in Practical Land Surveying (5 ECTS credits at Level 7 on the National Framework of Qualifications).

Having completed this subject, an individual would expect to be able to:

- Organise resources, record and process survey data using specialised equipment (e.g. Total Station, GPS, Digital Level)
- Use computer applications to process and manipulate survey data
- Use specialised equipment (e.g. Total Station, GPS, Digital Level) to set out construction works
- Process and present in an appropriate format the outcomes of survey or setting out exercises
- Work as the leader in a team carrying out surveying exercises

## Course Content

### Electromagnetic Distance Measurement

Construction and use of equipment. Sources of error and accuracy. Checking adjustment. Field procedures.

### Total Stations

Data capture. Setup data. Feature codes, strings and digital ground modelling. Coordinate systems. Software and hardware requirements.

### Setting out

Accuracy specification. Stages in setting out. Generation of setting out data. Methods of marking and referencing.

### Data Processing

Data formats. Software systems. Digital Terrain Modelling. Data presentation, plans, sections and models. Calculation of volumes.

### Global Positioning Systems

Introduction to practical Applications of Global Positioning Systems. Principles of operation. Space, control and user segments. Differential GPS.

### Award

Single Module Certification (5 ECTS credits at Level 7 on the National Framework of Qualifications)

The successful completion of the course will lead to CIT single module certification in Digital Land Surveying and GPS (5 ECTS credits at Level 8 on the National Framework of Qualifications).

Having completed this subject, an individual would expect to be able to:

- establish survey control of determined accuracy using GPS equipment and OSI reference;
- compute setting out data from survey and design information;
- manipulate field survey data and incorporate design data using specialised software;
- critically evaluate the use of advanced positioning instrumentation for setting out.

## Course Content

### Ordnance Survey

Coordinate systems: Irish National Grid, Irish Transverse Mercator. Heights & Elevations, Geoid Models, Site Adjustments. OSI services.

### Global Positioning Systems

Fundamentals of operation for surveying. Correction and sources of error. Radio regulations. Real time kinematic (RTK), Static and Faststatic operation. Field techniques, RTK and Setting Out.

### Data Processing

Data capture. Setup data. Feature codes, strings and digital ground modelling. Software and hardware requirements. Data formats. Software systems. Data transfer, Real time and Post processing systems. Adjustments, data export and reports.

### Setting Out

Principles of setting out. Coordinate positioning, total stations and GPS. Controlling verticality. Laser instruments. Machine Control. Quality assurance and accuracy.

### Award

€495

## ENQUIRIES

Andrew Macilwriath • T: 021 433 5950 • E: [andrew.macwriath@cit.ie](mailto:andrew.macwriath@cit.ie)

The course is based on the Module Descriptor CIVL8004 Building Regulatory Engineering. The full Module Descriptor may be viewed at <http://modules.cit.ie>

This newly updated course will cover the recently enacted Building Control Amendment Regulations 2014, together with its associated Code of Practice. SI 9 will significantly change the way buildings are inspected and certified, and will bring more work to construction professionals. Part of the inspection procedure will now include CE marking of materials in accordance with the new Construction Products Regulations which will come into effect in July 2013. A third area that has been added to this short course is the new Energy Performance of Buildings Regulations 2012.

This course also addresses all key aspects of the building regulations, provides a brief introduction to the Eurocodes, and should be invaluable to both new users of the building regulation guidance documents, and those that may enjoy a refresher course. All those involved in the construction industry will find this short course useful, particularly those involved in design, detailing, construction overseeing & inspection, and certification of building projects. The lecturer on this course has worked in the area of Fire & Building Control for many years.

The course will be offered over a number of days, including Saturdays. Typically, the hours will be 6pm - 9pm Friday evenings and 9am - 4pm Saturdays for a total of four weekends. Information updates may be obtained by contacting the Department of Civil, Structural & Environmental Engineering; the Course Director is Mr Andrew Macilwraith, contact details as above.

The successful completion of the course will lead to CIT single module certification in Building Regulatory Engineering (5 ECTS credits at Level 8 on the National Framework of Qualifications).

## Entry Requirements

## ENQUIRIES

Dr Gerard Kelly • T: 021 433 5438 • E: [ger.kelly@cit.ie](mailto:ger.kelly@cit.ie)

The course has been developed to address the need for both new graduates and existing engineers to acquire advanced competencies in computational methods, analytical methods, and design. Furthermore it aims to satisfy the requirement from Engineers Ireland from 2013 that a Master's degree in engineering represents the minimum educational standard for Chartered Engineer status eligibility.

The EGFSN/Forfás Report: Future Skills Requirements of the Manufacturing Sector to 2020 report published in 2013 has identified shortages of Mechanical Engineers at level 9 with specialist skills in design and development, control and automation, and management of innovation in the manufacturing, pharmaceutical and biomedical sectors. This programme will address these shortages.

### **Specifically this programme of study is designed to progress your qualifications in the following ways:**

- Deepen your technical knowledge, skills and competencies in the core field of Mechanical Engineering through modules in computational methods in solids and fluids, control engineering, and industrial heat and power.
- Deliver specialist knowledge in areas such as integrated design and process modelling and lean sigma.
- Enhance your knowledge and entrepreneurship through strategic business management and managing innovation.
- Enable you to carry out in depth research in an industrially focused sector of Mechanical Engineering through specialist modules in research skills, project realisation and thesis preparation.

### **Entry Requirements**

Applicants must have achieved a minimum of Second Class Honours in a Level 8 Honours Bachelor Programme in Mechanical Engineering (fully accredited by Engineers Ireland), or equivalent.

### **Module Information**

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### **Duration**

It is envisaged that students could complete the programme over 3 years on a part-time basis.

This is 60 credits of the Level 7 degree course, equating to Stage 3 in the full-time programme. It comprises 8 mandatory modules, one free choice 5 credit module, and two project modules (totalling 15 credits) It is envisaged that students could complete the programme over 3 years on a part-time basis.

### Entry Requirements

Higher Certificate in Mechanical Engineering (NFQ Level 6) or equivalent.

### Course Content

The following four modules are likely to be offered in the 2014/15 academic year:

#### Semester 1

##### Modules (September to December 2014)

###### • Mechanical Design & CAE - MECH7010

On successful completion of this module the learner will be able to

1. Manipulate electronic CAD data for use with Computer Aided Engineering software and systems in design.
2. Analyse digital prototypes using industry standard software.
3. Complete an individual design project demonstrating the application of systematic design principles.
4. Design for fatigue a range of mechanical components.
5. Integrate major international standards (DIN, ISO, BS, Machinery Directive) and hazard analysis techniques into the mechanical and anthropomorphic design, operation and safety of components and machines.

###### • Technological Maths 301 - MATH7020

On successful completion of this module the learner will be able to

1. Formulate and identify differential equations.
2. Solve first and second order differential equations using classical methods and interpret the solutions.
3. Solve first and second order differential equations using Laplace transforms and interpret the solutions.

#### Semester 2

##### Modules (January to May 2015)

###### • Mechatronics 3 MECH7014

On successful completion of this module the learner will be able to

1. Analyse, simplify and solve logic circuits.
2. Discuss the concepts of open-loop and closed loop systems and the resulting effects on system gain, stability and sensitivity to parameter variation and external disturbances on control systems.
3. Explain the modes of action of On/Off, Proportional, Integral and Derivative Control.
4. Perform dynamic analysis of resistive and over running load hydraulic circuits using graphical and analytical techniques to interpret flow, pressure and power demand.
5. Design electrohydraulic systems to performance specifications using standard software for the design and analysis of electrohydraulic systems.
6. Select suitable feedback and final control elements to achieve stated performance requirements of hydraulic position control systems.

###### • Technological Maths 302 STAT7003

On successful completion of this module the learner will be able to

1. Graphically display and numerically summarise data using methods of descriptive statistics.
2. Apply the rules of probability and use probability models for data analysis.
3. Compute and interpret point and interval estimates of population parameters.
4. Describe the structure of a statistical test of hypothesis.

# Mechanical Engineering Science

## COURSE CODE

CR\_EMESC\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CREMESC6>

## COURSE FEE

€1,200 for the academic year (incl. exam fee)

## ENQUIRIES

Dan O'Brien • T: 021 433 5425 • E: [dan.obrien@cit.ie](mailto:dan.obrien@cit.ie)

This course provides candidates with the necessary mechanical engineering science knowledge to progress to degree level studies in mechanical engineering on a part time or full time basis.

### Entry Requirements

Applicants should have a recognised craft/technician qualification in Mechanical Engineering (or cognate discipline).

### Course Content

#### Semester 1

##### • Mechanical Science (Statics, Stress and Strain) – MECH 6035

On successful completion of this module the learner will be able to

1. Determine resultants and apply conditions of static equilibrium to plane force systems.
2. Identify and quantify all forces associated with a static framework using either the graphical method/method of joints/method of sections.
3. Construct shear force and bending moment diagrams for beams under various loading conditions.
4. Determine the stresses and strains in prismatic structures due to direct/shear and thermal loads.
5. Manipulate the Simple Bending and Simple Torsion equations to solve basic problems in beams and shafts having symmetrical cross sections.

##### • Technological Mathematics101 - MATH6012

On successful completion of this module the learner will be able to

1. Formulate and solve various equations including those involving the laws of indices and logs.
2. Reduce equations to linear form and interpret constants from graphs.
3. Use trigonometry to solve triangles, graph periodic functions and solve trigonometric equations.
4. Apply differentiation to various functions, rates of change, and optimisation.
5. Evaluate definite integrals, apply integration techniques to problems in Science & Engineering, and formulate differential equations

#### Semester 2

##### • Mechanical Science (Dynamics and Fluids) - MECH 6036

On successful completion of this module the learner will be able to

1. Manipulate equations of linear and angular motion.
2. Apply momentum, work and energy to linear and angular systems.
3. Apply the laws of friction to objects on the flat and inclined planes.
4. Determine the forces associated with circular motion.
5. Use Bernoulli's equation and the continuity equation to solve problems in fluid dynamic systems.

##### • Technological Mathematics201 - MATH6040

On successful completion of this module the learner will be able to

1. Differentiate parametrically, implicitly, partially and solve related rates of change problems.
2. Apply vector algebra methods to problems involving forces and moments of forces.
3. Integrate by parts and by inverse trigonometric substitution; and apply integration methods to various applied problems.
4. Solve and analyse simultaneous equations using matrix algebra methods.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

### Awarding Body

Cork Institute of Technology

# Certificate in 3D CAD and Solid Modelling (Level 6)

## COURSE CODE

CR\_E3DDA\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRE3DDA6>

## COURSE FEE

€840 for the academic year (incl. exam fee)

## ENQUIRIES

Denis Healy • T: 021 433 5436 • E: [denis.healy@cit.ie](mailto:denis.healy@cit.ie)

This is a general course suited to those with a background in engineering. It is offered on a part-time basis and requires attendance of one evening per week for the academic year.

### Entry Requirements

The applicant should be competent in two-dimensional CAD.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

### Course Content

This programme consists of two modules:

#### Semester 1

##### • **Three Dimensional Design using AutoCAD - MECH6041**

On successful completion of this module the learner will be able to

1. Use the World and User systems and define 3D co-ordinates in the construction of 3D drawings.
2. Use multiple viewports and views to construct 3D drawings
3. Create and edit polygon meshes for surface modeling.
4. Construct and render 3D models in the solid model state and generate 2D views from same
5. Plot multiple views from finished drawings

#### Semester 2

##### • **Introductory 3D Parametric Modelling - MECH6040**

On successful completion of this module the learner will be able to

1. Use industry specific 3-D parametric modelling software
2. Develop 3-D models/assemblies
3. Produce 2-D working drawings from 3-D models
3. Illustrate the benefits of parametric modelling for design intent

### Awarding Body

Cork Institute of Technology

# Centre for Advanced Manufacturing and Management Centre

T: 021 432 6264

E: [camms@cit.ie](mailto:camms@cit.ie) | [www.camms.ie](http://www.camms.ie)

Centre for Advanced  
Manufacturing &  
Management Systems

**CAMMS Head**                      **Daithí Fallon**  
**CAMMS Manager**              **Mike McGrath**  
**CAMMS Administrator**      **Michèle Kiely**

CAMMS is attached to the Department of Mechanical, Biomedical and Manufacturing Engineering at CIT. The Centre uses the design, build, test, and validate expertise of the Department in solving problems for industry and in delivering up to date training and education for professionals.

Many CAMMS programmes are validated awards by CIT under delegated authority of Quality Qualifications Ireland (QQI) leading to European Credit Transfer and Accumulation System (ECTS) credits on the National Framework of Qualifications (NFQ). The Centre offers preparatory courses for students taking the American Society for Quality (ASQ) and Society of Manufacturing Engineers (SME) professional exams and is also serves as an official Exam Site for these bodies.

CAMMS is currently developing thematic knowledge areas that reflect the strengths of the Faculty.

Course themes include:

- Quality, Lean Sigma
- Project Management
- Automation & Control
- Manufacturing Engineering
- Sustainable Energy
- Biomedical Engineering

The Centre is a recognised training provider for Continuing Professional Development (CPD) to Engineers Ireland. Tailored courses can be delivered at your place of work or at CIT across a wide range of disciplines (e.g. Lean Sigma, BioMedical Engineering etc.) through consultation with the Centre's multi-disciplined staff.

*"A client specific Materials Science course was delivered over six, two hour sessions on site for a major biomedical multinational company. Theoretical fundamentals were developed, explored and applied to practical, real world engineering examples.*

*Several hours of project mentoring between the CIT consultant and company engineers took place. Discussion and review of the application of the lecture series content to the specific in-house project was the main aim of this mentoring period."*

**Dr Andrew Cashman, Department of Mechanical, Biomedical and Manufacturing Engineering**

# COURSES

- **1.0 American Society for Quality Certification Programmes (ASQ)**
  - Certified Quality Technician (CQT)
  - Certified Quality Engineer (CQE)
- **2.0 Lean & Six Sigma Programmes**
  - 2.1 Introduction to Lean & Six Sigma
  - 2.2 Lean Sigma Practitioner, Yellow Belt
  - 2.3 Lean Sigma Green Belt
  - 2.4 Lean Sigma Black Belt
  - 2.5 Continuous Improvement for Production Teams
- **3.0 Project Management Programmes**
  - 3.1 Diploma in Project Management
  - 3.2 Project Management Techniques
- **4.0 Automation and Control Systems Programmes**
- **4.1 Certificate in Automation & Control Systems**
  - 4.1.1 Mechatronics
  - 4.1.2 SCADA and Automation Systems
  - 4.1.3 Robotics
- **5.0 Society of Manufacturing Engineers Certification Programmes (SME)**
  - 5.1 Certified Manufacturing Technologist (CMfgT)
  - 5.2 Certified Manufacturing Engineer (CMfgE)
- **6.0 Sustainable Energy Programmes**
  - 6.1 Certificate in Introduction to Sustainable Energy
    - 6.1.1 Introduction to Sustainable Energy Systems
    - 6.1.2 Wind Energy
  - 6.2 Certificate in Sustainable Energy
    - 6.2.1 Energy and the Environment
    - 6.2.2 Solar and Geothermal Energy
    - 6.2.3 Ocean and Hydro Energy
- **7.0 Advanced Wind Energy**
- **8.0 Biomedical Engineering Programmes**
  - 8.1 Certificate in Biomedical Device Manufacture
  - 8.2 Anatomy of Biomechanics
- **9.0 Bachelor of Science Degrees**
  - 9.1 Bachelor of Science (Honours) in Process Plant Technology
  - 9.2 Bachelor of Science (Honours) in Advanced Manufacturing Technology

# 1.0 American Society for Quality Certification Programmes

## COURSE CODE

CR\_ECQTE\_6 / CR\_ECQEN\_6

## APPLICATION

Please email [camms@cit.ie](mailto:camms@cit.ie) for further information.

## COURSE FEE

Price will vary on specific company needs.

## ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

### The Certification programmes on offer are:

Certified Quality Technician (CQT)  
Certified Quality Engineer (CQE)

**Please note that these courses are ONLY available to groups of 10 or more.**

They are preparatory courses for professional exams set externally by the ASQ (American Society for Quality) which has more than 100,000 members worldwide. The society is dedicated to the advancement of learning, quality improvement and knowledge exchange.

### Course Content

Each candidate must pass a multiple-choice examination based on the Body of Knowledge for each certification programme.

Some of the topics included are:

- Probability and Statistics
- Statistical Process Control
- Process Capability
- Design of Experiments
- Metrology, Inspection and Testing
- Quality Planning, Management and Product Liability
- Quality Costs Analysis
- FMEA, Design and Analysis
- Reliability, Maintainability and Product Safety
- Project Management
- Lean Enterprise

For individual examination entry requirements and Body of Knowledge, see <http://www.asq.org/certification/>

### Entry Requirements

A candidate must have relevant experience/education and satisfy the membership requirements of the ASQ. There are separate entry requirements and separate examinations for each certification.

### Awarding Body

American Society for Quality (ASQ)  
(Examination fees are payable to the ASQ)

## 2.0 Lean & Six Sigma Programmes

### 2.1 Introduction to Lean & Six Sigma

#### COURSE CODE

CR\_EILSS\_X

#### APPLICATION

Apply online at <http://www.cit.ie/course/CREILSSX>

#### COURSE FEE

€295

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

Lean is a generic process management term referring to the identification and steady elimination of waste. It is closely linked with Six Sigma because of the methodology's emphasis on reduction of process variation. Lean Sigma introduces the methods and tools used in both techniques.

The course allows participants to select between Lean or Six Sigma, for their own future development and/or as the most appropriate method for their company. Participants have the option of applying for either the Lean Sigma Practitioner, Yellow Belt Programme or the Lean Sigma Green Belt Certification Programme.

**Note:** Introduction to Lean/Lean Sigma is not a pre-requisite to attending the Lean Sigma Yellow Belt, Lean Sigma Green Belt or Lean Sigma Black Belt.

#### Course Content

- **Day 1:** Introduction to Lean:  
Introduce the participants to the background to Lean and the concepts behind reducing waste.
- **Day 2:** Introduction to Six Sigma:  
Explains how Six Sigma targets variation and introduces the concepts.

#### Entry Requirements

This programme requires no prior knowledge or experience of Lean or Lean Sigma. The programme is suitable for all personnel working within the design, manufacturing, transactional, sales or support environment. It is suitable for management and team leaders through to shop floor personnel and employees directly involved in the process.

#### Duration

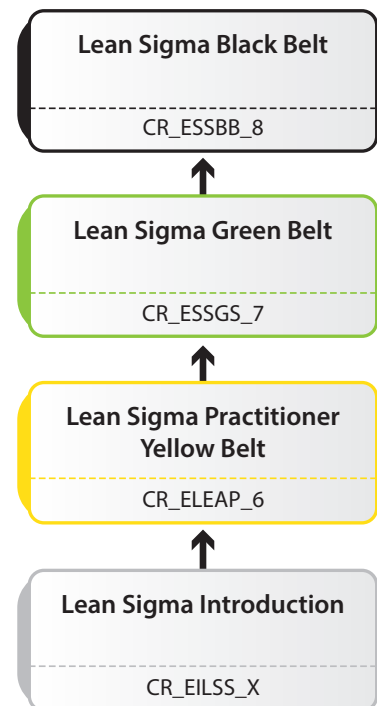

Two full-time days

#### Certification

CAMMS, CIT. Please contact CAMMS directly for more details.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

**Note:** Delivery of this programme is subject to sufficient number of applicants

## 2.2 Lean Sigma Practitioner, Yellow Belt

### COURSE CODE

CR\_ELEAP\_6

### APPLICATION

Apply online at <http://www.cit.ie/course/CRELEAP6>

### COURSE FEE

€1,500\* (includes course notes and exam fees)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

Candidates pursuing the Lean Sigma Practitioner, Yellow Belt Programme will be capable of applying lean principles and tools to drive improvements and show measurable results. The programme will consist of assessment of theory by examination, as well as assessment of practice by portfolio. The portfolio is based on the achievement of certain project milestones by candidates, as defined by the programme requirements at each level.

