Supporting
Engagement Activities
through Partnership and
Knowledge Exchange

CIT Extended Campus

CIT **Extended Campus** is a unique facility designed to support two-way **engagement** of individuals and organisations with academia for **knowledge exchange**, learning, research and development.

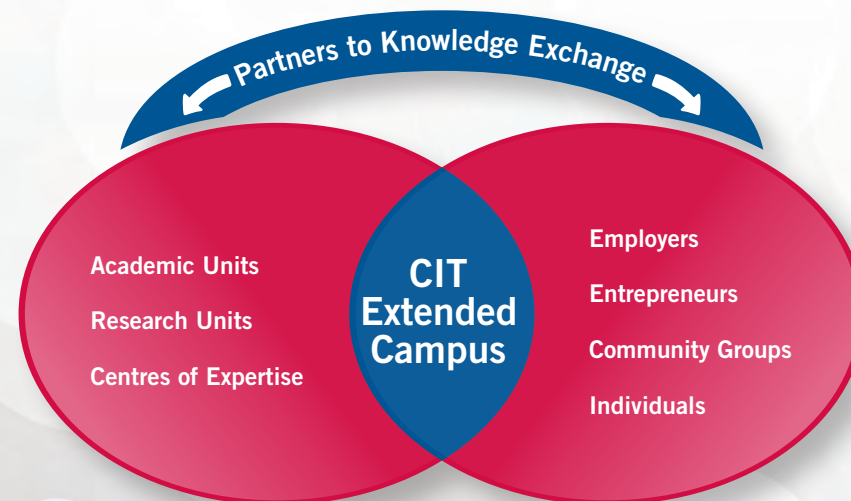

CIT's engagement activities include:

Professional development	Curriculum development
Work-based learning	Guest lectureships
Graduate recruitment	Project sponsorship
Recognition of prior learning	Research partnerships
Funding agencies	European partnerships
Work placement	Industry advisory panels
Licensing agreements	Commercialisation
Customised learning	Innovation partnerships

Vision

To facilitate **flexible** and **responsive** engagement

- Provide a central point of access to knowledge, expertise, services and facilities
- Collate and disseminate information on a range of engagement interactions
- Provide linkages and connections where needs or opportunities arise
- Explore new directions for potential engagement activity
- Monitor the progress of interactions to offer support and guidance throughout the process
- Act as an exemplar for other such services and disseminate experiences and metrics broadly through the higher education, community and enterprise sectors

CIT Extended Campus works in partnership with individuals, communities and enterprises to identify existing or anticipated needs and opportunities. We source key expertise within CIT and provide appropriate links between potential partners.