### Course Content

- Introduction to Lean principles
- Tools for finding and eliminating waste
- Tools for continuous improvement
- Improving quality, cost, delivery, business and service processes, and business results

### Entry Requirements

Candidates must have a total of 4 years of combined industrial experience, Lean experience and academic study.

### Course Commencement

6th October 2014  
26th January 2015

### Duration

Five days over three months.

### Awarding Body

CIT: 5 ECTS credits at Level 6 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 2.3 Lean Sigma Green Belt

### Special Purpose Award –15 ECTS Credits at Level 7

#### COURSE CODE

CR\_ESSGS\_7

#### APPLICATION

Apply online at <http://www.cit.ie/course/CRESSGS7>

#### COURSE FEE

€2,055\* (includes course notes and CIT exam fees)

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

Lean Sigma is a very successful methodology for Productivity and Continuous Improvement. It uses a structured approach known as DMAIC (Define, Measure, Analyse, Improve, and Control) to eliminate business process waste, reduce variation and improve efficiency. It is being successfully deployed across many sectors and in companies of all sizes in the pharmaceutical, healthcare, medical device, financial and service sectors. This course provides a structured approach to solving problems and putting a sustaining mechanism in place to ensure problems do not re-occur.

#### Course Content

- Introduction to Lean and Lean Sigma, DMAIC Methodology
- Coordinating Project Teams
- Defining the Project and setting goals
- Variation and Measurement Techniques
- Analysis of Process Data, Introduction to Statistical Tools
- Cause and Effect, FMEA (Failure Mode & Effect Analysis)
- Process Capability using SPC
- Lean Concepts and Tools
- Project Control, Measuring Success Factors

#### Entry Requirements

Candidates should have at least three years experience in a suitable working environment. The course is aimed at all personnel working within the design, manufacturing, transactional, sales or support environment. It is suitable for management and team leaders through to shop floor personnel and employees directly involved in the process.

#### Duration

Nine full days over three months. CIT Awarded Lean Sigma Green Belt (includes course notes and CIT exam fees). Optional two additional days for ASQ Exam preparation.

#### Awarding Body

CIT: 15 ECTS credits at Level 7 on the National Framework of Qualifications.

Candidates who complete the Lean Sigma Green Belt Programme will be encouraged to sit the American Society for Quality (ASQ) Lean Sigma Green Belt exam. (Examination fees payable directly to the ASQ).

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 2.4 Lean Sigma Black Belt

### Special Purpose Award - 30 ECTS Credits at Level 8

#### COURSE CODE

CR\_ESSBB\_8

#### APPLICATION

Apply online at <http://www.cit.ie/course/CRESSBB8>

#### COURSE FEE

€8,500\* (includes course notes and CIT exam fees)

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

A certified Lean Sigma Black Belt is a professional who is an expert in Lean Sigma philosophies and principles, including supporting systems and tools. A Black Belt should demonstrate team leadership, understand team dynamics and assign team member roles and responsibilities. Black Belts have a thorough understanding of all aspects of the DMAIC model in accordance with Lean Sigma principles.

They have a thorough knowledge of Lean enterprise concepts, are able to identify non-value added elements and activities and are able to use specific tools. The course draws on both the basic problem solving tools and advanced statistical principles including DOE (Design of Experiments) and SPC (Statistical Process Control).

#### Course Content

- Introduction to Lean and Lean Sigma, DMAIC Methodology
- Change Management, Team Building, Facilitation, Conflict Resolution
- Project Control, Return on Investment, Critical Success Factors
- Statistical Techniques
- Measurement System Analysis
- Hypothesis Testing, Regression, Control Charts, Process Capability
- Design of Experiments
- Lean Sigma Supply Chain

#### Mentoring

Throughout their training, and until the completion of their projects, Lean Sigma Black Belt students will receive support and mentoring from their tutor.

#### Entry Requirements

A demonstration of several years work experience in a technical role in manufacturing or a service industry is required. A grounding in Lean or Lean Sigma principles is desirable.

#### Duration

21 full days over six months.

#### Awarding Body

CIT: 30 ECTS credits at Level 8 on the National Framework of Qualifications.

Candidates who complete the Lean Sigma Black Belt Programme are encouraged to sit the American Society for Quality (ASQ) Lean Sigma Black Belt exam (Examination fees payable directly to the ASQ). The ASQ Lean Sigma Black Belt requires two completed projects with signed affidavits or one completed project with signed affidavit and three years of work experience in one or more areas of the Lean Sigma Body of Knowledge.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 2.5 Continuous Improvement for Production Teams (Company based training)

### COURSE CODE

CR\_EC IPT\_X

### APPLICATION

Please email [camms@cit.ie](mailto:camms@cit.ie) for further information.

### COURSE FEE

Price will vary on specific company needs.

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

Continuous improvement is an on-going effort to improve products, services or processes. These efforts can seek “incremental” improvement over time or “breakthrough” improvement all at once. Continuous improvement for production teams involves company based training, concentrating on the forming and development of teams, selecting projects, and then mentoring the operators and facilitators to the completion of these projects.

### Course Content

In general, the course content and delivery is tailored to suit the company’s needs. The course content is a combination of delivered lecture material and actual project focused work. Participants will be introduced to continuous improvement practice using basic quality analysis tools and how to apply them in a team environment on company targeted improvement areas. The sessions will include:

### Team members and Facilitators

- Quality concepts and basic quality tools
- Small team project management process
- Project focused work

### Facilitators Only

- Mentoring and Facilitation techniques for Facilitators

Having completed the course, candidates will be able to apply quality tools and to interpret information and data. In addition, they should be able to apply team concepts both as a member and leader. The Facilitators should be able to understand their role in the process and experience being a Facilitator on a given project.

### Duration

Two or four days delivery, four or six weeks mentoring.

### Certification

CAMMS, CIT. Please contact CAMMS directly for more details.

## 3.0 Project Management Programmes

### 3.1 Diploma in Project Management

#### COURSE CODE

CR\_EPMAN\_8

#### APPLICATION

Apply online at <http://www.cit.ie/course/CREPMAN8>

#### COURSE FEE

€3,850\* Includes (CIT exam fees and PMI exam preparation)

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

With the emergence of Project Management as a standalone profession, international accreditation that is accepted across industries is becoming increasingly important. The Diploma is suitable for individuals who may have practical experience in managing projects but need to supplement this with the necessary education. This course is aimed at those who seek to employ professional project management methodologies in the Initiation, Planning, Execution, Control and Close-Out of their Projects.

The Diploma covers all knowledge areas of the internationally recognised professional standard for the practice of Project Management, the PMBOK® (Project Management Body of Knowledge) which is administered by the PMI (Project Management Institute). CIT's Diploma includes a detailed 2-day preparatory 'boot-camp' course for those candidates who intend to sit for the PMI credentials, the PMP® or CAPM®.

The Diploma combines advanced Project Management techniques and methodologies with the real-life experiences of an expert panel of leading project management lecturers from a wide range of industrial sectors. The course consists of a combination of lectures, seminars, case studies, guest speakers, simulations and practical projects. Course delegates complete various assignments in the class, as project teams and individual assignments.

The course is designed for those involved in a wide range of projects. Participants come from a broad range of sectors and backgrounds and are typically involved in the planning, control and execution of project work in the broadest sense. A Special Purpose Award in Project Management at Level 8, will be issued to all successful candidates.

#### Duration

15 full time days over six months, including a two day PMI exam preparatory 'boot-camp' course.

#### Certification

CIT: 15 ECTS credits at Level 8 on the National Framework of Qualifications. Students who complete all three modules, will be entitled to a Diploma in Project Management (Special Purpose Award– 15 ECTS Credits at Level 8 NFQ )

Project Management Institute (PMI): Project Management Professional (on successful completion of PMI exam). PMI exam fees are not included

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 3.2 Project Management Techniques

### COURSE CODE

CR\_EMBXX\_7

### APPLICATION

Apply online at <http://www.cit.ie/course/CREMBXX7>

### COURSE FEE

€850\*

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This course is a comprehensive and practical introduction to Project Management. The content and delivery is applicable to all industrial sectors (not just technical projects). The content is based on the Project Management Body of Knowledge (PMBOK®) which is administered by the Project Management Institute (PMI) in the USA. The PMBOK is a worldwide recognised professional standard for the practice of Project Management.

The course is aimed at those involved in a wide range of projects. Participants come from a broad range of sectors and backgrounds and are typically involved in the planning, control and execution of project work in the broadest sense.

Lectures are combined with case studies, workshops, simulations and practical projects. Course delegates complete various assignments in the class, as project teams and individual assignments. There are also hands-on computer practical sessions which will be used to instruct participants in the key areas of project planning and control. Candidates should have basic computer skills.

The course focuses on two main areas, primarily learning new tools and techniques to manage projects more effectively. Secondly, to gain increased awareness and learning in the area of 'soft skills' (e.g. leadership, team management, motivation, communication, negotiation, etc.) that are essential to effective project management.

### Course Content

Participants are expected to work on a project of their own choosing. Some short course assignments to be submitted to achieve certification.

- Introduction to Project Management and the fundamentals
- Project selection & initiation. Defining the Project Charter and Project Scope
- Project Planning and defining the Work Breakdown Structure (WBS)
- Managing Project Scope and Change in projects
- Project Time Management - Activity Definition, Activity Duration Estimating, Activity Sequencing, Schedule Development, Schedule Control
- Project Scheduling Software - Microsoft Project 2010, Progress measurement and reporting
- Managing Project Quality and Risk management
- Managing Project Finance and Resources
- Managing People – Team development and the Project Managers Role
- Improving personal effectiveness as a project manager
- Leadership Styles, Communication, Negotiating
- Project Closeout and Evaluation

### Duration

One evening per week for 12 weeks, every Thursday, 6.30pm - 9.30pm.

### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Successful participants from the evening class will be eligible to two days exemption from the Diploma in Project Management and a reduced price from €3,850 to €3,250.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 4.0 Automation and Control Systems Programme

### 4.1 Certificate in Automation & Control Systems

#### Special Purpose Award – 15 ECTS Credits at Level 7

Students who successfully complete the modules Mechatronics; SCADA & Automation Systems; and Robotics will be entitled to a Certificate in Automation & Control Systems (Special Purpose Award).

**COURSE CODE** CR\_EACSY\_7

**APPLICATION** Apply online at <http://www.cit.ie/course/CREACSY7>

**COURSE FEE** Overall Fee: €2,800 (Only applicable when ALL three modules are taken in one academic year)

**ENQUIRIES** T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

These modules can also be taken and certified individually. Please see course code, fee, and online application for each module.

### 4.1.1 Mechatronics

#### COURSE CODE

CR\_EACSY\_7

#### APPLICATION

Apply online at <http://www.cit.ie/course/CREACSY7>

#### COURSE FEE

€1,800\* (includes exam fee)

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

#### Course Content

##### Practical

- Pneumatic design and implementation
- Electro-pneumatic design and implementation
- PLC design and implementation
- Mechatronic design and implementation

##### Theory

- Principles of the "Total Engineering Approach" to production systems
- Principles of typical sensors
- Principles of pneumatic, mechanical and electrical actuation systems
- Principles of embedded control (PLC's, controllers)
- Design, build and fault find on mechatronic systems

This course covers the practical and theoretical requirements for certification by CIT. Certification requires that a candidate provide evidence of competence in the construction, operation and maintenance of pneumatic and electro-pneumatic systems through practical tasks and by meeting knowledge criteria. The course also covers PLC programming to a high standard of achievement allowing students to programme training rigs and develop knowledge of industrial Mechatronic installations.

#### Entry Requirements

Candidates must have at least two years relevant industrial experience and should have obtained their Leaving Certificate or an appropriate craft/technician qualification.

#### Duration

One evening per week for one academic year OR  
Nine day intensive course (over nine weeks)

#### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 4.1.2 SCADA & Automation Systems

### COURSE CODE

CR\_EACSY\_7

### APPLICATION

Apply online at <http://www.cit.ie/course/CREACSY7>

### COURSE FEE

€850\* (includes exam fee)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

Automation has been an essential tool in enhancing productivity and competitiveness for manufacturing industries. Automation is used to improve manufacturing performance, reduce operational costs and improve quality. Most industrial plants now have some form of automation, which is controlled and monitored by SCADA systems. This course enables participants to adjust, service, maintain, and design modern equipment, and to design and develop SCADA control systems.

During the course, real data from a process control rig and flexible assembly line will be utilised in the design of applications.

### Course Content

- Computer based automation systems
- Control systems
- Connection and circuit technology for transducers
- PLC configuration and control
- Safety systems
- SCADA (Supervisory Control and Data Acquisition)

### Entry Requirements

Candidates must have at least two years relevant industrial experience and should have obtained their Leaving Certificate or an appropriate craft/technician qualification.

### Duration

One evening per week for 12 weeks in Semester 1.

### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 4.1.3 Robotics

### COURSE CODE

CR\_EACSY\_7

### APPLICATION

Apply online at <http://www.cit.ie/course/CREACSY7>

### COURSE FEE

€850\* (includes exam fee)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

An industrial robot is defined as “an automatically controlled, reprogrammable, multipurpose device, for use in industrial automation applications”.

This course gives participants an understanding in Industrial Robotics programming and design, and an indepth knowledge of Robotic Sensors.

### Course Content

- Robotic cell design
- End effectors
- Robotics programming
- External sensors

### Entry Requirements

Candidates must have at least two years relevant industrial experience and should have obtained their Leaving Certificate or an appropriate craft/technician qualification.

### Duration

One evening per week for 12 weeks in Semester 2

### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 5.0 Society of Manufacturing Engineers Certification Programmes (SME)

The awarding body is the Society of Manufacturing Engineers (SME), which has 70,000 members world-wide. The SME is dedicated to the dissemination of information and education in the area of manufacturing engineering.

### Two levels of Certification are offered:

- Certified Manufacturing Technologist (CMfgT)
- Certified Manufacturing Engineer (CMfgE)

## 5.1 Certified Manufacturing Technologist (CMfgT)

### COURSE CODE

CR\_ECMTE\_6

### APPLICATION

Please email [camms@cit.ie](mailto:camms@cit.ie) for further information.

### COURSE FEE

€1,000 includes course textbook. (Course Fee does not include exam fee, payable to the SME).

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

### Course Content

- Engineering Mechanics
- Materials and Design
- Production Processes
- Quality Control and SPC
- Management and Production Planning
- Occupational Health and Safety
- Automation
- Maintenance

### Entry Requirements

Candidates must have a minimum of four years manufacturing experience or two years relevant education.

### Awarding Body

Society of Manufacturing Engineers (SME) (Course fee does not include examination fees, payable directly to the SME).

**Note:** CIT is not the examining body for this programme but acts as an official exam site.

**Note:** Delivery of this programme is subject to sufficient numbers of applicants

## 5.2 Certified Manufacturing Engineer (CMfgE)

### COURSE CODE

CR\_ECMEN\_6

### APPLICATION

Apply online at <http://www.cit.ie/course/CRECMEN6>

### COURSE FEE

€840 includes course textbook. (Course Fee does not include exam fee, payable to the SME).

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

The course is based on a body of knowledge specified for certification by the Society of Manufacturing Engineers (SME) which is based in the USA. Its prime aim is to provide recognition for candidates who have several years manufacturing experience but no qualification to show for their work-based expertise.

### Course Content

- Manufacturing Planning and Control
- Quality Management and Quality Tools
- Analysis of Manufacturing Processes
- Facility Layout and Planning
- Computer Integrated Manufacturing
- Occupational Health and Safety

### Entry Requirements

Candidates must have a minimum of eight years manufacturing-related work experience and/or education (a maximum of five years of education may be applied toward the eight years experience/education requirement).

### Duration

One evening per week for the academic year

### Awarding Body

Society of Manufacturing Engineers (SME)

**Note:** CIT is not the examining body for this programme but acts as an official exam site.

## 6.0 Sustainable Energy (Introduction)

### 6.1 Certificate in Introduction to Sustainable Energy

Special Purpose Award – 10 ECTS Credits at Level 6

Students, who successfully complete the modules Introduction to Sustainable Energy Systems; and Wind Energy, will be entitled to a Certificate in Introduction to Sustainable Energy (Special Purpose Award). Complete programme:

**COURSE CODE** CR\_ESUSE\_6

**APPLICATION** Apply online at [http://www.cit.ie/course/CR\\_ESUSE\\_6](http://www.cit.ie/course/CR_ESUSE_6)

**COURSE FEE** €1,500. (Only applicable when BOTH modules are taken in one academic year)

**ENQUIRIES** T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

## 6.1.1 Introduction to Sustainable Energy Systems

### COURSE CODE

CR\_ESUSE\_6

### APPLICATION

Apply online at <http://www.cit.ie/course/CRESUSE6>

### COURSE FEE

€850\* (includes course notes and exam fee)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This course aims to introduce the fundamentals of Sustainable Energy Systems. The course concentrates on energy sources which are directly utilised in building energy systems and small scale electrical generation. An appreciation of the current conditions relating to the Irish energy situation, policies, grants and support structures will be given.

The course material will introduce the student to a wide range of potential sustainable energy sources including wind, biomass, geothermal, solar, hydro, and energy efficiency measures. The content of the course will cover installation, economics, planning, and operational issues associated with various energy sources. Students will evaluate the range of energy options for a domestic building and then undertake an energy design."

### Module Content

- Energy Sources, Use and Policy
- Wind Energy
- Wood Pellet and Chip
- Solar Thermal
- Biofuels and Transport Fuels
- Geothermal and Heat Pumps
- Solar PV and Fuel Cells

- Hydroelectricity
- Domestic Energy Ratings BER/DEAP/EPBD
- Energy System Design Study

Participants are expected to work on and present a project of their own choosing.

### Entry Requirements

This course is an introductory level programme and is open to all.

### Duration

One evening per week for 12 weeks.

### Awarding Body

CIT: 5 ECTS credits at Level 6 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 6.1.2 Wind Energy

### COURSE CODE

CR\_ESUSE\_6

### APPLICATION

Apply online at <http://www.cit.ie/course/CRESUSE6>

### COURSE FEE

€850\* (includes course notes)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

It is envisaged that renewable energy technologies will make a major contribution to electricity production, transport and the industrial sector in the near future. This is due to its environmental benefits, increasing competitiveness and the rising costs of fossil fuels. Renewable energy sources such as wind power will be used for the achievement of both national and international targets for the reduction of greenhouse gas emissions and green electricity generation targets.

This course will examine the energy crisis that exists in Ireland today and the need for a greater use of wind power generation. It will introduce the basics of electricity, its generation from wind power, storage and exportation to the national electricity grid. The course aims to teach everything needed for the planning, purchasing, installation, operation and maintenance of a wind turbine suitable for domestic or small industrial uses. It is aimed at anyone interested in installing such wind turbine and associated technologies. The course will utilise the on-site wind generator at CIT for both theoretical and laboratory based lessons.

The course is divided into classroom and laboratory work. There is outside monitoring of renewable energy equipment, in addition, two assignments during the module and a final exam.

### Module Content

- Wind and renewable energy introduction
- Electrical engineering principals
- Electrical generator aspects
- Wind power theory
- Site selection mathematics
- Wind generator construction, selection and sizing
- Purchasing of equipment, planning requirements and grants
- Electrical power conversion
- Electricity grid connection, transmission and embedded generation
- Commissioning, operation and maintenance
- Prediction and monitoring of wind turbine output

### Entry Requirements

This course is aimed at both an introductory level and to people with a technical background. A background in engineering, mathematics, physics or electrical trade would be an advantage but is not essential. The course fee includes a detailed set of course notes and exam fee.

### Duration

One evening per week for 12 weeks

### Awarding Body

CIT: 5 ECTS credits at Level 6 on the National Framework of Qualifications.

\* Discounts available for groups of three or more.

## 6.2 Certificate in Sustainable Energy Special Purpose Award – 15 ECTS Credits at Level 7

Students who successfully complete the modules: 1. Energy and the Environment; 2. Solar and Geothermal Energy; and 3. Ocean and Hydro Energy, will be entitled to a Certificate in Sustainable Energy (Special Purpose Award - 15 ECTS credits Level 7). Complete programme:

**COURSE CODE** CR\_ESUSE\_7

**APPLICATION** Apply online at <http://www.cit.ie/course/CRESUSE7>

**COURSE FEE** Overall Fee: €2,100. (Only applicable when ALL three modules are taken in one academic year)

**ENQUIRIES** T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

These modules can also be taken and certified individually. Please see Course Code, Fee, and online application for each module.

### 6.2.1 Energy and the Environment

#### COURSE CODE

CR\_ESUSE\_7

#### APPLICATION

Apply online at <http://www.cit.ie/course/CRESUSE7>

#### COURSE FEE

€850\* (includes course notes)

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This module examines the impact of the generation, distribution, and use of electricity and electrically powered products on the environment, and the management methodologies to reduce and avoid these impacts.

#### Module Content

- Environmental Management Systems
- Products: Design for Environment
- Auditing
- Ecomapping
- Legislative Framework
- Impacts of the use of electricity

#### Entry Requirements

Students are recommended to first complete the Certificate in Introduction to Sustainable Energy (Special Purpose Award – Level 6).

#### Duration

One evening per week for 12 weeks.

#### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more

## 6.2.2 Solar and Geothermal Energy

### COURSE CODE

CR\_ESUSE\_7

### APPLICATION

Apply online at <http://www.cit.ie/course/CRESUSE7>

### COURSE FEE

€850\* (includes course notes)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This module includes a study of the energy processes involved in the use of solar and geothermal energy; an evaluation of solar and geothermal heating, daylighting, and solar electricity generating technology.

### Module Content

- **Solar Energy - Principles and Solar Heat Transfer**  
Properties of Radiation, Solar Radiation, Electromagnetic Spectrum, Radiation properties of Materials, Radiative Heat Transfer, Passive Solar Applications.
- **Solar Thermal Technologies**  
Solar Thermal Collectors, Flat Plates, ETCs, Concentrators (CSP), Performance, Energy Balance, Materials
- **Solar Photovoltaics**  
Photovoltaic Effect, Materials, Cell Types, Cell Performance, Module Properties, Fabrication, Siting Issues, Power Output and Integration, EIA
- **Geothermal Energy**  
Heat Pump Cycles, Refrigerants, pH diagrams, Heat Pump Operation and Equipment, COP, Installation Issues.
- **Lab Cycle**  
Solar Thermal, Solar Photovoltaic, Geothermal Energy Equipment Testing, Installation Exercise

### Entry Requirements

Students are recommended to first complete the Certificate in Introduction to Sustainable Energy (Special Purpose Award – Level 6).

### Duration

One evening per week for 12 weeks

### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 6.2.3 Ocean and Hydro Energy

### COURSE CODE

CR\_ESUSE\_7

### APPLICATION

Apply online at <http://www.cit.ie/course/CRESUSE7>

### COURSE FEE

€850\* (includes course notes)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This module deals with the engineering aspects of structures in a marine environment, covering waves and wave action, buoyancy and stability, anchoring and marine corrosion with a particular focus on marine based sustainable energy systems.

### Module Content

- **Waves**  
Wave geometry, wave energy, wave spectra.
- **Buoyancy and stability**  
Displacement, initial stability, metacentric height, degrees of freedom.
- **Corrosion**  
Types of corrosion, cathodic protection, protective coatings, and materials in a marine environment.
- **Seafloor and Marine Soils**  
Dense sands, calcareous sands, boulders, overconsolidated silts, silts and clays.
- **Anchoring and Mooring**  
Deep ocean operation, multicomponent slack mooring, tension mooring, coastal zone operation, multipoint mooring system, deadweight, drag embedment, plate and pile anchors.

### Entry Requirements

Students are recommended to first complete the Certificate in Introduction to Sustainable Energy (Special Purpose Award – Level 6).

### Duration

One evening per week for 12 weeks.

### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 7.0 Advanced Wind Energy

### COURSE CODE

CR\_EAWND\_7

### APPLICATION

Please email [camms@cit.ie](mailto:camms@cit.ie) for an application form.

### COURSE FEE

€1,100\* (includes course notes)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

Advanced Wind Energy follows on from the previous module “Introduction to Wind Energy”. The course builds on the principles previously outlined and also introduces the student to wind energy analysis software packages.

As part of the course, the student will examine the methods used for wind turbine site selection. The fundamentals of wind farm design, including wind turbine layout and electrical design, energy production, turbine noise levels, turbine wake losses, and turbine suitability will be examined. Wind data collected on a specific site will be used for desktop analysis using industry standard software and this will help determine the suitability of a particular location for a wind farm. The course will be a mixture of laboratory based analysis and classroom theory.

### Module Content

- Wind Atlas Analysis and Application and wind energy software applications
- Wind Data interpretation and wind speed probability
- 3D Terrain maps
- Optimal Site and Turbine selection
- Wind Flow Models using computational fluid dynamics software
- Turbine Wake, Noise, Shadow Flicker

### Entry Requirements

Completion of the “Introduction to “Wind Energy” module and a background in engineering, mathematics, physics or electrical trade is required. As this course is analytically based, a high standard of both mathematics and IT is required.

### Duration

Three hours per week for 12 weeks OR five full days in Semester 2.

### Awarding Body

CIT: 5 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

Discounts available for groups of three or more

## 8.0 Biomedical Engineering Programmes

### 8.1 Certificate in Biomedical Device Manufacture

Special Purpose Award – 10 ECTS Credits at Level 7

#### COURSE CODE

CR\_EBMDM\_7

#### APPLICATION

Apply online at <http://www.cit.ie/course/CREBMDM7>

#### COURSE FEE

€1,300\* (includes course notes and exam fees)

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This programme has been developed for anyone seeking employment in or transferring into the Biomedical Devices Sector as well as anyone wishing to enhance their general knowledge of the industry. The programme is structured around common medical disorders which are treated by biomedical devices manufactured in Ireland. On completion, participants will be familiar with a range of disorders, the anatomy and physiology associated with these disorders, the devices used in their treatment, and the processes involved in the manufacture of these devices.

The programme also familiarises participants with the engineering requirements and standards that apply to cleanrooms employed in the manufacture of medical devices. The programme looks at the specification of appropriate cleaning, packaging and sterilisation operations for medical devices, the assessment of the safety risks associated with manufacturing operations and the requirements for guaranteeing a safe working environment.

The programme also examines the detailed requirements of a Good Manufacturing Practise (GMP) system and the operation of regulatory bodies such as FDA/IMB.

#### Course Content

- **Anatomy**  
General anatomy, Neuro Anatomy, Cardiovascular anatomy, Orthopaedics.
- **Medical Devices**  
Devices used in the treatment of neurovascular, cardiovascular, orthopaedic disorders and product development history.
- **Manufacturing Processes**  
Introduction to manufacturing processes; injection moulding, extrusion, wire drawing; catheter coating process, embolic coil manufacturing.
- **Cleanroom Technology**  
Cleanroom classification; particle size and counting; filter design and performance, cleanroom layout, materials & standards, cleanroom commissioning and qualification.
- **Cleaning and Sterilisation Technology**  
Requirements for cleaning, soil types, cleaning systems

organic/aqueous/semiaqueous), cleaning equipment. Ethylene oxide. Gamma sterilisation, electron beam. Saturated steam - gravity displacement, porous load, ballasted cycles. Dry heat sterilisation/depyrogenation. Microbial inactivation/endotoxin inactivation.

- **Packaging**  
Functions of packaging, packaging requirements for sterilisation, physical & chemical properties of packaging, labelling and packaging control, distribution hazards, production of packages, forming materials and methods, lidding, sealing.
- **GMP**  
Introduction to GMP, GMP documentation - SOPs/ regulatory documentation/submissions, Role and requirements of the FDA/IMB/Notified Bodies, introduction to 21 CFR820/Medical Devices Directive, planning for audits. Classification of devices. FDA/IMB submissions - 510k/PMA applications.
- **Validation**  
Validation protocols - Installation, operational and performance qualification. Process validation, design qualification, validation of sterilisation system, design verification, design validation. URS/FDS/FAT/SAT master validation plans. Change control.

#### Entry Requirements

This course is open to anyone with a minimum of two years industrial experience

#### Duration

Six full days

#### Awarding Body

CIT: Certificate in Introduction to Biomedical Devices, Special Purpose Award 10 ECTS credits at Level 7 on the National Framework of Qualifications.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 8.2 Anatomy of Biomechanics

### COURSE CODE

CR\_EBMEC\_8

### APPLICATION

Apply online at <http://www.cit.ie/course/CREBMEC8>

### COURSE FEE

€1,300\* (includes course notes and exam fees)

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This programme covers the anatomical basis of the biomechanics of selected major body systems: the musculoskeletal, nervous and circulatory. The main emphasis is on living, functional anatomy. There will be continual reference to clinical conditions. Course delivery will be through interactive lectures and tutorials, combined with study of anatomical models.

### Course Content

- **Introduction:** Anatomical terminology and organisation of skeletal, muscular, nervous and cardiovascular tissues.
- **Joints:** Classification by form; relationships of form to function; examples from limb joints.
- **Muscle:** Muscle types; skeletal muscle types; structure function relationships; innervation.
- **Nervous system:** Organisation of brain and spinal cord; somatotopic organisation in the central nervous system; the production of movement.
- **Limbs:** Muscle groups and patterns of muscle organisation; functional anatomy of the principal joints (hip, knee, ankle, shoulder, elbow, wrist).
- **Trunk, head and neck:** Basic body plan; body wall skeleton, muscles, innervation; organisation and distribution of cardiovascular components; blood supply to heart and brain; heart – morphology and function; coronary circulation; anatomy of stroke.
- **Vertebral column and pelvis:** structure – function relationships, including force transmission.

### Duration

Three days

### Certification

CAMMS, CIT. Please contact CAMMS directly for more details.

**Note:** Places are limited for this course. Eligible candidates will be considered on a first come first served basis.

\* Discounts available for groups of three or more.

## 9.0 Bachelor of Science Degrees

### 9.1 Bachelor of Science (Honours) in Process Plant Technology

#### COURSE CODE

CR\_EPPTN\_8

#### APPLICATION

Apply online at <http://www.cit.ie/course/CREPPTN8>

#### COURSE FEE

See module listing

#### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

This course aims to produce graduates who can make a significant contribution to the design, operation, maintenance and management of process plant. The course concentrates on the mechanical aspects of process engineering design and selection, plant construction, condition monitoring, productive maintenance, plant safety, automation and control systems, project management and investment appraisal. This honours degree programme will help participants to develop the skills and knowledge to implement change and to undertake key operational management roles.

#### Entry Requirements

Merit or better in a relevant Diploma course or equivalent.

#### Duration

Three evenings per week, 7pm - 10pm, and one Saturday per month, 10am - 5pm. The course can be completed in two academic years,

#### Award

The award of the Bachelor of Science (Honours) in Process Plant Technology will be received by students who successfully complete the course programme.

#### Modules

##### Mandatory

Project	€1350
Quality Engineering	€495
Engineering Project Management	€495
Process Automation & Control	€495
Mathematics and Statistics	€495
Process Plant Services	€495
Process Plant Equipment	€495
Maintenance & Reliability	€495
Facilities	€495

##### Electives (Choose One)

Automation Systems	€495
Advanced Materials and Processes	€495

### ENQUIRIES

T: 021 432 6264 • E: [camms@cit.ie](mailto:camms@cit.ie) • W: [www.camms.ie](http://www.camms.ie)

All industries involved in the production of goods, whether biomedical, pharmaceutical, chemical, process, electronic or aeronautical require manufacturing engineers. These industries invest heavily in the most up to date automation, software and process control equipment as well as utilising the most modern of training and management techniques.

This honours degree programme aims to produce graduates who can make a significant contribution to the design, operation, and management of manufacturing systems, as well as to the quality and reliability of manufactured products, parts and equipment.

### Entry Requirements

Merit or better in a relevant Diploma course or equivalent.

### Duration

Three evenings per week, 7pm - 10pm, and one Saturday per month, 10am - 5pm. The course can be completed in two academic years.

### Award

The award of the Bachelor of Science (Honours) in Advanced Manufacturing Technology will be received by students who successfully complete the course programme.

### Modules

#### Mandatory

Project	€1350
Quality Engineering	€495
Engineering Project Management	€495
Automation Systems	€495
Mathematics and Statistics	€495
Product Development	€495
Manufacturing Systems	€495
Maintenance & Reliability	€495
Facilities	€495

#### Electives (Choose One)

Process Automation & Control	€495
Advanced Materials and Processes	€495

## COURSES

### Welding Courses:

- Welding Course (Basic)
- Coded Welding Course Mags Welding
- Coded Welding Course Tags Welding
- Coded Welding Course Arc Welding
- Coded Welding Course European Standard EN287
- 165 Certificate in Welding & Fabrication Practice

### Automotive Courses:

- Certificate in Automotive Technology (Level 6)
- Certificate in Automotive Powertrain Technology (Level 7)
- Certificate in Automotive Systems Technology (Level 7)
- Certificate in Automotive Diagnostics (Level 7)

# Welding Course (Basic)

## COURSE CODE

CR\_BASIC\_4\_1

## APPLICATION

Please email [geraldine.mahon@cit.ie](mailto:geraldine.mahon@cit.ie) for an application form

## COURSE FEE

€400

## ENQUIRIES

Finbarr O’Keeffe • T: 021 433 5940 • E: [finbarr.okeeffe@cit.ie](mailto:finbarr.okeeffe@cit.ie)

This course provides a practical introduction to three common welding processes which are used in industry.

### Delivery

6 x 3.5 hour evenings, practical training classes

### Course Content

Candidates may take any or all of the following Welding Processes:

- Manual Metal-Arc Welding (MMA) rutile electrodes;
- Metal-Arc Gas Shielded welding (MAGS) solid wire;
- Tungsten Arc Gas Shielded welding (TAGS) carbon steel/stainless steel.

### Award

A Certificate of attendance for candidates on successful completion of the course.

# Coded Welding Course

## Mags Welding (Level 6)

### COURSE CODE

**CR\_MAGS\_6-1**

### APPLICATION

Please email [geraldine.mahon@cit.ie](mailto:geraldine.mahon@cit.ie) for an application form

### COURSE FEE

€400 (excl. test fee €65 per specimen sent for NDT)

### ENQUIRIES

Finbarr O’Keeffe • T: 021 433 5940 • E: [finbarr.okeeffe@cit.ie](mailto:finbarr.okeeffe@cit.ie)

This course is geared towards Craft persons/welders and other suitable candidates working in general steel fabrication plate/pipe and construction industry who wish to gain a coded welding qualification in the MAGS Welding process to EN 287/ASME IX, standard.

### Delivery

7 x 3.5 hour evenings, practical training classes and one night for testing.

### Entry Requirements

A good working knowledge of the appropriate welding process is necessary.

### Course Content

Candidates may take any or all of the following Welder Qualification tests:

- Metal-Arc Gas Shielded welding (MAGS) solid wire, butt and fillet welds in plate, vertical up position;
- Metal-Arc Gas Shielded welding (MAGS) solid wire, butt and fillet welds in plate, horizontal/vertical position;
- Metal-Arc Gas Shielded welding (MAGS) flux cored wire, fillet welds in plate horizontal/vertical position.

### Award

A Welder Qualification Certificate to EN 287 & ASME IX will be awarded to candidates on successful completion of any of the listed tests to the required standard.

# Coded Welding Course

This course is geared towards Craft persons/welders and other suitable candidates working in general steel fabrication plate/pipe and construction industry who wish to gain a coded welding qualification in the TAGS Welding process to EN287/ASME IX, standard.

### Delivery

6 x 3.5 hour evenings, practical training classes and one night for testing.

### Entry Requirements

A good working knowledge of the TAGS welding process is necessary.

### Course Content

Candidates may take any or all of the following Welder Qualification tests:

- Tungsten Arc Gas Shielded welding (TAGS) stainless steel pipe  $\text{Æ}48$  mm x 2.77 mm wall thickness;
- Tungsten Arc Gas Shielded welding (TAGS) carbon steel pipe  $\text{Æ}89$  mm x 5.5 mm wall thickness.

### Award

A Welder Qualification Certificate to EN 287 & ASME IX will be awarded to candidates on successful completion of any of the listed tests to the required standard.

### ENQUIRIES

Finbarr O'Keeffe • T: 021 433 5940 • E: [finbarr.okeeffe@cit.ie](mailto:finbarr.okeeffe@cit.ie)

This course is geared towards Craft persons/welders and other suitable candidates working in general steel fabrication plate/pipe and construction industry who wish to gain a coded welding qualification in the MMA Welding process to EN 287/ASME IX, standard.

### Delivery

7 x 3.5 hour evenings, practical training classes and one night for testing.

### Entry Requirements

A good working knowledge of the appropriate welding process is necessary.

### Course Content

Candidates may take any or all of the following Welder Qualification tests:

- Manual Metal-Arc Welding (MMA) rutile electrodes, butt and fillet welds in plate, vertical up position;
- Manual Metal-Arc Welding (MMA) basic electrodes, butt and fillet welds in plate, vertical up position.

### Award

A Welder Qualification Certificate to EN 287 & ASME IX will be awarded to candidates on successful completion of any of the listed tests to the required standard.

# Coded Welding Course

## European Standard EN287 (Level 6)

### COURSE CODE

CR\_WELD\_6-1

### APPLICATION

Please email [geraldine.mahon@cit.ie](mailto:geraldine.mahon@cit.ie) for an application form

### COURSE FEE

€1,250 (excl. test fees)

### ENQUIRIES

Michael Cotter • T: 021 433 5789 • E: [michael.cotter@cit.ie](mailto:michael.cotter@cit.ie)

This course provides a coded welding qualification to EN287/ASMEIX, for tradespersons/welders and other suitable candidates working in general steel fabrication plate/pipe and construction industry.

### Duration

The course is presented over one full academic year September 2014 to June 2015.

27 Monday evenings, practical training; and 8 Tuesday evenings, theoretical classes.

### Entry Requirements

A good working knowledge of the appropriate welding process is necessary.

### Course Content

Candidates may take any or all of the following Welder Qualification tests:

- Metal-Arc Gas Shielded welding (MAG) solid wire, plateV butt and fillet welds in vertical up position;
- Metal-Arc Gas Shielded welding (MAG) solid wire, plateV butt fillet welds in horizontal/vertical position;
- Metal-Arc Gas Shielded welding flux cored wire, plate fillet welds in horizontal/vertical position;
- Manual Metal-Arc Welding (MMA) rutile electrodes, plateV butt and fillet welds in vertical up position;
- Manual Metal-Arc Welding (MMA) basic electrodes, plateV butt and fillet welds in vertical up position;
- Tungsten Arc Gas Shielded welding (TIG) carbon steel pipe Ø89 mm x 5.5 mm wall thickness;
- Tungsten Arc Gas Shielded welding (TIG) stainless steel pipe Ø 48mm x 2.77 mm wall thickness.

Qualification test fee of €65 will be applied for each test specimen sent for NDT, no test fees are included in the course fee.

A theory test may be taken for each process, this test is not mandatory.

### Award

A Welder Qualification Certificate to EN 287 & ASME IX will be awarded to candidates on successful completion of any of the listed tests to the required standard.

# 165 Certificate in Welding & Fabrication Practice (Level 6)

## COURSE CODE

CR\_EW165\_6

## APPLICATION

Please email [geraldine.mahon@cit.ie](mailto:geraldine.mahon@cit.ie) for an application form

## COURSE FEE

€1,250 (excl. exam fees)

## ENQUIRIES

David Lynch • T: 021 433 5789 • E: [david.lynch@cit.ie](mailto:david.lynch@cit.ie)

This revised 165 scheme has been developed to replace the old 165 City & Guilds of London Institute Welding Craft Practice Scheme. The revision has taken place with the full involvement and support of the Welding Institute.

The scheme is intended to assist students/trainees to reach a standard of practical proficiency in welding related to that specified in EN 287 – BS 4872. The scheme is suitable for a wide range of students and craft persons, for example, the self-employed, adults wishing to pursue single units and young people who are new entrants to the industry.

### Delivery

Two evenings per week (to be arranged).  
The scheme is presented in unit form at Levels 1, 2 and 3.

### Course Content

Level 1, 2 and 3

- Unit 1 Gas Welding and Cutting
- Unit 2 Manual Metal-Arc Welding
- Unit 3 Metal-Arc Gas Shielded Welding
- Unit 4 Tungsten Arc Gas Shielded Welding
- Unit 5 Fabrication Processes
- Unit 6 Related Studies
- Unit 7 Engineering Drawing

Certificates will be awarded for any four units to include at least two different welding processes. Additional units may be taken as endorsements. Records of achievement will be awarded for individual units successfully completed.

**Note:** Examination fees are payable to the awarding body. These are not included in the course fee.

### Awarding Bodies

Awarding Body Consortium (ABC)

The Certificate and Records of Achievement will be endorsed by the Welding Institute.

# Certificate in Automotive Technology (Level 6)

## APPLICATION

Please email [geraldine.mahon@cit.ie](mailto:geraldine.mahon@cit.ie) for an application form

## COURSE FEE

€580 (incl. exam fees)

## ENQUIRIES

Michael O’Riordan • T: 021 432 6711 • E: [michael.oriordan@cit.ie](mailto:michael.oriordan@cit.ie)

### Delivery

One night per week for one academic year.

### Entry Requirements

Leaving Certificate or relevant craft qualification.

### Course Content

The course will consist of TWO modules:

- Mechanical Automotive Technology AUTO6028
- Electrical Automotive Technology AUTO6029

covering the fundamentals of automotive technology and automotive electricity. The areas covered will include engines, transmissions, brakes, suspension, steering and automobile electrical components, circuits and systems. This is a classroom-based course.

### Mechanical Automotive Technology

On successful completion of this module the learner will be able to

- List primary engine components and associated subsystems.
- Explain the operation of a spark and compression ignition internal combustion engine.
- Define the internal components of a transmission and final drive arrangements and explain their operating principles.
- Describe the layout and operating principles of the steering and suspension systems as fitted to light vehicles.
- Explain the fundamental operating principles of a vehicle’s hydraulic braking system.

### Electrical Automotive Technology

On successful completion of this module the learner will be able to

- Explain the fundamental operating principles of electricity.
- Calculate automotive electrical circuit operations using ohms law.
- Discuss the operation of automotive electrical consumers and loads.
- Evaluate the operation of automotive electrical circuits and systems using automotive electrical test equipment.

### Award

Special Purpose Award (10 ECTS credits at Level 6 on the National Framework of Qualifications).

## ENQUIRIES

Gary O'Neill • T: 021 432 6711 • E: [gary.oneill@cit.ie](mailto:gary.oneill@cit.ie)

### Delivery

One night per week for one academic year.

### Entry Requirements

Automotive Technology 1 or equivalent.

### Course Content

The course will consist of TWO modules:

- Automotive Powertrain Electronics AUTO7015
- Automotive Mechanical and Electrical Systems AUTO7014

covering more advanced aspects of automotive electrical components and systems. The course will include coverage of engine construction, timing diagrams diesel and petrol systems, transmission systems, gearboxes, drive layouts, steering, suspension and brake systems. It will also cover electrical circuit principles, sensors, actuators displays, fault-finding ignition/injection systems, lighting and cooling systems, ABS Braking and SRS Systems. This is a classroom based course.

#### 1. Automotive Powertrain Electronics

On successful completion of this module the learner will be able to

- Interpret technical information linked to automotive electrical schematics and diagrams.
- Describe low voltage automotive electrical circuits and vehicle sub-systems.
- Describe automotive heavy duty rotating electrical components and systems.
- Describe automotive electronic fuel injection systems and after treatment emission control devices.
- Explain how to repair automotive mechanical, hydraulic, electrical and electronic unit assemblies and systems.
- Make repair decisions based on economic factors.

#### 2. Automotive Mechanical and Electrical Systems

On successful completion of this module the learner will be able to

- Explain and apply occupational health and safety in automotive settings.
- Solve problems using electrical quantities of voltage, electrical current, electrical resistance and power.
- Execute practical use of core automotive diagnostic test equipment.
- Diagnose electrical and electronic vehicle sub-system concerns, using vehicular network system live data transmission and diagnostic trouble codes.
- Explain the role of electricity in modern motor vehicles as it relates to engine, chassis, safety and accessory systems.

### Award

Noel O'Halloran • T: 021 432 6711 • E: [noel.ohalloran@cit.ie](mailto:noel.ohalloran@cit.ie)

### Delivery

One night per week for one academic year.

### Entry Requirements

Automotive Technology 2 or equivalent.

### Course Content

The course will consist of TWO modules:

- Automotive Chassis and Body Electronics Systems AUTO7017
- Automotive Management Electronics AUTO7016

covering more advanced aspects of automotive electrical components and systems. The course will include coverage of emission controls, rotary engines, valve timing, CVT and wheel drive, power-assisted steering, traction control, air conditioning and safety restraint systems (SRS). It will also address electronic ignition, engine alignment systems, lighting systems, CAN bus, cruise control, instruments, displays and climate controls. This is a classroom based course.

#### 1. Automotive Chassis and Body Electronic Systems

On successful completion of this module the learner will be able to

- Assess the operation of petrol and diesel engine management systems.
- Analyse the operation of vehicle comfort control systems.
- Appraise the operation of vehicle passive and active safety systems.
- Illustrate the operation of vehicle network control systems.
- Assess the operation of vehicle lighting control systems.

#### 2. Automotive Management Electronics

- On successful completion of this module the learner will be able to
- Assess the complete operation of starting systems.
- Illustrate the operation of an intelligent engine start system.

Dr Michael J. O'Mahony • T: 021 433 5943 • E: [michael.jomahony@cit.ie](mailto:michael.jomahony@cit.ie)

This is a 90 credit Level 9 taught programme comprising 8 mandatory modules, two free choice 5 credit module and two project modules (totalling 15 credits).

### Aim

This programme aims to develop advanced analytical, design and research skills in Chemical and Biopharmaceutical Engineering. Graduates of this programme will be well equipped to meet the challenges of modern industry. The programme balances coverage of underpinning theory and practical design considerations. The content seeks to reflect current and likely future practice in process analysis, design, design appraisal, experimental techniques and the use of computational tools. It aims to provide the graduate with the advanced conceptual understanding, detailed factual knowledge, and specialist technical skills that are required for success in Chemical and Biopharmaceutical Engineering.

### Entry Requirements

Applicants must have achieved a minimum of Second Class Honours in a Level 8 BEng (Honours) in Chemical and Biopharmaceutical Engineering or equivalent.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Duration

It is envisaged that students should complete the programme over 3 years on a part-time basis.

### Award

Master of Engineering in Chemical & Biopharmaceutical Engineering (Level 9 on the National Framework of Qualifications)

### Closing Date for application

8 September 2014

### Commencement Date

15 September 2014

## ENQUIRIES

Elaine Burke • T: 021 433 5150 • E: [elaine.burke@cit.ie](mailto:elaine.burke@cit.ie)

Detailed Module Information is available at <http://modules.cit.ie>

1 - 4 evenings a week depending on the number of modules taken. A number of daytime workshops to be decided.

A nationally accredited education programme designed to meet the education and training needs of people in the areas of Production, Quality Assurance and Validation in the Biopharmaceutical, Pharmaceutical and Medical Devices industries.

### Entry Requirements

Candidates under the age of 23 must have obtained a minimum of Leaving Certificate Grade D3 at Ordinary Level in 5 subjects including Mathematics, and English or Irish, OR an appropriate craft/technician qualification OR non-standard applicants (e.g. mature students – over 23 years) will be considered on an individual basis. Eligible candidates may be interviewed.

### Course Content

This course is designed for existing employees or potential new recruits in the Biopharmaceutical, Pharmaceutical and Medical Devices industries who would like an accredited qualification in any of following areas:

### Indicative Content

#### Modules will include:

- cGMP I and QA
- Cell and Microbiology
- Chemistry
- Measurement Science
- Information Technology
- Maths for Manufacturing Operations
- Occupational Health and Safety/Environmental Management

- cGMP II and QC
- Total Quality Management
- Contamination Control and Cleanroom Management
- Manufacturing and Processing Technology
- Calibration Science
- Introduction to Biotechnology
- Industrial Project

### Course Options

Credits and Certificates are awarded for each subject passed, allowing participants to select accredited modules appropriate to skill need and/ or gather credits towards the award of Higher Certificate.

### Exemptions

Applicants who have appropriate experience and knowledge of the Pharmaceutical or Medical Devices industries may be considered exempt from examination of some subjects in Stage 1 or Stage 2 upon providing evidence via the Recognition of Prior Learning (RPL) scheme of the Institute ([www.cit.ie/rpl](http://www.cit.ie/rpl)).

### Further Studies

Students completing the Higher Certificate in Good Manufacturing Practice & Technology have the opportunity to proceed to a Bachelor of Science in Good Manufacturing Practice (Level 7).

**Note:** The running of individual modules will be dependent on a sufficient number of students enrolling on the course. The module may be withdrawn if this requirement is not fulfilled.

# Bachelor of Science in Good Manufacturing Practice & Technology (Level 7)

## COURSE CODE

CR\_SGMPE\_7\_Y1

## APPLICATION

Apply online at <http://www.cit.ie/course/CRSGMPE7Y1>

## COURSE FEE

Elaine Burke • T: 021 433 5150 • E: [elaine.burke@cit.ie](mailto:elaine.burke@cit.ie)

### Delivery

One module per night from 6.30pm – 9.30pm

### Entry Requirements

Candidates are required to have a Higher Certificate or higher in an Engineering or Science Discipline. It is required that all qualifying candidates have completed modules in basic chemistry and biology and have a knowledge of GMP, to undertake the complete programme.

### Course Content

#### To commence September 2014

One module per night from 6.30pm - 9.30pm

- Validation Science (Mandatory)
- Chemical Applications (Mandatory)
- Biopharmaceutical Upstream (Elective)

#### To commence February 2015

One module per night from 6.30pm - 9.30pm

- Technology Transfer (Mandatory)
- Maintenance, Utilities and Facilities (Mandatory)
- Biopharmaceutical Downstream (Elective)
- Energy Management (Elective)
- Project (Mandatory)\*

\* Project can be undertaken once 7 modules have been completed.

A nationally accredited degree designed to meet the education and training needs of supervisors and higher technicians in the areas of Production, Quality Assurance and Validation in the Pharmaceutical, Biopharmaceutical, Chemical and Medical Device Industries. The programme comprises of 12 modules and a Project. To complete the programme, each student must take the 7 mandatory modules and 3 elective modules as well as the project.

The project is undertaken towards the end of the degree programme, when the student has completed most of the modules. The programme can be taken over 2 years or spread out over 3 or more years.

There is a considerable element of continuous assessment. Laboratory experiments are included in appropriate modules.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Indicative Content

- Validation Science
- Manufacturing Operations
- Chemical Applications
- Technology Transfer
- Maintenance, Utilities and Facilities
- Biopharmaceutical Upstream
- People Management
- Process Improvement
- Biopharmaceutical Downstream
- Energy Management
- Project
- Medical Devices
- Formulation
- Food Processing Technology

**Note:** The running of individual modules will be dependent on a sufficient number of students enrolling on the course.

## Advanced Entry to the BSc in Good Manufacturing Practice & Technology

---

The entry requirements for the BSc in Good Manufacturing Practice & Technology at CIT are the Higher Certificate in Science in Good Manufacturing Practice & Technology or equivalent.

A combination of the following three requirements will be accepted by the Institute as the equivalent of the Higher Certificate in Science in Good Manufacturing Practice & Technology for advanced entry to the BSc in Good Manufacturing Practice & Technology

1. Leaving Certificate, 5 Ds at lower level, including English or Irish and Mathematics.
2. 5 years or more relevant work experience in the pharmaceutical, biopharmaceutical, medical device or food industry. To prove the relevance of their application the candidate will need to show that they are familiar with the topics covered in the following modules of the Higher Certificate:
  - a. MANU6011 Calibration Science
  - b. STAT6008 Lean Manufacturing
  - c. MANU6013 Manufacturing Technology
  - d. BIOM6004 Contamination Control
  - e. BIOM6003 Cleanroom Management
3. Details of these modules can be found on the CIT website: <http://courses.cit.ie/index.cfm/page/course/courseId/329>
4. The following modules of the Higher Cert in Science in Good Manufacturing Practice and Technology or their equivalent:
  - MTMT6021GMP1/QA
  - INFO6017 Information Technology
  - CHEI6001 Fundamentals of Chemistry
  - MATH6009 Maths for Manufacturing
  - BIOL6014 Mammalian Cell Biology
  - CHEO6002 Organic & Inorganic Chemistry

These modules will be offered at night this academic year (Sept 2014 to June 2015) in Cork Institute of Technology.

## ENQUIRIES

Pat O'Shaughnessy • T: 021 433 5944 • E: [pat.oshaughnessy@cit.ie](mailto:pat.oshaughnessy@cit.ie)

### Delivery

One night per week for one academic year.

### Entry Requirements

Leaving Certificate or relevant craft qualification.

### Course Content

The course will consist of TWO modules in motor dealer organisation.

The modules will address the issues covering site selection and setup of a motor dealership. It will also cover the legal, administrative, warranty, personnel and safety matters encountered in practice by service advisors and service managers.

#### 1. Motor Dealer Organisation AUTO7001

On successful completion of this module the learner will be able to

- Discuss the administration and organisation of the various departments in a motor dealership.
- Describe workshop loading, workshop progress and workshop productivity.
- Detail accident procedures in relation to crash repairs and prepare estimates for these according to approved repairer scheme regulations.
- Explain and identify good and poor workshop and stores layout and discuss the.
- Explain the main duties of the aftersales staff in the automotive business, describe different types of bonus schemes.
- Discuss the purpose of Block Exemption Regulations in the motor industry. Have a good knowledge of health and safety act in relation to the motor trade.

#### 2. Franchise Dealer Operations MECH 7020

On successful completion of this module the learner will be able to

- Discuss the rules associated with data protection and their relevance to departmental activities within the Motor Trade.
- Explain the obligations placed on the operators of vehicle franchised networks by Block Exemption regulations.
- Describe the obligations placed on the franchise dealer management by current legislation and outline the responsibilities for the control and handling of hazardous material, waste management.
- Comprehend how the various departments in the Motor Industry can be operated efficiently.
- Discuss the various types of insurance cover required within the Motor Industry.

### Award

### ACCS Mode

**Cycle A:** Modules will be offered on three evenings per week. The modules listed are subject to change.

**Note:** This Level 6 programme is currently delivered over three academic years. Selected stage 1 and stage 2 modules are offered each year. Each year consists of two semesters: the first semester runs from September to January; and the second semester runs from February to June.

### Aim

This programme of 120 credits is designed to enable skilled craftspersons working in industry to upgrade their qualifications and skills. Applications are also invited from candidates who wish to take specific modules from the programme.

### Minimum Entry Requirements

1. Leaving Certificate with grade D3 at Ordinary or Higher level in five subjects, including Mathematics and English or Irish;
2. Mature and other special category applicants will be admitted according to CIT regulations for part-time enrolment;
3. Applicants holding a relevant FETAC Advanced Certificate, National Craft Certificate or equivalent, other relevant Level 6 (or higher) qualifications or having relevant industrial experience will be eligible for exemptions from certain modules.

### Course Content

#### Cycle A Modules

- Introduction to Programming
- Process Instrumentation 1
- Graphics & Engineering Design
- Sensors & Systems
- Practical Computer Technology
- Mathematics for Science 2.1
- Technological Mathematics 2

#### Cycle B Modules

- Mathematics for Science 2.2
- Process Instrumentation 2
- Industrial Automation 1
- Instrument Calibration
- Introduction to Physics
- Digital Instrumentation
- Technological Mathematics 2

#### Cycle C Modules

- Mathematics for Science 2.1
- Essential Mathematical Skills
- Introduction to Chemical and Electrical Systems
- Introduction to Process Control
- Communications & Safety
- Industrial Automation Project
- Instrument Measurement
- Fundamental Physics

**Note:** Exemptions from certain modules on this programme are automatically granted to holders of FETAC Advanced Certificates or equivalent, in a relevant craft and are not listed above. Other applicants may have to take additional modules.

### Award

Single module certification within the Higher Certificate in Science in Industrial Measurement & Control. The major award of the Higher Certificate in Science in Industrial Measurement & Control will be received by students who successfully complete the course programme.

### Further Studies at CIT

Students who pass the Higher Certificate in Science in Industrial Measurement & Control may proceed onto the Level 7 Bachelor of Science in Applied Physics and Instrumentation, subject to availability of places.

### ACCS Mode

**Cycle A:** Modules will be offered on three evenings per week.

**Note:** This Level 7 programme is delivered over two academic years. In the academic year 2014/2015 Cycle A modules are offered. Each year consists of two semesters: the first semester runs from September to January; and the second semester runs from February to June.

### Aim

This programme of 60 credits provides advanced specialist education in measurement and control technology that broadens the perspective of the student and helps to develop design capabilities in instrumentation. The course also helps to consolidate the basic foundation in the discipline for students wishing to pursue the Bachelor of Science (Honours) in Instrument Engineering (please see below for information on this title change).

### Minimum Entry Requirements

1. Higher Certificate in Science in Applied Physics and Instrumentation or the Higher Certificate in Science in Industrial Measurement & Control;
2. Holders of other relevant Level 6 qualifications, including City & Guilds Course No. 275, will also be considered on an individual case basis;
3. Applicants holding relevant Level 7 (or higher) qualifications or having relevant industrial experience may be eligible for exemptions from certain modules.

### Course Content

#### Cycle A Modules

- Mathematics for Science 3.1
- Digital Systems & Interfacing
- Process Control & Electrical
- Industrial Automation & SCADA
- Quality Systems
- Project Part A

#### Cycle B Modules

- Programming for Measurement
- Process Engineering
- Industrial Communications & Networks
- Telemetry
- Project Part B (10 credits)

#### Awards

Single module certification within the Bachelor of Science in Applied Physics & Instrumentation.

The major award of the Bachelor of Science in Applied Physics & Instrumentation will be received by students who successfully complete the course programme.

#### Validating Body

Quality and Qualifications Ireland (QQI)

This degree is recognised by the Institute of Physics. Graduates of recognised degrees qualify for Associate Membership upon graduation and may apply for full Membership after appropriate work experience.

#### Further Studies at CIT

To progress from the Bachelor of Science in Applied Physics & Instrumentation to the Bachelor of Science (Honours) in Instrument Engineering, candidates must achieve a pass with at least an average mark of 50%. Progression is subject to the availability of places.

# Bachelor of Science (Honours) in Instrument Engineering (Level 8)

## COURSE CODE

CR\_SINEN\_8

## APPLICATION

Apply online at <http://www.cit.ie/course/CRESSBB8>

## COURSE FEE

€300 per 5 credit module (inc. exam fee)

## ENQUIRIES

James Barrett • T: 021 433 5870 • E: [james.barrett@cit.ie](mailto:james.barrett@cit.ie)

### IMPORTANT CHANGE OF AWARD TITLE

With effect from September 2012, the part-time course leading to the Bachelor of Science (Honours) in Applied Physics and Instrumentation award changed to the Bachelor of Science (Honours) in Instrument Engineering award. New students will receive the latter award on satisfactory completion of the programme. Pre-September 2012 students may change their registration to the new award or remain with the old award. The programme content is largely unaltered.

### ACCS Mode

**Cycle A:** Modules will be offered on three evenings per week.

**Note:** This Level 8 course is delivered over two academic years. In the academic year 2014/2015 Cycle A modules are offered. Each year consists of two semesters: the first semester runs from September to January; and the second semester runs from February to June.

### Aim

This programme of 60 credits aims to meet the requirements of industry for professionally qualified personnel in instrumentation and to satisfy the demands of students for a qualification in Instrument Engineering to the highest undergraduate level.

### Minimum Entry Requirements

1. Bachelor of Science in Applied Physics and Instrumentation with a minimum average mark of 50%;
2. Holders of other Level 7 qualifications in a relevant Science or Engineering discipline with a minimum average mark of 50%;
3. Applicants holding relevant Level 8 qualifications or having relevant industrial experience may be eligible for exemptions from certain modules.

### Course Content

#### Cycle A Modules

- Engineering Project Management
- Labview for Instrumentation
- Process Analytical Technologies
- Instrument System Design
- Project (Research Phase or Implementation phase as appropriate) (10 credits)

#### Cycle B Modules

- Advanced Programming for Measurement
- Advanced Signal Processing
- Advanced Industrial Automation
- Advanced Process Control
- Statistics and Quality Methods
- Project (Research Phase or Implementation phase as appropriate) (10 credits)

### Awards

Bachelor of Science (Honours) in Instrument Engineering (Single module certification is possible)

### Validating Body

Quality and Qualifications Ireland (QQI)  
This degree is recognised by the Institute of Physics. Graduates of recognised degrees qualify for Associate Membership upon graduation and may apply for full Membership after appropriate work experience.

### Further Studies at CIT

Graduates are eligible to apply for a postgraduate degree at Masters (MSc) or Doctoral (PhD) levels

## ENQUIRIES

Dr Roy Sleator • T: 021 433 5405 • E: [roy.sleator@cit.ie](mailto:roy.sleator@cit.ie)

The Taught MSc Degree in Computational Biology is a one year (3 semester) full-time course open to application from graduates with either a science or computing background.

### Entry Requirements

1. Entry to the MSc in Computational Biology will normally require a minimum of a second-class grade II honours degree (level 8 or higher) in Science, Computing or a related area (e.g. Engineering, Maths etc.).
2. Candidates with relevant experience will be considered for places through approved processes for recognition of prior learning (RPL), visit [www.cit.ie/rpl](http://www.cit.ie/rpl).

### Course Content

The programme will consist of lectures, a substantial research project which will be presented as a dissertation, tutorials, online peer assisted learning, case studies, data analysis and assignments. A significant portion of case studies, data analysis and assignments will be carried out by the student in his/her own time in accordance with directed learning guidelines provided.

Students who successfully complete the taught elements of the course (usually concluded in the first two semesters) will be awarded a Postgraduate Diploma in Computational Biology. The MSc Degree in Computational Biology is awarded to successful candidates who complete the coursework examinations and dissertation aspects of the programme.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Mandatory

- Structural Biology
- Databases and Ontologies
- IT Systems Engineering and Management for Biosciences
- Biostatistics

### Electives

- Application Development for Biosciences 1 and 2
- Bioinformatics 1 and 2
- Molecular Biology for Computer Scientists 1 and 2
- Systems Biology

### Research Project

### Commencement Date

15th September 2014

### Closing Date for Application

Applications for places must be made online between 1/5/2014 and 12/9/2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie).

## ENQUIRIES

Michael Healy • T: 021 433 5407 • E: [michael.healy@cit.ie](mailto:michael.healy@cit.ie)

The Taught MSc Degree in Biomedical Science is a part-time course aimed at Biomedical Science and Life Science graduates. It is particularly suitable for Medical Scientists working in a clinical setting, but is equally relevant to individuals interested in any area of Medical Diagnostics for example in the Biotech or Biopharmaceutical sectors.

### Entry Requirements

1. Entry to the MSc in Biomedical Science will require a minimum of a second-class grade II honours degree in the BSc in Biomedical Science.
2. Applications will also be considered from candidates with other relevant Level 8 qualifications in disciplines such as Biochemistry, Dentistry, Microbiology and Medicine, together with having a minimum of three years proven, relevant experience.
3. Candidates with substantial proven and relevant biomedical experience will be considered for places through approved processes for recognition of prior learning (RPL), visit [www.cit.ie/rpl](http://www.cit.ie/rpl).
4. Delivery of the programme is designed to facilitate participation by students in current employment.

### Course Content

The programme will consist of lectures, a substantial research project which will be presented as a dissertation, tutorials, and case studies, data analysis and assignments. A significant portion of case studies, data analysis and assignments will be carried out by the student in his/her own time in accordance with directed learning guidelines provided. The research project will usually be carried in the work place of the candidate.

The MSc Degree in Biomedical Science is awarded to successful candidates who complete the coursework examinations and dissertation aspects of the programme.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Mandatory

- Molecular & Cellular Biology
- Research Methods
- Molecular Basis of Disease
- Laboratory Management

### Electives

- Diagnostic and public health microbiology
- Bioinformatics
- Advanced Transfusion Science
- Advanced Clinical and Physiological Biochemistry
- Advanced Immunology
- Advanced Cellular Pathology
- Advanced Micro Pathogenesis
- Advanced Haematology
- Endocrinology and Metabolic Disease

## Special Purpose Award (Level 6)

### COURSE CODE

**CR\_SQUAS\_6**

### APPLICATION

Apply online at <http://www.cit.ie/course/CRSQUAS6>

### COURSE FEE

€400 per module, i.e. €800 overall (inc. registration exam fee)

### ENQUIRIES

Mary Phelan • T: 021 433 5870 • E: [mary.phelan@cit.ie](mailto:mary.phelan@cit.ie) or  
Dr Mary McCarthy • T: 021 433 5878 • E: [mary.mmccarthy@cit.ie](mailto:mary.mmccarthy@cit.ie)

**Monday or Tuesday or Wednesday, 7pm - 10pm  
(Usually Monday)**

### Entry Requirements

Applicants should normally have a technician level qualification, or work experience in the quality area together with an appropriate educational background. Other applicants will be considered on an individual basis.

This is designed as a first course in quality assurance and control. Graduates will have the ability to apply and maintain quality assurance/quality control systems in an industrial environment to support delivery of a quality product or service. The course emphasises everyday practical aspects concerning the use of basic quality techniques in industry, and will be useful both to those who require some basic methodology of quality, and those who hope to progress within the world of quality management.

### Course Content

#### Module 1

- Fundamentals of Quality Assurance
- The function of quality assurance in manufacturing and service
- The role of quality control
- Human aspects of quality
- Regulatory requirements
- Documentation for quality assurance
- Calibration concepts

#### Module 2

- Introduction to Quality Management, Validation, and Statistical Quality Control
- Quality costing methods
- Sampling inspection
- Design and use of quality control charts
- Understanding variability in processes
- Validation: theory, role, and application
- Managing quality assurance systems

### Duration

One evening per week for one academic year. Module 1 is delivered and examined during semester 1, and module 2 is then completed during semester 2.

### Award

Certificate in Quality Assurance – Special Purpose Award (Level 6 on the National Framework of Qualifications).

### Awarding Body

Cork Institute of Technology.

### Commencement Date

15th September 2014

### Closing Date for Application

Applications for places must be made online between 1/5/2014 and 31/8/2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie).

# Diploma in Quality Management

## Part 1

### COURSE CODE

**CR\_SQMAN\_7\_Y1**

### APPLICATION

Apply online at <http://www.cit.ie/course/CRSQMAN7Y1>

### COURSE FEE

€700 (payable to CIT)  
Exam fee: €140 (payable to the external examining body EIQA)

### ENQUIRIES

Mary Phelan • T: 021 433 5870 • E: [mary.phelan@cit.ie](mailto:mary.phelan@cit.ie) or  
Dr Mary McCarthy • T: 021 433 5878 • E: [mary.mmccarthy@cit.ie](mailto:mary.mmccarthy@cit.ie)

**Monday or Tuesday or Wednesday, 7pm - 10pm  
(Usually Tuesday)**

### Entry Requirements

Applicants are required to have the CIT Certificate in Quality Assurance Special Purpose Award or an equivalent qualification. Experience in quality management will be taken into account. Applications on an "equivalent" basis are considered on an individual basis.

As coursework on this programme involves a significant quantity of both oral and written reports, examinations, and presentations, applicants must be competent in spoken and written English.

### Course Content

- Setting up a Quality System
- The Elements of a Quality System
- Basic Management Theory
- Auditing
- Problem Solving and Quality Improvement
- Product and Service Quality
- Quality Costs
- Implementing TQM and Documentation Control

The format of this course is that typical of a management course i.e. it involves discussion and background reading; essay type answers are required in the written examination and the course is partially examined by project work.

### Duration

One evening per week for one academic year.

### Award

Diploma in Quality Management – Part 1.

### Awarding Body

Excellence Ireland Quality Association (EIQA)

### Commencement Date

16th September 2014

### Closing Date for Application

Applications for places must be made online between 1/5/2014 and 31/8/2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie)

# Diploma in Quality Management

## Part 2

### COURSE CODE

**CR\_SQMAN\_7\_Y2**

### APPLICATION

Apply online at <http://www.cit.ie/course/CRSQMAN7Y2>

### COURSE FEE

€800 (payable to CIT) Exam fee: €140 (payable to the external examining body EIQA)

### ENQUIRIES

Mary Phelan • T: 021 433 5870 • E: [mary.phelan@cit.ie](mailto:mary.phelan@cit.ie) or  
Dr Mary McCarthy • T: 021 433 5878 • E: [mary.mmccarthy@cit.ie](mailto:mary.mmccarthy@cit.ie)

**Monday or Tuesday or Wednesday, 7pm - 10pm  
(Usually Wednesday)**

### Commencement Date

24th September 2014

### Entry Requirements

Applicants are required to have the Diploma in Quality Management – Part 1 (or the Certificate in Quality Management, which was the previous title of the course).

As coursework on this programme involves a significant quantity of both oral and written reports, examinations, and presentations, applicants must be competent in spoken and written English.

### Closing Date for Application

Applications for places must be made online between 1/5/2014 and 31/8/2014, using the “Apply Online” link on the “Apply” tab of the course information page on [www.cit.ie](http://www.cit.ie).

### Course Content

- Introduction to Total Quality
- Quality Management Philosophies
- Managing for Quality
- Review of Quality Standards
- Quality Awards
- Leadership
- Human Resource Development
- Teamwork
- Process Management
- Strategic Information Management
- Developments in Total Quality

The format of this course is typical of a management course involving participation, discussion and background reading. The project constitutes a very important part of the year's work and marks are awarded accordingly.

### Duration

One evening per week for one academic year.

### Award

Diploma in Quality Management – Part 2.

### Awarding Body

Excellence Ireland Quality Association (EIQA).

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKCLDC9>

## COURSE FEE

€10,800 in total. Three instalments of €3,600 are possible

## ENQUIRIES

Dr Donna O'Shea • E: [cloud@cit.ie](mailto:cloud@cit.ie)

**This course is available online only. All classes are delivered over the internet and all practical work is completed using CIT's cloud infrastructure.**

### Duration

18 months (3 semesters) is the minimum duration

### Entry Requirements

A Level 8 degree in Computing or in a cognate discipline.  
Industrial experience in IT is desirable.

### Course Content

The programme aims to provide the graduate with the advanced conceptual understanding, detailed factual knowledge, and specialist technical skills that are required for success in Cloud Computing. Graduates of this programme will be well equipped to meet the challenges associated with the major changes currently occurring in the IT industry. In this context the programme covers both theoretical background and practical design considerations.

### Modules

#### Mandatory

- Cloud Strategy Planning & Management
- Computing Research & Practice
- Managing Virtual Environments
- Data Centre Networking
- Cloud Storage Infrastructures
- Cloud Security
- Research Project

#### Elective (choose 2)

- Scripting for System Administration
- App. Development Frameworks
- Data Analytics
- Software Engineering

### Award

Master of Science in Cloud Computing (Level 9 on the National Framework of Qualifications).

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 22nd August 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# Master of Science in Software Development (Level 9)

## COURSE CODE

CR\_KSDEV\_9

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKSDEV9>

## COURSE FEE

€420 per 5 credit module (inc. exam fee) €840 for the Research Project

## ENQUIRIES

Dr John Creagh • T: 021 433 5113 • E: [it@cit.ie](mailto:it@cit.ie)

In part-time mode, a minimum of two modules will be offered each semester, 6pm-10pm two evenings per week, with Saturday mornings available for laboratories if and when required.

### Entry Requirements

Applicants will normally have a primary honours degree with first or second class honours or its equivalent, in a computing discipline. Other applicants may be accepted if they have at least four years experience in Software Development and can satisfy CIT that they possess an adequate background for the programme.

Applicants may be interviewed by an admission panel. Particular attention will be paid to the applicants' software development experience and motivation, as well as their formal knowledge of object oriented technologies. Applicants may be directed to undertake bridging studies before commencing the programme. The interview will also be used to explore the applicant's CPD plan.

### Aim

The programme is designed to provide the postgraduate student with the advanced theoretical knowledge and skills necessary for their continuing professional development (CPD) in the software industry. The main focus is in the area of software development with particular emphasis on current software design principles and methods and software quality.

### Course Content

The programme requires the graduate to take four mandatory and four elective taught modules. The Research Project, which may include the design and implementation of a high quality nontrivial software application, is also mandatory. The Project normally commences in February and assessed in September. For details, visit <http://modules.cit.ie>

### Mandatory Modules

- Software Engineering
- Software Quality
- Advanced Object Technology
- Computing Research & Practice
- Research Project

### Elective Modules

- Web-Based Systems
- Computer Simulation and Modelling
- Artificial Intelligence
- Software Security
- Real Time Systems
- Parallel Computing
- Human-Computer Interaction
- Software Development for the Cloud

The modules will be taught by CIT staff, experts from industry and other educational institutions. Modules may be substituted at the discretion of CIT subject to approval by the validating authority.

### Award

Master of Science in Software Development (Level 9 on the National Framework of Qualifications).  
(Single module certification is possible).

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 5th August 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# Master of Science in Networking and Security (Level 9)

## COURSE CODE

**CR\_KNSEC\_9**

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKNSEC9>

## COURSE FEE

€420 per 5 credit module (inc. exam fee) • €840 for a 10 credit Module (inc. exam fee) • €840 for the 30 credit Research Project

## ENQUIRIES

Vincent Ryan • T: 021 433 5160 • E: [it@cit.ie](mailto:it@cit.ie)

In part-time mode, students attend up to 2 -3 evenings per week, depending on the modules selected.

### Entry Requirements

An honours primary degree in a Computing Discipline or equivalent. Applicants must have a good knowledge of Computer Networking basics.

### Aim

This 90-credit taught Masters is designed to provide the graduate student with the advanced theoretical knowledge and skills in the interrelated areas of Computer Networking and Computer Security.

### Module Information

<http://modules.cit.ie>

CIT has developed this website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams. The number of credits associated with the module is shown in brackets beside the module name.

### Mandatory

- Network Security & Penetration Testing (10)
- Security Management, Law & Compliance (10)
- Advanced Networking (10)
- Cryptography (5)
- Scripting for System Administrators (5)
- Enterprise Network Management (5)
- Computing Research & Practice (5)
- Network & Security Research Project (30)

### Electives

Students will take 10 credits from the following list of electives:

- Malware Analysis and Internet Investigations (10)
- Computer Forensics (10)
- Cloud Security (5)
- Software Security (5)
- Network Design (5)
- Mobile Networking (5)
- Data Centre Networking (5)

### Duration

One year full-time (12 calendar months) or two years part-time.

### Award

Master of Science in Networking and Security (Level 9 on the National Framework of Qualifications).

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 19th September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# Bachelor of Science (Honours) in IT Management (Level 8)

## COURSE CODE

CR\_KCSME\_8

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKCSME8>

## COURSE FEE

€365 per 5 credit module (inc. exam fee)

## ENQUIRIES

Department Secretary T: 021 433 5160 E: [it@cit.ie](mailto:it@cit.ie)

## Entry Requirements

To be eligible to undertake the programme or a single module you must hold a Bachelor of Science in Information Technology Support or equivalent. The Department operates a policy of recognising prior learning (RPL) in compliance with the overall Institute policy of RPL [www.cit.ie/rpl](http://www.cit.ie/rpl)

This programme is designed as a follow-on programme from the BSc in Information Technology Support. The programme is designed to provide the student with the knowledge needed for the planning, implementation and management of computing resources and service delivery. A student must take 9 modules, each of 5 credits, and the 15 credit project to complete the programme.

## Course Content

The modules will be offered on a cyclical basis over two academic years.

### Among the areas you would be required to study are:

- Strategic IT Planning
- Strategic IT Management
- IT Service Design
- IT Service Management
- IT Security
- Project

### Elective areas include:

- Management
- Business Intelligence

## Module Information

<http://modules.cit.ie>

CIT has developed this website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

## Further Studies

Graduates from the programme may apply for the taught MSc in Networking or the taught MSc in Networking & Security. Graduates may also apply for a research based MSc or PhD.

## Award

Bachelor of Science (Honours) in IT Management (Level 8 on the National Framework of Qualifications).  
(Single module certification possible).

## Closing Date for Application

Completed applications must be made online with CIT before 5pm on 5th September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# Bachelor of Science (Honours) in Cloud Computing (Level 8)

## COURSE CODE

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKCLDC8>

## COURSE FEE

€9,600 in total. Three instalments of €3,200 are possible

## ENQUIRIES

Dr Donna O'Shea • E: [cloud@cit.ie](mailto:cloud@cit.ie)

**This course is available online only. All classes are delivered over the internet and all practical work is completed using CIT's cloud infrastructure.**

### Duration

18 months (3 semesters) is a minimum duration.

### Entry Requirements

To be eligible to undertake the programme applicants must hold a Level 7 ordinary degree in Computing or in a cognate discipline with the necessary experiential or certified learning.

### Course Content

This one year add-on honours Bachelor of Science in Cloud Computing degree aims to develop students both technically and personally and produce broad based graduates of high academic and practical standards to match the needs of both the Irish and international IT industry. An emphasis is placed on cloud computing throughout and this focus is supported by the addition of modules in networking, virtualisation, storage, security, application development, data mining and individual multidisciplinary projects. This combination of modules along with practical and laboratory workshops provides graduates with an ideal education that will enable them to seek entry to a wide variety of roles and levels of responsibility within the workforce.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

### Modules

#### Mandatory:

- Cloud Architectures
- Cloud Application Development
- Internet & Network Services
- Converged Networks
- Data Centre Virtualisation
- Project - Research Phase
- Business Intelligence
- Enterprise Storage Systems
- Network Security
- Cloud Computing with Python
- Project - Implementation Phase

#### Elective:

- Any two 5 credit modules of the student's choice

### Further Studies

Graduates from the programme may apply for the taught MSc in Cloud Computing. Graduates may also apply to study for a research based MSc or PhD.

### Award

Bachelor of Science (Honours) in Cloud Computing (Level 8 on the National Framework of Qualifications).  
(Single module certification possible).

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 22nd August 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

Apply online at <http://www.cit.ie/course/CRKCOME7>

## COURSE FEE

€300 per 5 credit module (includes exam fee)

## ENQUIRIES

Department Secretary • T: 021 433 5160 • E: [it@cit.ie](mailto:it@cit.ie)

**This programme is designed as a follow on programme from the Higher Certificate in Science in Computing.**

### Entry Requirements

To be eligible to undertake the programme or a single module you must hold a Higher Certificate in Science in Computing or equivalent. The Department operates a policy of recognising prior learning (RPL) in compliance with the overall Institute policy of RPL. For details, visit [www.cit.ie/rpl](http://www.cit.ie/rpl)

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

### Course Content

The modules will be offered on a cyclical basis over two academic years.

#### Among the areas you would be required to study are:

- Programming
- Analysis and Design
- Systems Administration
- Web based System development
- Business Management
- Project

### Further Studies

Graduates from the programme may apply for the BSc (Honours) in IT Management.

### Award

Bachelor of Science in Computing (Level 7 on the National Framework of Qualifications).  
(Single module certification possible).

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 5th September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# Higher Certificate in Science in Computing (Level 6)

## COURSE CODE

CR\_KCOME\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKCOME6>

## COURSE FEE

€200 per 5 credit module (inc. exam fee)

## ENQUIRIES

Department Secretary • T: 021 433 5160 • E: [it@cit.ie](mailto:it@cit.ie)

This programme is designed as a follow on programme from the Higher Certificate in Science in Computing.

### Entry Requirements

**Non-Standard Applicants:** Mature Students, FETAC Level 5, Second Chance etc., are particularly welcome.

**Standard Applicants:** Leaving Certificate grade D3 at Ordinary or Higher Level in 5 subjects including Mathematics, and either English or Irish.

### Module Information

<http://modules.cit.ie>

CIT has developed this website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

### Duration

At least six semesters, depending on the number of modules taken per semester.

### Course Content

**Among the areas you would be required to study are:**

- Programming
- Computer Architecture
- Computer Networks
- Database Systems
- Operating Systems
- Mathematics & Statistics
- Web Development

### Progression

On successful completion of this programme there are progression opportunities open to further Higher Education Qualifications at Ordinary Degree and Honours Degree Level.

### Award

Higher Certificate in Science in Computing (Level 7 on the National Framework of Qualifications). (Single module certification possible).

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 15th August 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

Late applications may be considered should any places become available.

# CISCO Network Academy Programme

CISCO is the major multinational company that produces routers, switches and software that power the Internet and global telecommunications. As such Cisco Certification is recognised worldwide. Cisco has a certification programme for engineers, which they independently verify.

The Cisco Network Academy in CIT trains and prepares students with tuition in a classroom surrounding, and hands-on practical training on switches and routers in our two fully equipped networking laboratories. CIT provides all students with remote access to its Netlab training pods, so that the student can practice their practical techniques while working from home or at work. CIT also provides, on request, group courses by Cisco certified trainers leading to participants being able to sit the CCNA (Cisco Certified Network Associate) examination.

This qualification is part of the Cisco hierarchy of professional qualification (<http://www.cisco.com/go/certification>).

## CISCO Certified Network Associate (Level 6)

### COURSE CODE

CR\_KCNAS\_6

### APPLICATION

Apply online at <http://www.cit.ie/course/CRKCNAS6>

### COURSE FEE

€2,250 (excludes VUE exam fee)

### ENQUIRIES

E: [cisco@cit.ie](mailto:cisco@cit.ie) • W: <http://cisco.cit.ie>

Lectures every Wednesday night. Labs will take place either on Thursday/Friday night or Saturday morning.

### Aim

This programme aims to offer the student the training necessary, in both theory and hands-on practical work, to achieve the Cisco qualification of Network Associate. This programme, which consists of four modules, is designed to teach the objectives of the CCNA qualification, from a basic overview level of networking in module 1 to an advanced discussion of prescribed networking topics in modules 3 and 4, e.g. ACLs, Frame Relay, VLANs, etc. On completion of module 4, the student will have the requisite knowledge to sit the VUE test (#640-802), which awards the CCNA qualification.

### Module Information

#### Module 1 - Network Fundamentals

This module introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the OSI and TCP layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers.

The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. Labs use a "model Internet" to allow students to analyse real data without affecting production networks. Packet Tracer (PT) activities help students analyse protocol and network operation and build small networks in a simulated environment. At the end of the module, students build simple LAN topologies

## CISCO

### Certificate Network Associate (Level 6) contd.

---

by applying basic principles of cabling; performing basic configurations of network devices, including routers and switches; and implementing IP addressing schemes.

#### **Module 2 - Routing Protocols and Concepts**

This module describes the architecture, components, and operation of routers, and explains the principles of routing and routing protocols. Students analyse, configure, verify, and troubleshoot the primary routing protocols RIPv1, RIPv2, EIGRP, and OSPF. By the end of this module, students will be able to recognise and correct common routing issues and problems.

The Routing Protocols and Concepts module also presents configuration, implementation, and troubleshooting labs. Packet Tracer (PT) activities reinforce new concepts, and allow students to model and analyse routing processes that may be difficult to visualise or understand.

#### **Module 3 - LAN Switching and Wireless**

This module helps students develop an in depth understanding of how switches operate and are implemented in a LAN environment for small and large networks. Beginning with a foundational overview of Ethernet, this module provides detailed explanations of LAN switch operation, VLAN implementation, Rapid Spanning Tree Protocol (RSTP), VLAN Trunking Protocol (VTP), Inter-VLAN routing, and wireless network operations. Students analyse, configure, verify, and troubleshoot VLANs, RSTP, VTP, and wireless networks. Campus network design and Layer 3 switching concepts are introduced.

#### **Module 4 - Accessing the WAN**

This module explains the principles of traffic control and access control lists (ACLs) and provides an overview of the services and protocols at the data link layer for wide-area access. Students learn about user access technologies and devices and discover how to implement and configure Point-to-Point Protocol (PPP), Point-to-Point Protocol over Ethernet (PPPoE), DSL, and Frame Relay. WAN security concepts, tunnelling, and VPN basics are introduced. The module concludes with a discussion of the special network services required by converged applications and an introduction to quality of service (QoS).

#### **Entry Requirements**

None, but a basic knowledge of computer networking would be an advantage.

#### **Duration**

Mid-September 2014 to mid-June 2015

#### **Validating Body**

CISCO

#### **Closing Date for Application**

Completed applications must be made online with CIT by early September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# CompTIA

Computing Technology Industry Association has been dedicated to advancing the growth of the Information Technology (IT) industry and those working in it. With more than 19,000 members in 89 countries, CompTIA is the leading Global IT Trade Association with influence in all areas of the IT industry worldwide.

CIT is the first CompTIA E2C (Education to Careers Centre) to be set up in Ireland and, with its close relationship with Cisco Systems Networking Academy, delivers the Cisco sponsored IT Essentials 1 Programme which enable students to gain the CompTIA A+ and Server + Accreditations. Other accreditations that may be attained from CompTIA are CompTIA Network +, Security +, INet +, and Linux+.

## CISCO IT Essentials 1/CompTIA A+ (Level 6)

### COURSE CODE

**CR\_KHOST\_6**

### APPLICATION

Apply online at <http://www.cit.ie/course/CRKHOST6>

### COURSE FEE

€1,350 (includes exam fees)

### ENQUIRIES

E: [cisco@cit.ie](mailto:cisco@cit.ie) • W: <http://cisco.cit.ie>

Two evenings per week: Monday 6.30pm - 9.30pm and Wednesday 6.30pm - 9.30pm

### Core Hardware and Operating Systems Technologies

The IT Essentials 1 Programme is a curriculum sponsored by Hewlett Packard delivered through the Cisco Networking Academy Programme. It maps to CompTIA's A+ Certification.

### Aim

IT Essentials 1 /COMP TIA A+ will prepare students for both Examinations which make up COMPTIA A+ Certification:

- A+ Essentials;
- A+ 220 – 701, 702.

Students who successfully complete this programme will also receive Cisco IT Essentials 1 Certificate. On completion, the student has the requisite knowledge to sit the COMPTIA A+ Pearson VUE Examinations which are necessary to achieve Certification.

### Modules

- Information Technology Basics • Computer Assembly
- Operating System Fundamentals • Windows 7/NT/2000/XP Operating Systems • Networking Fundamentals • Printers/Printing • Multimedia • Maintenance and Upgrades • Troubleshooting

Achieving A+ Certification will illustrate that you have attained a broad base of knowledge and competency in Core Hardware and Operating Systems Technologies.

## CISCO IT Essentials 1/CompTIA A+ (Level 6) contd.

---

### Industry Support for CompTIA A+®

The technology community identifies CompTIA A+ certification as the perfect entry point into an IT career. Technology and certification companies including Microsoft, Hewlett-Packard, Cisco, Novell and Certiport recognise CompTIA A+ Certification as part of their certification programmes. Top technology companies including CompuCom, CompUSA and IBM have also made CompTIA A+ certification mandatory for their service technicians.

Additionally, more than 100 companies now require CompTIA A+ certification as a prerequisite to qualify for their corporate and vendor-specific training programmes.

None, but is best suited to someone in IT Support or who wants to enter the field of Information Technology.

### Duration

September 2014 to December 2014 (approximately 12 weeks).

### Validating Body

Computer Technology Industry Association

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 5th September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# CompTIA Network+ (Level 6)

## COURSE CODE

CR\_KINET\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKINET6>

## COURSE FEE

€1,200 (includes exam fees)

## ENQUIRIES

Department Secretary • T: 021 433 5160 • E: [it@cit.ie](mailto:it@cit.ie) • E: [pat.mccarthy@cit.ie](mailto:pat.mccarthy@cit.ie)

Two evenings per week: Monday 6.30pm - 9.30pm and Wednesday 6.30pm - 9.30pm

### Networking Principals & Networking Technologies

This programme is designed for PC users who wish to pursue a career in Networking Support or Administration. The programme is an excellent primer in networks and will provide the student with a good level of knowledge so that they may pursue other accreditations such as Certified Cisco Network Associate (CCNA) and Microsoft Certified Professional.

The Network+ Certification programme will give you a good understanding of how network connectivity devices function including network cards, hubs, bridges, routers, gateways and wireless devices.

The programme also addresses TCP/IP and its utilities, covering such topics as IP addressing, subnetting, routing and DHCP. Network maintenance security and troubleshooting are also discussed in detail.

### Resources & Materials

All learning resources required to successfully complete this programme are included. Students are also provided with as much personal tuition and support from our experienced Instructors as they require throughout the programme.

### Entry Requirements

None, but is best suited to someone in IT Support who wants to enter the field of Networking.

### Aim

CompTIA® Network+ Certification will prepare students for the CompTIA Network+ Certification Exam. On completion, the student has the requisite knowledge to sit the COMPTIA Network+ Exam which is necessary to achieve Certification.

### Modules

• Networking Design & Concepts • Network Functions  
• Network Installation • Wireless Communications • TCP/IP and WAN Technologies • Network Security

### Programme Objectives

- Understand the functions of various network connectivity devices.
- Implement a Network installation and use network applications.
- Work with client/server and multi-vendor environments.
- Examine the TCP/IP suite, WAN technologies and remote connectivity.
- Install and support Windows NT and establish network printing.
- Learn how to maintain network security and troubleshoot Industry.

### Support for CompTIA Network+

The technology community identifies CompTIA Network+ certification as the perfect entry point into a Networking career. Technology and certification companies including Microsoft, Hewlett-Packard, Cisco, and Certiport recognise CompTIA Network+ Certification as part of their certification programmes.

### Duration

February 2015 to May 2015 (approximately 12 weeks).

### Validating Body

Computer Technology Industry Association

### Closing Date for Application

Completed applications must be made online with CIT by the end of January 2015, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in February 2015.

# CompTIA Security+ (Level 6)

CR\_KSECY\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKSECY6>

## COURSE FEE

€1,200 (includes exam fees)

## ENQUIRIES

Department Secretary • T: 021 433 5160 • E: [it@cit.ie](mailto:it@cit.ie) • E: [pat.mccarthy@cit.ie](mailto:pat.mccarthy@cit.ie)

Two evenings per week: Tuesday 6.30pm - 9.30pm and

Thursday 6.30pm - 9.30pm Networking Principals & Networking Technologies

This programme is designed for PC users who wish to add knowledge of network and server security to their career in IT, be it in Networking Support or System Administration. The programme will provide the student with a good level of knowledge of the fundamentals of security and provide them with an entry level certification in Security, so that they may pursue advanced qualifications in this area such as CISSP or CSSP.

The CompTIA Security+ certification is an internationally recognised validation of the technical knowledge required of foundation level security practitioners. A CompTIA Security+ certified individual has successfully proven holding a foundation level of skill and knowledge in General Security Concepts, Communication Security, Infrastructure Security, Basics of Cryptography, and Operational/Organisational Security.

### Resources & Materials

All learning resources required to successfully complete this programme are included. Students are also provided with as much personal tuition and support from our experienced Instructors as they require throughout the programme.

### Aim

CompTIA® Security+ Certification will prepare students for the CompTIA Security+ Certification Exam. On completion, the student has the requisite knowledge to sit COMPTIA Security+ Exam which is necessary to achieve Certification.

### Modules

• General Security Concepts • Communication Security • Infrastructure Security • Basics of Cryptography • Operational/Organisational Security • Network Security • Network Installation • Wireless Security • Firewalls

### Programme Objectives

Understand security concerns and concepts of the following types of devices:

- Firewalls, Routers, Switches, Wireless, RAS (Remote Access Server).
- VPN (Virtual Private Network), IDS (Intrusion Detection System), Network Monitoring Diagnostics, Workstations, Servers, Mobile Devices.
- Understand the concepts behind the following kinds of Security Topologies.
- Security Zones, DMZ (Demilitarised Zone), Intranet, Extranet, VLANs (Virtual Local Area Network), NAT (Network Address Translation), Tunnelling.
- Differentiate types of intrusion detection such as Network Based, Active Detection, Passive Detection, Host Based, Honey Pots, Incident Response.
- Be able to identify and explain each of the following different kinds of cryptographic algorithms, Hashing Symmetric and Asymmetric.
- Cryptography Confidentiality, Integrity, Digital Signatures, Authentication, Non-Repudiation, DigitalSignatures, Access Control.

The technology community identifies CompTIA Security+ certification as the perfect entry point into a Security Analyst career. Technology and certification companies including Microsoft, Hewlett-Packard, Cisco, Novell, Symmantec, Trend Micro, and others recognise CompTIA Security+ Certification as a valuable certification to have.

For more information please consult the following web page [http://certification.comptia.org/resources/objectives/Security\\_Objectives.pdf](http://certification.comptia.org/resources/objectives/Security_Objectives.pdf)

### Entry Requirements

Candidates are recommended to have two years experience in a networking role with pre-existing knowledge of TCP/IP, experience in a security related role. Best suited to someone in IT Support, Network or Server Administration or someone working in a network/security role who wishes to attain certification.

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 5th September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014. Duration is approximately 12 weeks.

# CompTIA Linux+ (Level 6)

## COURSE CODE

**CR\_KLNUX\_6**

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKLNUX6>

## COURSE FEE

€1,200 (includes exam fees)

## ENQUIRIES

Department Secretary • T: 021 433 5160 • E: [it@cit.ie](mailto:it@cit.ie) • E: [pat.mccarthy@cit.ie](mailto:pat.mccarthy@cit.ie)

### Aim

Students work with multiple lab exercises to help them practically apply course concepts and reinforce their proficiency with features and management utilities in SLES 11. These are advanced administrative skills common to an experienced administrator in an enterprise environment. Students who successfully complete this programme will have acquired the knowledge needed to become a Linux administrator.

### Module

#### **Getting Started with Linux: Novell's Guide to CompTIA's Linux+**

The Getting Started with Linux is a curriculum sponsored by Novell and maps to CompTIA's Linux+ Certification.

### Modules

- Install SLES 11
- Linux Basics
- Linux Desktop
- Linux Help Resources
- Linux Administration
- Linux Shell and Command Line
- Linux Directories and Files
- Linux Text Editors
- Linux Processes
- Network configuration and hardware
- Linux Services
- Security

### Programme Details

Training Options: Instructor-led training

Lecture/Lab: All certification and product knowledge include both lectures and hands-on labs.

### Entry Requirements

None, but is best suited to someone in IT Support or who wants to enter the field of Linux Administration.

### Duration

September 2014 to December 2014 (approximately 12 weeks).

### Validating Body

Computer Technology Industry Association

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 5th September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

# VMWare Vsphere ESXi 5.0 Install, Configure and Manage (Level 6)

## COURSE CODE

CR\_KVMWR\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRKVMWR6>

## COURSE FEE

€2,100 (includes exam fees)

## ENQUIRIES

Department Secretary • T: 021 433 5160 • E: [it@cit.ie](mailto:it@cit.ie) • E: [pat.mccarthy@cit.ie](mailto:pat.mccarthy@cit.ie)

Two evening per week, Tuesday and Wednesday 6.30pm – 9.30pm

### Delivery Method

Instructor-led training

### Duration

12 weeks which is equivalent to five days of instructor-led training: 60% lecture, 40% hands-on lab.

### Target Audience

- Network Engineers
- System administrators
- Storage Administrators
- Systems engineers
- Technical support engineers with other relevant qualification such as CCNA or CompTIA Server +, Linux + or Network +
- Operators responsible for VMware® ESX™, ESXi, and
- VMware vCenter™ Server

### Entry Requirement

System administration experience on Microsoft Windows or Linux operating systems. Technical Support, Developer and Network Engineer role.

This hands-on training course explores installation, configuration, and management of VMware vSphere™, which consists of ESX/ESXi and vCentre Server.

The course is based on ESXi 5.0 and vCentre Server 5.0. Completion of this course satisfies as a prerequisite to take the VMware Certified Professional 4 exam. Students who complete this course may enrol in any of several more advanced vSphere courses. See [www.vmware.com/education](http://www.vmware.com/education) for advanced course options.

### Modules

- Course Introduction
- Introduction to VMware Virtualisation
- VMware ESX and ESXi
- VMware vCentre Server
- Networking
- Storage
- Virtual Machines
- Access Control
- Resource Monitoring
- Data Protection
- Scalability
- High Availability
- Patch Management

### Course Objectives

At the end of the course, you should gain an understanding of the functionality in VMware vSphere 5.0 and be able to:

- Install and configure ESXi
- Install and configure vCentre Server components
- Configure and manage ESX/ESXi networking and storage using vCenter Server
- Deploy, manage, and migrate virtual machines
- Manage user access to the VMware infrastructure
- Use vCentre Server to monitor resource usage
- Use vCentre Server to increase scalability
- Use VMware vCentre Update Manager to apply ESX/ ESXi patches
- Use vCentre Server to manage higher availability and data protection

### Closing Date for Application

Completed applications must be made online with CIT before 5pm on 5th September 2014, using the "Apply Online" link on the "Apply" tab of the course information page on [www.cit.ie](http://www.cit.ie). Classes will commence in September 2014.

## APPLICATION

Apply online at <http://www.cit.ie/course/CRBSCTM7>

## COURSE FEE

€2,800

## ENQUIRIES

Jane M. O'Keeffe • T: 021 433 5627 • E: [jane.okeeffe@cit.ie](mailto:jane.okeeffe@cit.ie)

Supply Chain Management has matured from a compelling method of deriving competitive advantage, to now being a baseline expectation for any organisation, both in the private and public sector, wishing to compete in the 21st Century, and with that the professions and occupations comprising Supply Chain Management are now firmly entrenched in the armoury of essential business executives.

### Entry Requirements

This qualification is a one year step up degree for participants holding the Chartered Institute of Logistics and Transport (CILT) or IIPMM (Procurement and Supply Chain Management) Diploma, Graduateship or degree in Supply Chain Management, or an equivalent Level 6 qualification in a relevant discipline.

### Benefits

#### You will be one of the elite few...

- who will possess a degree in Supply Chain and Transport Management;
- who, as a result, will secure challenging, better paid and more fulfilling positions in the Logistics and Supply Chain;
- who will be empowered with the knowledge and skills to implement the latest best practices in Supply Chain Management in your organisation.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Modules

#### Semester 1

- Quality and Lean Operations
- Managing Performance Measurement
- Warehousing and Inventory Management
- Business and Supply Chain Strategy
- Transport Management in the International Supply Chain
- Management Accounting and Managerial Finance

#### Semester 2

- Procurement in Supply Networks
- Organisational Structure and Human Resource Management
- Leadership and Communications in the Supply Chain
- Information Technology & Supply Chain Management
- Global Trade and Customs Law
- Advanced Operations Management

### Commencement Date

September 2014

### Award

Bachelor of Business in Supply Chain and Transport Management (Level 7 on the National Framework of Qualifications)

## Yachtmaster (Offshore) Certificate

### Fleischmann Choir

**Rehearsals for this large, mixed-voice choir take place on Monday evenings 7.30pm - 10.00pm.**

The conductor is Conor Palliser. This group specialises in singing large-scale works for choir and orchestra. In recent years it has performed Beethoven's Mass in C, Berlioz's Grande Messe des morts [Requiem] (in both Wales and Ireland) and Te Deum, Borodin's "Polovtsian Dances" from Prince Igor, Brahms' Ein deutsches Requiem & Nänie, Bruckner's Te Deum, Angel Climent's Missa solemne & Motet: Caro mea, Dvorák's Mass, Fauré's Requiem, Fleischmann's Clare's Dragoons & Song of the Provinces, Grieg's Incidental Music for Peer Gynt, Handel's Messiah, Zadok the Priest & Chandos Anthem No.1, Haydn's Missa in tempore belle, The Seasons & The Creation, Hummel's Alma virgo, Bryan Kelly's Africa, Mathias's Ave Rex, Mozart's Requiem, Or!'s Carmina Burana, Poulenc's Gloria, Stainer's The Crucifixion, Vaughan Williams' Serenade to Music, Verdi's Missa da Requiem (in both Germany and Ireland) and Vivaldi's Dixit Dominus & Gloria, as well as music by J. S. Bach, Beethoven, Bernstein, Bizet, Britten, Clucas, Donizetti, Elgar, Holst, Mascagni, Mathias, Mozart, Parry, Puccini, Purcell, Stanford, Tchaikovsky, Vaughan Williams and Verdi, carols, folksong arrangements, gospel arrangements, Negro spirituals and opera choruses. The choir's programme for the 2008-2009 season included the first complete performances in Cork of Haydn's The Seasons with the RTÉ Concert Orchestra and a team of internationally-renowned soloists.

Details of the programme for the 2014-2015 season will be available from the CIT Cork School of Music's Public Office on or after 1 September 2014. The former will include performances of Britten's St Nicholas and Puccini's Messa di Gloria with the CSM Symphony Orchestra.

Membership is open to enthusiastic and committed choral singers; auditions are held if the number of applications exceeds the number of vacancies for any given section.

Applicants should complete the application form available from the School's Public Office, T: 021 480 7301.

### Wind Ensemble

**The Wind Ensemble rehearses on Wednesday nights from 8.00pm - 10.00pm and is directed by John O'Connor (Head of the CIT Cork School of Music's Department of Wind, Percussion, Voice & Drama Studies).**

The Wind Ensemble is a flexible group of up to forty members that caters for wind and percussion players of at least Grade VIII standard. The ensemble explores advanced repertory written specifically for wind groups, ranging from the wind serenades of Mozart to contemporary works.

Details of the programme for the 2014-2015 season will be available from the School's Public Office on or after 1 September 2014. Applications are welcome from external players who may be members of other bands; entry is subject to audition.

Applicants should complete the relevant application form available from the School's Public Office, T: 021 480 7310.

### Jazz Big Band

**Rehearsals for this 20-piece ensemble take place on Wednesday lunchtime from 1.15pm - 3.15pm under the direction of John O'Connor (Head of the CIT Cork School of Music's Department of Wind, Percussion, Voice & Drama Studies).**

The Big Band repertory ranges from the classic scores of Duke Ellington and Count Basie right up to the most revolutionary contemporary works. The Band performs regularly and has toured England, France, Holland, Italy, and the USA. Musicians of a good standard between the ages of 16yrs and 25yrs are welcome to apply.

### Symphony Orchestra

**Rehearsals take place on Tuesday nights from 7.30pm - 10.00pm.**

The conductors are Conor Palliser and Dr Geoffrey Spratt, (Director of the CIT Cork School of Music and Founder-Conductor of the Irish Youth Choir and Fleischmann Choir). All the members are of at least Grade VIII standard and the orchestra performs the 19th and 20th Century literature for large orchestra, regularly accompanies distinguished instrumental soloists, and performs the oratorio repertory with the School's Fleischmann Choir.

## Individual Tuition

The orchestra also undertakes other projects as they arise; for example, the highlights of its 2008-2009 season were performance of concertos by Samuel Barber (for violin) and John Tavener (The Protecting Veil for cello), Elgar's "Enigma" Variations and Ravel's The Bolero.

Details of the programme for the 2014-2015 season will be available from the CIT Cork School of Music's Public Office on or after 1 September 2014. The former will include music by Malcolm Arnold and Gordon Jacob, Tchaikovsky's Symphony No. 6 ("Pathétique") and Puccini's *Messa di Gloria* with the Fleischmann Choir.

Applications are welcome from external players who may be members of other orchestras; entry is subject to audition. Applicants should complete the relevant application form available from the School's Public Office T: 021 480 7310.

## Musicianship Skills for Adults

Adults who wish to become musically literate may enrol for this weekly 1 hour long class. Participants are introduced to the elements of pitch and rhythm through music-making. Learners also are afforded the opportunity to perform class material on Percussion Instruments, Recorder and Keyboard in addition to Singing. Participants are also introduced to the use of Music Notation Software.

There are currently three levels of Musicianship Skills for Adults. Beginners (no experience necessary) may progress from Level 1 to 2 and then 3 where more advanced concepts are introduced. Classes take place after 6pm on Monday or Wednesday and the 2013/14 fee was €130/term x 2 terms (2014/15 fee to be confirmed).

A limited number of vacancies may arise for individual tuition in singing, speech, theory of music and certain instruments. Whilst enrolments normally take place in April and are subject to audition/ interview, enquiries about vacancies are welcome at any time. Where possible, late applications will be considered. Applicants should consult the School's Enrolment Information Booklet, then consult the relevant Head of Department, and, finally, complete the relevant application form(s) available from the School's Public Office.

## Recitals and Concerts

The CIT Cork School of Music hosts a wide-ranging series of recitals and concerts throughout the year. The School also presents many performances by its own performing groups – most of which take place within the School's premises, others of which take place in venues throughout both Cork city and the country as a whole. Full details are to be found in the Music Diaries distributed free of charge by the School and Cork Orchestral Society each term/session.

**Further information may be obtained from the CIT Cork School of Music, Union Quay, Cork, T: 021 480 7310.**

Department of Media Communications

# CIT CRAWFORD COLLEGE OF ART & DESIGN

## COURSES

- MA in Art Therapy (Level 9)
- MA in Art and Design Education (Level 9)
- MA in Teaching Visual Arts for Primary and Early Years Education (Level 9)
- Fine Art Textiles (Level 8)
- Higher Diploma in Arts in Public Relations (Level 8)
- Certificate in Media Production (Level 6)
- Certificate in Radio Broadcast Media (Level 6)
- Certificate in Digital Media Design and Development (Level 8)

### WEEKEND COURSES

- Art Therapy Summer School
- Certificate in Principles of Art Therapy (Foundation Course)
- Certificate in Arts in Group Facilitation
- Certificate in Arts Participation and Global Development
- Art Therapy Introductory Weekend Workshops
- Folder Preparation
- Crawford Art Summer School

### SHORT COURSES

- Life Drawing
- Drawing/Painting
- Textiles
- Photography
- Stained Glass
- Pottery

The evening courses generally run on week nights, one night per week over 20 weeks from October to April. The Crawford College of Art & Design also runs occasional short Art courses in the above areas. These courses are advertised on [www.cit.ie/ccad](http://www.cit.ie/ccad).

### SPECIAL CONDITIONS

Course fees are inclusive of cost of practice materials only. Students undertaking individual projects are required to provide their own materials.

Students enrolling for a course paid for by a Community Employment Scheme (or similar) must produce at enrolment written undertaking of payment by scheme.

All courses will run subject to minimum enrolment.

All course fees must be paid in full on enrolment.

Course lecturing staff may be subject to change. Please note that all times are subject to change.

## **INFORMATION/ENROLMENT**

### **Online Application:**

The majority of the part-time courses have an online application process. Please visit your chosen course at [www.cit.ie/ccad](http://www.cit.ie/ccad) and click on the 'Apply Tab' to begin the application process. There is also a designated contact name for each course should you have any queries. Early application is advisable as numbers of places on courses are limited. Please note that all courses will run subject to minimum enrolment.

### **Paper Application:**

A small number of part-time courses require a paper application form. Application forms must be completed in full. It is particularly important that each applicant clearly identifies the course and subjects for which he/she is registering. The onus is on each applicant to ensure that this information is accurate.

Information/Enrolment session will take place at the CIT Crawford College of Art & Design on Thursday, 4th September 2014, from 6.00pm to 8.00pm. Tutors will give presentations on the courses on offer. For non-accredited courses enrolment will take place at this session. For accredited courses applications forms will be available.

Please note that CCAD Department of Media Communications courses take place at the CIT Bishopstown Campus. Information evening for these courses will take place at the CIT Bishopstown Campus on Tuesday, 2nd September 2014, from 6.00pm to 8.00pm.

### **All fees must be paid in full on enrolment.**

For Information/Enrolment details please contact

CIT Crawford College of Art & Design,  
Sharman Crawford Street, Cork.

### Duration

2 years Full time/3 years ACCS/Part time

### Entry Requirements

An Honours degree, or equivalent. Minimum of one year or equivalent, full-time clinical/care work in an area relevant to art therapy, paid or voluntary. This work may be, for example, in Health or Social Services, Special Education, Community Care or Day Centres, with clients who have a mental illness, learning or physical disability.

- Strong portfolio of personal artwork showing an understanding of an appropriate art form, the art-making process and use of a broad range of materials
- Two satisfactory references from clinical and professional persons who have knowledge of the candidate's education, training and experience
- Pre-course experience in personal therapy or counselling is useful
- Maturity and life experience are seen as valuable assets for training
- Willingness to enter weekly personal therapy, which is mandatory, for the duration of training
- An understanding of the implications of becoming a therapist and a willingness to further self-exploration and development

### Early Assessment

Because of the clinical placement component of this course, it is a condition of entry that all successful applicants who gain a place on the course will be subject to a Garda Clearance procedure carried out by the Garda Clearance facilitator at CIT.

### Course Structure

This is a 90 credit modular course which on completion of the training allows individuals to then register with the professional body for the Creative Therapies in Ireland, IACAT (Irish Association of Creative Arts Therapists). The training can be

completed over either a full-time period of two years or ACCS (part-time mode) of three years.

### What Does the Training Entail?

- Attendance of four days per week on the full time course (two college days and two clinical placement days) and two days per week on the part time/ACCS course (one college day and one clinical placement day)
- Personal Therapy
- Theoretical, Experiential and Clinical components comprising:

### Theoretical Studies

The theoretical foundation of art therapy is drawn from the history of art making, creativity and the psychotherapies. Models and approaches within the field of art therapy are discussed and debated within the framework of lecture and seminar series throughout the training. There is also an introduction to developmental psychology and psychiatry.

### Experiential Art Therapy Training

Students will be able to integrate theory and practice through participation in Experiential Workshops, a Training Group and Studio Practice. This gives a forum for engagement in the art therapy process, self-exploration and continuing personal development and creativity.

### Clinical Placement and Professional Studies

Students are allocated clinical placements where they are encouraged to conceptualise their personal experiences and theoretical understanding in relationship to a variety of client groups.

Supervision of the clinical experience is central to the art therapy training and is provided in small groups at Crawford College and individually on placement. Students are encouraged to experience a number of differing placement situations over the course of their training. Please note that students must have their placements in a new setting and not at their workplace.

### Career Opportunities

Art therapists work in a wide variety of HSE and social care settings, including – adult and child psychiatry, education, palliative care, addiction services and community day centres. Many also work in private practice.

## Evening Courses – General Information

### Course Fee €400

An information/enrolment evening will be held on Thursday, 4th September 2014, 6pm - 8pm. An information session will take place at 6.30pm and repeated again at 7pm. Students may enrol on the evening of the 4th September and pay the course fee to secure their place. Alternatively, students may contact the CIT CCAD office (T: 021 4335220 or E: [ccad.enquiries@cit.ie](mailto:ccad.enquiries@cit.ie)) to request an application form. Early enrolment is advisable as places are limited.

A number of the following courses have the facility also to apply online.

### Life Drawing – Intermediate

#### COURSE CODE

**ACCXXC7\_Y0**

#### APPLICATION

Apply online at <http://www.cit.ie/course/ACCXXC7>

#### ENQUIRIES

Helle Helsner • [helle.helsner@cit.ie](mailto:helle.helsner@cit.ie)

#### EVENING

Monday 7.00pm - 9.30pm

This is an intermediate course in objective drawing from the model in various media including, pencil, ink, charcoal, etc. Students need basic knowledge of gesture drawing and should have already done a beginners course in life drawing.

#### Award

CIT: Single Module Certification, 5 ECTS credits at Level 7 on the National Framework of Qualifications.

### Life Drawing – Advanced

#### COURSE CODE

**CR\_AARTS\_X\_Y1**

#### APPLICATION

Apply online at <http://www.cit.ie/course/CRAARTSX>

#### ENQUIRIES

Helen Farrell • E: [helen.farrell@cit.ie](mailto:helen.farrell@cit.ie)

#### EVENING

Wednesday 7.00pm - 9.30pm

The advanced life drawing course is an accredited module intended for artists and students who already have basic drawing skills. The course will explore new approaches to observational drawing as well as working with traditional drawing methods. This will enable students to work through the various problems that arise through the process of life drawing within a contemporary art context. Applicants should be familiar with gesture drawing and have a basic understanding of proportion and perspective. Semester 1, from October to December, will be bridging studies leading to embarking then on to the module itself in Semester 2.

#### Award

CIT: Single Module Certification, 5 ECTS credits at Level 7 on the National Framework of Qualifications.

## Drawing/Painting

### COURSE CODE

TBC

### ENQUIRIES

Eileen Healy • E: eileen.healy@cit.ie

### EVENING

Tuesday 7.00pm - 9.30pm

It is planned to offer this course as an accredited module please check for further details at the information session on the 4th September.

A drawing course for beginners and those with some experience who wish to improve their drawing skills. This course deals with improving visual concentration and eye to hand co-ordination in the studio. The course incorporates the use of colour, still life and life model. The painting course begins with the essential practice of drawing and gradually leads to painting in acrylic or oil. The course deals with colour mixing, use of materials, and painting techniques while using still life and the model as subject matter.

## Textiles

### COURSE CODE

ACCXXA7\_Y0

### APPLICATION

Apply online at <http://www.cit.ie/course/ACCXXA7>

### ENQUIRIES

Caroline Smith • E: caroline.smith@cit.ie

### EVENING

Tuesday 7.00pm - 9.30pm

This course offers a wide variety of Textile techniques including silk screen-printing and print techniques such as weaving, felt making, batik and paper making. The course is ideal for beginners or people with previous experience, and is suitable for all ages.

### Award

CIT: Single Module Certification, 5 ECTS credits at Level 7 on the National Framework of Qualifications.

## Photography - Digital

### COURSE CODE

**ACCXXD7\_Y0**

### APPLICATION

Apply online at <http://www.cit.ie/course/ACCXXD7>

### ENQUIRIES

Roseanne Lynch/Pádraig Spillane • E: [roseanne.lynch@cit.ie](mailto:roseanne.lynch@cit.ie)

### EVENING

Tuesday 6.30pm - 9.30pm

This course is an introduction to fine art digital photography orientating the student's image-making within the context of a fine art college and the discourse of contemporary photography.

The course starts with a basic introduction to operating a digital camera and processing, followed by presentations on contemporary and historical image-makers plus group discussions with students formulating themes for projects. This course values peer exchanges; students are led to recognise and value their own vision alongside gaining technical skills in camera use and digital printing to best express that vision. Students will have access to macs with photoshop, the photographic studio with a studio lighting session, and printers for producing work. Students will be expected to develop their projects outside of the class-time for analysis and discussion within contact hours.

Final assessment is by way of a portfolio of images with accompanying evidence of research and learning.

#### Award

CIT: Single Module Certification, 5 ECTS credits at Level 7 on the National Framework of Qualifications.

## Photography - Analogue

### COURSE CODE

**ACCXXA6\_Y0**

### APPLICATION

Apply online at <http://www.cit.ie/course/ACCXXA6>

### ENQUIRIES

Roseanne Lynch • E: [roseanne.lynch@cit.ie](mailto:roseanne.lynch@cit.ie)

### EVENING

Wednesday 7.00pm - 9.30pm

This course is grounded in practical instruction to enable the student make informed artistic choices when using an analogue camera, studio lighting, developing film and making prints in the darkroom.

It is a practical hands-on 'learning through doing' course with a project based outcome for assessment and includes a local field trip. The course is suitable for beginners and those with experience of using a camera and darkroom.

To complement the practical we will have a group presentation and discussions on contemporary photography. Group crits and peer learning will be a valuable part of this learning process for students to realise their creative potential. In tandem with this, students will be expected to give time to their projects outside contact hours.

#### Award

CIT: Single Module Certification, 5 ECTS credits at Level 6 on the National Framework of Qualifications.

## Stained Glass

**COURSE CODE** TBC

**ENQUIRIES** Sue Wainwright • E: sue.wainwright@cit.ie

**EVENING** Tuesday 7.00pm - 9.30pm

A practical course in glass design. Techniques for cutting, painting, firing, leading and soldering are covered. Please note that there is an extra costing (not included in the Course Fee) for the materials used in the class.

## Pottery - Beginners, Basic Hand Building

**COURSE CODE** ACCXXB7\_Y0

**APPLICATION** Apply online at <http://www.cit.ie/course/ACCXXB7>

**ENQUIRIES** Mary Timmons • E: mary.timmons@cit.ie

**EVENING** Monday 7.00pm - 9.30pm

The beginner's course is specifically designed for the novice to clay and will incorporate basic coil and slab-building techniques, pinch pots and mould making. A variety of decoration methods and glaze applications will also be considered. Course will consist of 2.5hrs studio practice time and 4.5hrs self-study each week.

### Award

CIT: Single Module Certification, 5 ECTS credits at Level 7 on the National Framework of Qualifications.

## Pottery - Advanced

**COURSE CODE** CR\_AR009a

**ENQUIRIES** Mary Timmons • E: mary.timmons@cit.ie

**EVENING** Tuesday 7.00pm - 9.30pm

The advanced course is geared towards those who have already explored the basic processes of working with clay. Therefore an emphasis on the designing of each piece, from start to finish and particular attention to decoration and glaze application will assume greater importance.

## Weekend Courses

### Art Therapy Summer School 2014

**COURSE CODE** TBC

**ENQUIRIES** Louise Foott • E: [louise.foott@cit.ie](mailto:louise.foott@cit.ie)

This is a five-day experiential art therapy workshop exploring a theme and one's personal journey therein. This course is highly recommended. It will run for five days from Sat 28th June – Wed 2nd July. For further details please see [www.artincontext.eu](http://www.artincontext.eu)

### Certificate in Principles of Art Therapy (Foundation Course) 2014 - 2015

**COURSE CODE** CR\_AATPY\_8\_Y1

**APPLICATIONS** Apply online at <http://www.cit.ie/course/CRAATPY8>

**ENQUIRIES** Louise Foott • E: [louise.foott@cit.ie](mailto:louise.foott@cit.ie)

This 10 credit Level 8 course offers a further introduction to Art Therapy, from October to April (Friday 10.30am - 4.00pm and Saturday 10.00am – 3.00pm, to accommodate travel arrangements). It usually falls on the second weekend of the month and runs over eight weekends. Each weekend students will participate in experiential workshops with qualified arts therapists. A variety of approaches to Art Therapy is introduced through workshops, lectures and seminars. For further details please see [www.artincontext.eu](http://www.artincontext.eu)

Entry to this course is by interview. Closing date for application is the end of April each year.

## Certificate in Arts in Group Facilitation 2014 - 2015

### COURSE CODE

**CR\_AGRPA\_8\_Y1**

### APPLICATIONS

Apply online at [http://www.cit.ie/course/CRAGRPA\\_8](http://www.cit.ie/course/CRAGRPA_8)

### ENQUIRIES

Louise Foott • E: [louise.foott@cit.ie](mailto:louise.foott@cit.ie)

This 10 credit Level 8 course is a community arts training programme, involving training in visual arts, drama and movement, group facilitation skills and disability equality.

It explores the potential of creativity in a group setting, within the context of disability equality and self-advocacy training. The course aims to facilitate the participation of people with and without disabilities who have an interest and commitment to the development of their creativity and group skills.

It is run one weekend a month for ten weekends from September to June, (Thursday or Friday, and Saturday, 10.30am - 3.30pm) including six three day weekends. There will be a total of 26 training days. Participants will also carry out approximately 10 hours of work practice in their own time. For further details please see [www.artincontext.eu](http://www.artincontext.eu)

Closing date for application is the end of April each year.

## Certificate in Arts Participation and Development: Creative Approaches to Global Education and Action

### COURSE CODE

**CR\_AARPD\_8\_Y1**

### APPLICATIONS

Apply online at <http://www.cit.ie/course/CRAARPD8>

### ENQUIRIES

### Part-time Course Duration

No. of semesters: 5

No. of weeks per semester: 12

No. of timetable hours per week: 6 – 8

### Entry Requirements

Eligible applicants are those who hold a Level 8 Honours H2.2 Bachelor Degree in Fine Art or Design (or similar) and either:

- Higher Diploma in Arts for Art and Design Teachers or equivalent i.e. an older qualification or a recognised teaching qualification from another country or
- BA/BEd in Art and Design Education (Level 8) or
- An equivalent qualification in art and design education or
- Applicants who hold a teaching qualification in subjects other than art and design may also be considered.
- Applicants who hold a Level 8 award at pass level or a Level 7 award (or equivalent) may be considered on the basis of significant relevant experience.

### Aims

This programme is aimed specifically at:

- Art and design educators at second-level, both experienced or newly qualified, who wish to further develop expertise in teaching art and design and who wish to advance their qualifications to MA Level.
- Community professionals with suitable qualifications with similar aspirations with regard to teaching visual arts.
- Art educators working within a wide range of educational sectors.

### Course Structure

The programme offers a flexible and accessible framework and delivery and is offered on a full-time or part-time basis subject to applicants' needs and module demand. The programme offers modules that will collectively explore the relevance of the visual arts, primarily, in the education of adolescents and adult learners. It exposes students to the crucial factors that impact on these processes.

It is designed to provide students with a wide range of theoretical and practical insights into how individuals learn through art and design. It is delivered through a flexible framework of formal lectures, tutorials and practical art and craft workshops. It offers students the opportunity to further develop their knowledge and skills in art and design teaching to meet curriculum requirements or to develop elective teaching programmes in more informal educational settings.

### The programme content provides the following themes of study:

- Educational Policy and the arts in education
- Curriculum development and evaluation for art and design
- Visual Arts Practice, traditional and technological
- Aesthetics and Art Criticism
- Art Therapy
- Inclusive and Special Needs Education through Visual Arts
- Research Methodologies

### Module Information

<http://modules.cit.ie>

CIT has developed this website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments, and exams.

No. of timetable hours per week: 6 – 8

### Entry Requirements

- A BEd (minimum H2.2) for primary school teaching or equivalent recognised qualification or
- A Bachelor of Arts (Honours) in Early Childhood Care and Education (minimum H2.2) or
- An equivalent qualification in primary, early years or special education

### Aims

This programme is aimed specifically at

- Educators at Primary level, both experienced or newly qualified, who wish to develop expertise in teaching visual arts and who wish to advance their qualifications to MA Level.
- Childcare professionals with suitable qualifications with similar aspirations with regard to teaching visual arts.
- Those involved in other specific education programmes.

### Course Structure

The programme content provides the following themes of study:

- The role of the Visual Arts in child development
- Planning and managing visual arts learning activities
- Visual Arts Practice, traditional and technological
- Art History and Appreciation
- Art Therapy
- Inclusive and Special Needs Education through Visual Arts
- Information and Communications Technology (ICT)
- Research Methodologies

## (Level 8 Special Purpose Award)

### COURSE CODE

CR\_ATEXT\_8

### APPLICATION

Apply online at <http://www.cit.ie/course/CRATEXT8>

### COURSE FEE

€1,450 for each academic year, basic materials are included)

### ENQUIRIES

Pamela Hardesty • T: 021 433 5255 • E: [pamela.hardesty@cit.ie](mailto:pamela.hardesty@cit.ie)

**Please note that intake to this course does not occur on an annual basis, the next intake is scheduled for September 2014.**

### Duration

Two years part-time, weekdays combining 1/2 days of Textiles History and Theory (Wednesday morning) with one full day of Textiles Studio (Thursday) per week for two 13- week semesters each year.

### Entry Requirements

Applicants should have a Level 6 National Framework of Qualification in Textiles, or equivalent experience in textiles techniques. Equivalency will be determined by portfolio at the interview stage.

### Early Assessment

Interviews take place in May/June at the CIT Crawford College of Art & Design. The portfolio should have previous textiles experience and any other art-related work (drawing, photography, sculpture, etc.). Large scale and/or heavy items can be documented as photographs.

### Course Programme

- Do you have a Level 6 textiles qualification and wish to progress toward a higher level?
- Or do you have many years of self-taught expertise in textiles, and have been active in producing art textiles– and would like to join a challenging group to learn more about conceptual development in the context of historical and critical research?
- Would you like to enter third-level, but would prefer a part-time option due to work/family commitments, or just as a ‘taster’ and as a possible route toward Degree?
- Or are you a practicing artist who has encountered the potential of textiles methods and concerns in the development of your work, and would like to gather skills and knowledge in the textiles area as a kind of post-grad option?

In the Crawford College, we have existing Fine Art Textiles modules taught as an option to our Degree students. The course makes these available to new part-time students, and combines these with new modules in textiles history and critical theory, to provide a challenging programme to answer many perceived needs.

Students will be registered fully within the Crawford, with full access to Library and technical facilities (Print, Metal, Wood, IT, Photography).

Offering a range of textiles processes: stitch, print, dye, feltmaking, papermaking, weaving, and basketry, in a free experimental approach encouraging innovation based on conceptual development toward a personal language.

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Award

Fine Art Textiles Special Purpose Award (Level 8 on the National Framework of Qualifications). 30 Credits will be earned transferable towards a Degree.

# Department of Media Communications

## Head of Department

Rose McGrath

## Department Secretary

Maud Coffey

T: 021 433 5810

E: [maud.coffey@cit.ie](mailto:maud.coffey@cit.ie)

**Please note:** Lecturers are on annual holidays during the summer and you should contact the Department's Administration office T: 021 433 5810.

Each course has its own unique url address from which you can apply online.

Following your application, please attend on the first night of class unless you hear to the contrary beforehand (e.g. if you do not meet the entry requirements).

Information/Registration for the Department of Media Communications part-time courses for the academic year beginning September 2014 will take place at the CIT's Bishopstown Campus on Tuesday 2nd September 6.00pm - 8.00pm.

Registration forms must be completed in full. It is particularly important that each applicant clearly identifies the course and subjects for which he/she is registering. The onus is on each applicant to ensure that this information is accurate. Early registration is advisable as numbers of places on courses are limited.

**Please Note: all courses run by the Department of Media Communications take place at the CIT's Bishopstown Campus.**

## COURSES

- Higher Diploma in Arts in Public Relations (Level 8)
- Certificate in Media Production ( Level 6)
- Certificate in Radio Broadcast Media (Level 6)
- Certificate in Digital Media Design and Development (Level 8)

## ENQUIRIES

Emmett Coffey • T: 021 432 6118 • E: [emmett.coffey@cit.ie](mailto:emmett.coffey@cit.ie)

Location: Bishopstown Campus, Room: B123L  
**Monday and Tuesday, 7.00pm - 10.00pm**

### Aim

The Higher Diploma in Arts in Public Relations aims to offer learners the opportunity to develop their communication skills within a challenging, supportive and easily accessible framework.

The course is designed to provide learners with a critical awareness of the theories and practice of professional communications as they relate to contemporary public relations and a comprehensive understanding of the role and workings of the mass media.

### Graduates of this course will be able to:

- Demonstrate detailed knowledge of the strategic function of public relations as a key form of communication by organisations;
- Apply the techniques of public relations to achieve planned PR objectives;
- Apply a range of media writing techniques required in the practice of PR;
- Demonstrate a theoretical awareness and practical application of personal presentation skills including uses and applications of multimedia tools;
- A critical appreciation of specialist areas central to the work of the public relations practitioner and of the ethical and legal issues involved in PR.

Assessment will be carried out through examination and continuous assessment (individual and group work).

### Who can apply?

Candidates would be expected to be degree holders in cognate disciplines including arts and business. It is anticipated that many applicants will be in subject related employment and wishing to up-skill with a view to job diversification or promotion. With this in mind, Recognition of Prior Learning (RPL) will be applicable for candidates entering from the workplace or applying for admission from other institutes, [www.cit.ie/rpl](http://www.cit.ie/rpl).

### Module Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

### Duration

1 Year Part-time.

**Note:** A small number of weekend workshops will also be held throughout the year. The course is delivered through a combination of formal lectures, practical's, tutorials and workshops.

### Award

Higher Diploma in Arts in Public Relations ((Level 8 on the National Frameworks Qualification).

# Certificate in Media Production (Level 6)

## COURSE CODE

CR\_HMEDP\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRHMEDP6>

## COURSE FEE

€400 per module

## ENQUIRIES

Brian Doyle • T: 021 432 6115 • E: [brian.doyle@cit.ie](mailto:brian.doyle@cit.ie)  
Rose McGrath • T: 021 433 5812 • E: [rose.mcgrath@cit.ie](mailto:rose.mcgrath@cit.ie)

### Aim

To provide stand-alone modules for those who wish to gain knowledge in Media Design Production or to expand on their range of expertise in this area. Converting the part-time evening courses to a Level 6 Certificate on the National Framework of Qualifications; the modules facilitates employers and employees and those wishing to upgrade their skills by offering individual or multiple modules in an easily accessible, learner centred manner.

### Graduates of this course will be able to:

- Demonstrate a practical and theoretical knowledge of design for print;
- Demonstrate digital image creation and manipulation;
- Present video production knowledge of the process of shooting and editing video;
- Apply a range of interactive media, design and technical skills in the production and management of media types, which can be delivered via the web.

### Entry Requirements

Candidates would be expected to have successfully completed the Leaving Certificate (or equivalent). Basic computer and keyboard skills are necessary. Recognition of Prior Learning (RPL) will be applicable for candidates, [www.cit.ie/rpl](http://www.cit.ie/rpl).

### Modules Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

- **Design for Print**  
Tuesday and Thursday, 7pm – 9pm. Semester 1
- **Introduction to Video**  
Monday and Wednesday, 7pm – 9pm. Semester 1
- **Digital Imaging**  
Tuesday and Thursday, 7pm - 9pm. Semester 2
- **Web Design and Interactive Media**  
Monday and Wednesday, 7pm – 9pm. Semester 2

### Duration

1 Year Part-Time

### Award

Certificate in Media Production (Level 6 on the National Framework of Qualifications).

**Please note** this course is delivered on Apple Mac computers and takes place at the CIT's Bishopstown Campus.

# Certificate in Radio Broadcast Media (Level 6)

## COURSE CODE

CR\_HBRME\_6

## APPLICATION

Apply online at <http://www.cit.ie/course/CRHBRME6>

## COURSE FEE

€400 per module

## ENQUIRIES

Brian Doyle • T: 021 432 6115 • E: [brian.doyle@cit.ie](mailto:brian.doyle@cit.ie)  
Rose McGrath • T: 021 433 5812 • E: [rose.mcgrath@cit.ie](mailto:rose.mcgrath@cit.ie)

### Aim

This is a one-year, two-semester programme in Broadcast Media, incorporating a work placement in the second semester. The course contains modules that facilitate employers and employees and those wishing to upgrade their skills by offering individual or multiple modules in an easily accessible, learner-centred manner.

The programme will equip its graduates with the knowledge, skills, and competencies to develop as broadcasters in a fast growing media rich and technically advanced environment. It has a strong focus on developing students' broadcasting skills and giving them a good understanding of the principles and practices of reporting, practical broadcasting and audiovisual broadcasting technology.

The programme will draw from staff expertise within the Department of Media Communications, which brings with it extensive experience of audio-visual production, journalism and new media. The Department is home to a new Master of Arts in Journalism with New Media and the staff from this programme will be delivering this special purpose award. The Department of Media Communications has extensive in-house expertise and facilities with regard to broadcast media and CIT's radio station will be available for use for the course.

A number of local and national broadcasting industries and local community radio stations have been contacted to participate in the industry placement from which we have received a very positive response.

### Graduates of this programme will be able to:

- Demonstrate the technical and production knowledge of audio-visual broadcasting technology;
- Present broadcasting practical knowledge and application;
- Demonstrate a theoretical knowledge of broadcasting and reporting;
- Apply a range of broadcasting principles and technical skills in an industry placement.

### Entry Requirements

Candidates would be expected to have successfully completed the Leaving Certificate (or equivalent). Basic computer and keyboard skills are necessary. Recognition of Prior Learning (RPL) will be applicable for candidates, visit [www.cit.ie/rpl](http://www.cit.ie/rpl) for more information.

### Modules Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

- **Introduction to Audio Visual Broadcasting Technology**  
Tuesday, 6.30pm – 9.30pm. Semester 1 (13 weeks)
- **Journalistic Writing and Principles**  
Wednesday, 7.00pm – 9.00pm. Semester 1 (13 weeks)
- **Practical Broadcasting Skills**  
Monday, 6.30pm - 9.30pm. Semester 2 (13 weeks)
- **Broadcasting Industry Placement**  
Thursday 7.00pm – 9.00pm. Semester 2 (13 weeks)

(First meeting – arrangements for work placement will then be scheduled)

### Duration

1 Year Part-Time

### Award

Certificate in Radio Broadcast Media (Level 6 on the National Framework of Qualifications).

**Please note** this course is delivered on Apple Mac computers and takes place at the CIT's Bishopstown Campus.

# Certificate in Digital Media Design and Development (Level 8)

## COURSE CODE

CR\_HDMTE\_8

## COURSE FEE

€250 per module

## ENQUIRIES

Maria Murray • T: 021 433 5810 • E: [maria.murray@cit.ie](mailto:maria.murray@cit.ie)  
Rose McGrath • T: 021 433 5812 • E: [rose.mcgrath@cit.ie](mailto:rose.mcgrath@cit.ie)

### Aim

This is a single semester programme in Digital Media Design and Development leading to the award of a Level 8 Certificate. Under the ACCS scheme, students can gain credits for each module successfully completed and accumulate those credits over time.

This programme has been developed as a bridging route for applicants who are interested in undertaking the Department's 60 credit MA in E-learning Design & Development but who do not possess the necessary background in multimedia or digital media. On successful completion of the programme, graduates will be able to research, design, and develop a wide range of digital media technologies and solutions, with such learning serving as a foundation for further specialisation with regard to e-learning and technology-enhanced learning.

The programme will draw from extensive in-house expertise and facilities within the Department of Media Communications with regard to digital media production and post-production, programming and application development, user experience research, interaction design etc. The Department is home to a number of cognate programmes, in particular the BA (Honours) in Multimedia, the BA (Honours) in Visual Communication, the MA in Journalism & New Media, the MA in Public Relations with New Media and the MA in E-learning Design and Development. The programme also draws from expertise in CIT's Online Delivery Department (see <http://online.cit.ie>) The programme is delivered flexibly with the support of many of the same tools, services and technologies which constitute the course curriculum.

### Entry Requirements

Applicants should hold a minimum of an NFQ Level 8 qualification or equivalent. Selection for this course will also be based on a short interview. Basic computer and keyboard skills are essential. Familiarity with social media and media sharing platforms and services are desirable too, as well as an interest in video production, graphic design and/or interactive media. Recognition of Prior Learning (RPL) will be applicable for candidates with existing skills or knowledge in any of the programme modules, visit [www.cit.ie/rpl](http://www.cit.ie/rpl).

### Modules Information

<http://modules.cit.ie>

CIT has developed a website which gives full details of all modules for all courses. The website also has information on recommended textbooks, average weekly workload, assessments and exams.

#### Mandatory Modules

- Multimedia Production
- E-Learning: Theory and Technology
- Web Design Basics
- Moving Image & Sound
- Creative Strategies

#### Elective Modules (choose 1)

- Interpreting Sound & Music
- Introduction to Digital Media
- Digital Culture

#### Duration

1 Semester full-time (13 weeks).

#### Award

Certificate in Digital Media Design and Development (Level 8 on the National Framework of Qualifications).

**Please note** this course is delivered predominantly on Apple Mac computers and takes place at the CIT's Bishopstown Campus during the day.
